Dear Dannie,

Thanks for your telegram. Am distressed that your full recovery is going slowly, but the most important thing is that you are taking care of yourself, and I am confident you will be completely fit again soon. It's trying on one's patience. I know what it means.

We have one more week here - sailing March 2 - next Friday. The visit has proved pleasant and constructive. I can't go into details. Brosens and I have been busy every day. It has been no holiday in B.A. but we will have a good rest on the boat going north. The task is constructive and worth while. I'm sorry I cant write details now but they are being worked out. Brosens is fine and knows his job.

Marion and I are well. We look forward to seeing you all. I think the boat arrives the 19 or 20 March. After a few days in New York I will have to go to Washington. Love to you all from us both.

Faithfully,

GEORGE
