Merry Christmas

The Review

The Undergraduate Weekly of the University of Delaware

David Conrad Plays Amahl In 'Amahl And The Night Visitors'

By TRUDY GILGENAST

The Department of Music and the Department of Dramatic Arts and Speech will present Gian-Carlo Menotti's Christmas opera, *Amahl and the Night Visitors* on December 16, 1952, in Mitchell Hall at the University of Delaware.

There will be two performances. The public is invited to attend the production at 7:30 p. m. and may obtain free guest tickets by writing the Department of Music or calling at the Mitchell Hall Box Office between 3:00 and 5:00 or 7:00 and 8:30 p. m. daily. Students and faculty will attend the second performance at nine o'clock, which will be followed by carol singing around a Christmas tree on the middle campus.

Amahl and the Night Visitors, the first opera written expressly for television, tells the story of the miracle which occurred to a crippled beggar boy when three kings spent the night at his cottage on their way to Bethlehem. Approximately fifty minutes in length, the opera was premiered on Christmas Eve, 1951, through the facilities of the National Broadcasting Company.

In the performance at the University, the role of Amahl, the little beggar boy, will be played by David Conrad, boy soprano. David Conrad, a native of Wilmington, is in the seventh grade at the Mount Pleasant School where, as a member of the choir, he has had solo experience. For the past three years he has been a member of the choir of the Cathedral Church of St. John in Wilmington.

Many Students In Cast

Patricia Phillips, a junior majoring in Music Education at the University, will sing the role of the Mother. Miss Phillips who performed in many high school operettas before coming to Delaware was in the *Brandywiners'* production. (Continued on Page 8)

SGA Sponsors Caroling

The Student Government Association is sponsoring a mass caroling between Brown and Harter Halls on Tuesday evening, December 16, after the nine o'clock performance of "Amahl and the Night Visitors." There will be no admission charge for tickets but all students must have them to be admitted. Tickets will be distributed through the heads of house or the fraternity presidents.

The caroling will begin about 10:15 and last approximately a half hour. A brass sextet, under the direction of Mr. Robert J. King, will accompany the singing.

A huge Christmas tree and candles will be provided to lend more atmosphere and spirit to the affair. In case of inclement weather the caroling will be held in Mitchell Hall.

Players Present 'Twelfth Night'

The E-52 Players opened their second major production of the 1952-53 season, "Twelfth Night," by William Shakespeare, Thursday, December 11. Two more performances are yet to be held, one tonight, December 12, starting at 8:15, and a special "formal night" on Saturday, December 13 at 8:00 p. m. for those who wish to go to the play and then to the Christmas Dance.

A special attraction in this show is a prologue in which Dr. Cyrus Day, of the English Department, will portray Shakespeare. Dr. Day was last seen with the Players in the 1951 production of "Life With Father," in which he played the title role. Playing the leading roles in the show are Tony Mitchell as Duke Orsino, Judy Kase as Viola, Dick Evans as Sir Toby Belch, Julie Jefferson who portrays Olivia, and Joe Camp as Malvollio.

Those who saw the show on Thursday probably noticed the use of "scrim" for the prologue, which is like a translucent screen giving the effect of long-ago and far-away. Mr. Pegg and Jean DeVries, as Director and Assistant Director, take the honors for the production of this difficult show.

Dean Recommends Publications Comm.

The office of the Dean of Students, headed by Dean John W. Hocutt, has announced the establishment of a Committee on Student Publications at the recent faculty meeting. The express purpose of this committee is to serve in advisory capacity to the Dean of Students on all matters pertaining to Student Publications.

Dean Hocutt, who recommended the setting up of such a committee to President Perkins, will have the responsibility for the student publications on campus. It was felt that due to the termination of last year's Auxiliary Committee a restatement concerning the university's relation to student publications was necessary at this time.

Dean Hocutt outlined the following as responsibilities of the university toward student publications with special emphasis upon number eight:

- 1) Advise the staffs of the several student publications with the aim of maintaining a high level of ethical standards and literary and journalistic quality of these publications.
 - 2) Establish regulations governing the organization and operation of these publications.
- (Continued on Page 8)

Leadership Society Taps 13 Members

Omicron Delta Kappa, the men's national honorary leadership society at the university, has just initiated thirteen men into the circle.

