please visit [www.deldems.org](http://www.deldems.org) or call 800-685-5544.

# GEORGE BUSH'S MESS

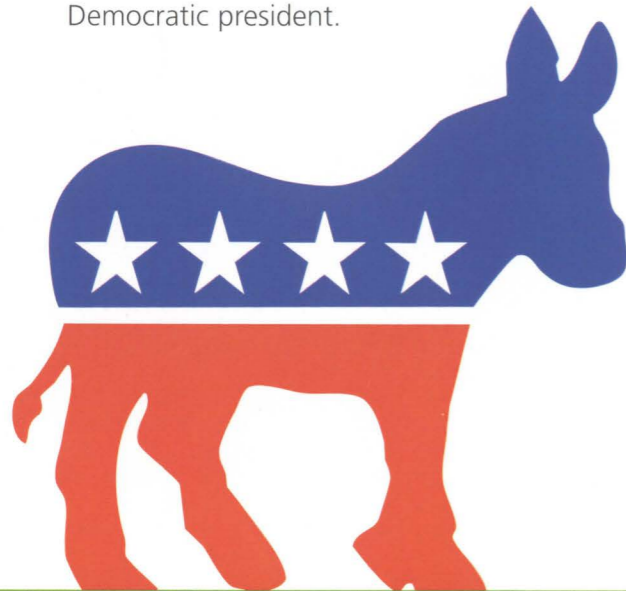

*With the right team, we can get our country  
and state moving in a better direction.*

# Delaware Democrats have a real plan to jump-start our economy.

In these tough economic times, we can't leave our future to chance.

Delaware is a great state, but to keep it great we can't keep doing things the same old way. We need change at all levels of government — from governor to the state house to local races. Electing Democrats in your local community is just as important for our future as electing a Democratic president.

Delaware Democrats have a plan of action to create jobs and protect our financial security.

- **Create good-paying jobs by investing in alternative energy** like the Blue Water Wind project and improving workforce training in areas such as wind turbine, fuel cell and solar panel production
- **Promote economic development** throughout Delaware with targeted investment initiatives
- **Make government live within its means**, just as hardworking families do every day, by slashing wasteful spending and passing the savings on to taxpayers
- **Improve access to higher education** by expanding the Delaware SEED scholarship program and partnering with our public universities to reduce costs
- **Cover the uninsured in Delaware** by pushing for a statewide insurance pool that allows businesses and individuals to join together and lower costs, as well as ensuring that all children are covered

**On November 4th, vote the entire DEMOCRATIC TICKET.**
