I'm Reddy — with POWER, SIR

As in the past, you can count on me to have available an ample, dependable, economical supply of electric power so essential to our country's safety and to the prosperous growth of Delmarva Peninsula. In fact, I'll be moving into my new home sometime during the first half of 1951 (the new 26 million dollar Edge Moor Power Station, scheduled to begin operation at that time), and will be able to provide still greater quantities of power for your future needs.

In my home (generating station) at Vienna, Maryland, a new 30,000 kw steam generating unit is being added, which, when completed, will allow me to produce about 8 1/2 times the power I could generate here in 1943.

Both of these are part of the overall 60 million dollar program to help me bring you MORE POWER. It's my vote of confidence in the continuing growth and prosperity of all you folks on the Delmarva Peninsula.

there's great dollar value behind the great owner

satisfaction these cars give

From the dealers of Chrysler-built cars everywhere come reports of owner satisfaction the like of which we've never seen.

We knew we'd built to please the eye . . . we knew we'd built the best performing cars in our history—the safest—the most comfortable.

But the enthusiasm for our cars can only mean that people are also discovering the deep-down basic advantages in dollar value in every Plymouth, Dodge, De Soto, and Chrysler car.

These are the advantages that come from workmanship on the hidden part that's as careful and conscientious as the workmanship on the instrument panel—from engineering that won't cut corners, that insists on materials specified to do the best job.

You'll find character through and through our cars from styling to steel! Once you check them thoroughly against all other cars on 6 basic counts, you'll understand why they're the most wanted cars we've built.

Fine engineering that means extra satisfaction in the way your car runs, handles and stands up.

Design for people that gives you extra room for your head, shoulders and legs—full vision all around—a more comfortable, a more convenient and safer car.

Fine materials that mean longer life in working parts and greater pride in the trim, appointments and fabrics in your car.

Careful workmanship that means tighter fit of parts, nothing left loose to rattle or fall apart, thorough checking so that every last detail will be right.

Beauty of appearance that is smart, modern and enduring. Functional beauty that goes with the car's wonderful performance and outstanding inner values.

Dependable service that increases the life of your car and your pleasure in driving it. Our dealers are men of character and ability—carefully selected for their integrity and you can count on courteous attention and honest value in car care, trade-in and new car purchases when you deal with them.

As you would expect, in cars built and sold to standards so advanced, you will find important developments other cars do not offer. Floating power . . . Superfinish . . . Safety-Rim wheels . . . and dozens of other engineering advances that give you *extra money's worth* when you buy a Chrysler-built car!

certain rules or be sorry. This freedom we call freedom of speech.

In America we may write anything we wish. Our newspapers are allowed to print any information as long as they print the truth. People are not arrested for things they write or say simply because they are against our government. This freedom of the press is important to Americans.

In a Democracy everyone is given a chance to use all of these freedoms. We have the right to use them in homes, schools, and in our churches. There is nothing like a Democratic form of government.

Your American Friend,
Leora Waller, Grade 11

Newark, Delaware
October 10, 1950

Dear Friend:
Democracy in our country is very important. It is the method by which our country is governed. Democracy represents government of the people, by the people, and for the people of the United States. Freedom of speech, of the press, of religion, and the right to assemble are all allowed to us in the United States through our Democracy. We have many other rights and privileges but these are the most important so I will explain them in more detail.

By freedom of speech we mean that everyone has the right to say what he wishes about his government, local or national. Freedom of the press is merely the freedom granted to our newspapers to print the truth. Freedom of religion seems to me a very important right. It gives us the right to worship God in our own way and without anyone's telling us how to worship or when.

This is about the best I can do to tell you about Democracy in my country; if you do not understand what I have said, please write to me and ask questions. I will try to give you more information if I can.

Your American Friend,
Mary Ellen Schultz.

Alonso White III, better known as "Alonso White," has started a play school in the Gerhart house. The school started Oct. 12. The enrollment will be limited to permit easier handling. The school is as follows: Frances White, Tommy Lund, J. J. White, Jody Lang, Vance White, Luther Barker, David Kirk, and others.

Franklin and Kramblesville communities met at Franklin school on Oct. 12. Earlier, a committee appeared before the Franklin School Board to request permission and assistance in the project of installing electric lights into Franklin and Kramblesville schools. The sum of \$100 was allocated from the school for this purpose, and the project is now proceeding. Plans are now being made to paint both of the schools.

Robert Edmund Reed of Wilmington, who graduated from Wilmington Friends School in the class of '39, hit the nail on the head when he remarked that "There's nothing more coming from a distance and together friends who really get together often!"

Mr. Anson Garrett has as guest speaker, Mrs. Ritchie, who has been staying with her son and his family in Cochransville, since her arrival in Akron a few months ago.

Mr. and Mrs. George Jones and Mrs. Sanford spent Tuesday in Germantown, where they attended the funeral of an old family friend, Miss Watson, who had lived a happy life of eighty-six years. The group attended the funeral at the David Watsons, where renewed old friendships.

On Oct. 11 brought the fall banquet of the Young People of the New London Presbyterian Church at the Avon Manor. Dr. Andrew F. Murphy, Professor of Church History, Lincoln University, was the speaker of the evening.

The Presbytery of Chester met at the Presbyterian Church in Honeybrook on September 26. At this meeting the new moderator installed for the following year was Elder Thomas Millington.

Reverend Gardner announces that mid-week services were resumed the middle of September.

It seemed like all of Franklin Township assembled at the Motes on Oct. 5, with a "Serenade" in mind to honor Rachel Lynch Hess and Chester Hess, who recently announced that their marriage had taken place last July in Belair.

The large company proceeded as quietly as possible to the Hesses, but once in the front yard the "musical program" to end all "musical programs" broke loose with a volume and fury calculated to stand on end the hair of unsuspecting victims. Pie tins, dishpans, buckets, and a couple of big objects were clanged with great vigor until the serenaders began to wonder if their "spies" had misinformed them. Maybe the Hesses weren't home! Just then, in the middle of the crowd, serenading away, the Hesses were discovered!

After Page Vannoy and Ralph Ford took the Hesses for a triumphal tour of the surrounding country, everyone reassembled at Motes, and Mr. Hess treated the crowd to refreshments. Moral: Just try to get away with a quiet wedding. If it isn't rice and old shoes and knots in the pajamas, it's bells, horns and whistles at some later date.

Mr. and Mrs. D. Belmont Gardner have been house guests at the manse in New London. We want to commend in principle those people who don't let a hobby or a gift grow rusty any more than circumstances force them to, but trot it out for their own enjoyment and it follows for the enjoyment of others. We cite as an example the lovely voice of Agnes Owen Sanford. Agnes has joined the Brandywinners and the choir of the Newark Presbyterian Church, and is diligently practicing these days.

Hockessin Youth Heads U. of D. Religious Council
John F. Halloran of Hockessin, a senior majoring in economics at the University of Delaware, has been elected chairman of the University Religious Council, a coordinating and administrative body with representatives from the seven campus religious organizations.

Mr. Halloran, who is the first student chairman of the council, succeeds Dr. Vincent E. Parker, who resigned when he left Newark this fall. Previously, Mr. Halloran had been co-chairman. He represents the Newman Club, an organization for Catholic students, on the council.