The men were tapped for O.D.K. Saturday night at the halftime of the Lehigh game, and were initiated last Tuesday at the annual banquet.

Membership in O.D.K. is based on five qualities: Leadership, Scholarship, Character, Service, and Democratic Ideals. Recognition is given in the following fields: Scholarship, Social and Religious Activities, Athletics, Publications, and Speech, Drama and Music.

Seniors initiated were Sanford Ackerman, James Carbonetti, Richard Chappell, Joseph Glick, James Nichols, Don Renshaw, Ted Sandstrom and James Moneymaker.

Four juniors received the honor. They are: James Hoey, Glenn Dill, Peter Runkle, and Theodore Zutz. One other man was also initiated, alumnus Joseph McVey, an outstanding citizen of the community.

Omicron Delta Kappa was founded December 3, 1914, at Washington and Lee University. The founders desired to bring together for the good of the institution all leaders in the various forms of campus activities.

Winter Socials End Dec. 13; Xmas Dance Stars R. McKinley

By BOB SWAIN

The climax of the winter social whirl will be reached this Saturday evening, December 13 in the mammoth Carpenter Field House in the atmosphere of Santa-land, originated by the Freshman and Sophomore classes. Making appearances during the night to the music of Ray McKinley, will be such perennial favorites as Saint Nick and Rudolph the Red Nosed Reindeer amid a background of intricately woven red and white crepe paper, which will add a contrast to the men in tuxedos and co-eds in multi-colored formal gowns.

The students, whose efforts in transforming the field house into a wonderland of Christmas and securing the music of Ray McKinley, are being directed by the following undergraduates: Dave Menser, Mickie Blaine, Mike Ferver, Jackie Hackett, June Williams, Frances Cook, Martha Thomas, and Bob Wilson. It also has been arranged for Mr. and Mrs. Poffenberger, professional photographers, to be on hand to photograph the couples during the dance.

RAY McKINLEY

Featured on the decorative bandstand will be Ray McKinley, his vocalists, and, in the words of the critics, "the most versatile band in the land." McKinley has been a favorite since 1942 when he started his own band and played for crowds at such famous places as the Hotel Statler and New Yorker in New York City and in the ballroom of the Roosevelt Hotel down in New Orleans. The music of McKinley has also been featured at the Paramount Theatre in New York and Loew's Capital Theatre in Washington, D. C.

Boasting a well rounded program of music, entertainment, and humor, McKinley's group has displayed its talents on thousands of records which have made the band one of the ten most popular in the country. Ray McKinley's versatility in presentation and style, plus an array of outstanding vocalists and entertainers, have done much to put the McKinley band high on the list of America's favorite bands with such hit tunes as "Civilization," "Red Silk Stockings," "All the Way to San Jose," and "You Came a Long Way From St. Louis."

Choir Performs Handel's 'Messiah'

The Handel *Messiah* will be performed on Sunday afternoon, December 14, 1952 at 4:00 in Mitchell Hall at the University of Delaware. The A Cappella Choir under the leadership of Mr. Marvin Fennema, director of choral music at the university, will perform the entire Christmas portion, which is the first of the three main sections of the popular oratorio. The program will close with the singing of the "Hallelujah Chorus" from the Easter section.

The guest organist for the performance will be Robert Wolfersteig, who did his undergraduate study at the Cincinnati Conservatory of Music and received his master's degree from the Westminster Choir School at Princeton, New Jersey. Mr. Wolfersteig is now serving in the United States Navy. (Continued on Page 5)

DEAN MEETS WITH FRATERNITY HEADS

The Committee on Student Personnel Problems held a meeting yesterday and discussed the violation of University Social Regulations by three fraternities.

The office of the Dean of Students sent a letter December 8 to the presidents of Theta Chi, Kappa Alpha, and Alpha Tau Omega, informing them that the problem would be discussed at yesterday's meeting.

The question arose over the parties held by the three fraternities after the I.F.C. Ball. The Dean

of Students, feeling that these were clear violations of University regulations, referred to the violation to the Committee.

Present at the meeting representing the fraternities were Robert Wright, Deveraux McCarthy, James Cranston, and Alfred Isaacs, President of the Inter-Fraternity Council.

The text of the letter follows:

"Recently I discussed with you the party-dance which your fraternity held following the I.F.C. dance on November 22. Since in my opinion this social was held in clear violation of a University regulation, I have no choice but to refer this violation to the Committee on Student Personnel Problems for such action as the Committee may see fit to take.

The Committee will meet in Dean Squire's office on Thursday, December 11 beginning at 3 p. m. You are invited to be present at this meeting to state the case of your fraternity if you so desire. Will you please inform me if you do wish to be heard?

Sincerely yours,
Dean of Students

Vacation Cheer

Let's leave our term papers,
Abandon mechanics,
To heck with gas vapors
And thermodynamics . . .
. . . and down with Walt Raleigh
And history of England.
Now — hang up the holly
And dance into swingland.

We've lived thru three months
With greatest of patience —
And now we go home
For our Christmas vacations.

MERRY CHRISTMAS
AND
HAPPY NEW YEAR
EVERYBODY

Xmas Spirit

Let Us Not Forget Wish And Resolution

It may seem to you that the Christmas holidays have come up too suddenly. You are hardly prepared for them. They are the sign that says, "Final exams just around the corner." You may feel that the holidays should include all sorts of pleasures and relaxation; well, this may be true to a certain degree, but keep in mind a suggestion that a bit of vacation "grinding" may mean the difference between a flunk and —

Let us not forget the spirit of the holidays fast approaching. The Christmas spirit is one of giving. We can give the usual handkerchiefs and ties to Sister and Brother and cigars and perfumery to Dad and Mother. We can send all those cards to friends and relatives and then our obligations are fulfilled. We can do these things, but are our obligations fulfilled? Would not our parents rather have us, some of our time? We must not forget the gift, but we must also remember the receivers. Christmas is the one time of the year when "Good will toward others" is supposed to predominate. Let us be influential in spreading a University of Delaware good will wherever we may go!

And after Christmas comes the New Year. With it comes the list of New Year's resolutions, the thought of a new beginning. We recall, perhaps with regret, perhaps with gladness, the past. Perhaps we are content to forget. Let us not forget, however, the ideals of manhood embodied in "peace on earth, good will toward men." Let us not forget that we are not only the future generation of the world, but that we are at the same time modifying for future generations yet to come.

Communist Teachers

Academic Freedom A Future Challenge Now

Perhaps you have been accosted by one of the little people working for the Review about now, conducting a poll of the student opinion. One of the questions which particularly interested us is "Do you think former members of the Communist Party should be allowed on college faculties?" The answers to this and other questions asked will be written up in future issues but this one is of particular interest right now.

We noticed that a professor of English at New York University has been suspended for refusing to tell a Senate internal security subcommittee whether he is or has been a member of the Communist Party. N.Y.U. Chancellor Henry T. Heald declared, "I regard membership in the Communist Party as disqualifying a teacher for employment and believe it is the duty of every teacher to answer frankly all questions of a duly constituted committee."

At the University of California, the state Supreme Court ordered the University to reinstate seventeen faculty members who refused to sign a loyalty oath dreamed up by the board of regents in 1949. But at the same time, the court upheld the constitutionality of the Levering oath, passed by the state legislature in 1950.

Although we are not immediately faced with this problem here at Delaware it might be well for us to consider the effects of such thinking on "educational freedom." Is the problem which the Communist poses to our country so great that it should keep him off the American campus? And are we so immature and unthinking that we must be spoon-fed the "ideals of democracy" in order to be acceptable citizens? Should any institution devoted to higher learning base its attitude toward its staff on any other basis than their competence in their special fields?

Ponder these questions for a moment, for your refusal to answer them might have more effects than you think.

Letters To Editor

The Age of Reason. . . .
 Sometime ago a Supreme Court decision lifted the bar on the age-old question to admit Negroes to the University of Delaware. Maybe two years have passed since the Negro has taken his rightful place in our classes. I say rightful place without reservation. I refer, of course, to the fourteenth amendment of the Constitution of the United States which grants any human being regardless of race, color, or creed, the right to education.

This is old hat . . . We've studied this in every course from the freshman year on, and yet it is not a part of our thinking. It is frightening to think that here in the learning environment we do not welcome the Negro to our movie, our fraternal organization, or, yes, even our place of worship.

We give nothing to the Negro student by admitting him higher education to which he is entitled, when he must cower and feel unwelcome in his everyday living on our campus or in town.

I suggest first awareness of the situation, and then strong action, such as a petition to admit the Negro to our movie, to local restaurants, etc.

This matter will take even more than that, however; it will demand our own individual feelings and concern for one human being to another.

Chick Chaiken

. . . Neath The Arches

Who's to blame? Friday night the Delmelodians sponsored a dance at the Field House. Needless to say it was poorly attended. We often hear students complain of having nothing to do on weekends and what a dull place this is. Well, we've come to the conclusion it's your own fault. Good music, few classes the next day, a hard week's work behind you, these should all add up to a good attendance at any Friday night function. What's wrong?

Well, we did live it up Saturday anyway. After our victory in the fieldhouse over Lehigh, Sig Eps held a victory party. It was well attended by an interesting interfraternity group, but among the natives were Woody Joy, Judy Aucter, Dutch Craumer, Marty Metzger, Bill Ritchie, Lois Pellegrine, Vanarsdalen, and Shirley Clouser.

A select group of ATO's gathered at Frenchtown for post-game festivities. Whooping it up were Al Spang, Hope "Bright and Light" Draper, Dick Chappell, Pat Emmott, Bill Phillips, Julie Richardson, Cy Rittenhouse, and Faye Meredith.

KA's went Turf Club Way in great numbers.

Up in Wilmington the Sigma Pi Sigma Sorority was holding a conclave in the Hotel DuPont, from 9 p.m. to 7 a.m. Wow!!! Among the U-Dels conclaveing were Elaine Abrams, Howard Seebach, Sid Balick, Marlene Feinglass, Phyllis Sklut, Marv Balick, Jerry Luloff, Lloyd Kaplan, and Lou Weisfeld. Norma Levine represented a rival sorority.

A bevy of beauties helped entertain the Mask and Wiggers after
 (Continued on Page 9)

DECEMBER 7, 1952

Eleven years have gone,
 Years of Sorrows and Hopes and Fears.
 The telegrams have said—and are saying:
 "We regret to inform you . . ."
 And the boys who delivered the first telegrams
 Are in foxholes wondering,
 Wondering if their children's children
 Will still deliver the dreary news.

Social Regulations Again This Is A Watchbird

And this is a watchbird watching you!
 Remember those little stories that we read in grammar school to remind us to brush our teeth, cross the street with the lights and other commendable acts? Well, the watchbird is making its re-appearance.

According to the story on page one, three fraternity presidents are being called before the Committee on Student Personnel problems to give reasons why disciplinary action shouldn't be taken over the parties given after the I.F.C. Dance.

Only three presidents are being called in, for only three fraternities were able to find halls to rent, and the rest had to have their parties in private homes, which is O.K. The committee meeting was held yesterday, Thursday, so we don't know what action was taken.

We also don't know what excuse the presidents will present, for according to the Dean's letter they have definitely violated a social regulation in not going straight home after the dance. Apparently, the rules are interpreted differently than in past years, so the fact that these parties have been going on for years is no defense.

We can see the University's right to regulate an affair held by a group on campus, but these parties look a lot more like private affairs to us.

We are sorry this has come up at a time when there will be no more issues of the REVIEW until after Christmas. It will be interesting to see the results of the action and the administrations justification.

Guest Editorial

Moment Musical

By DR. WILLIAM FLETCHER

In keeping with the modern American philosophy of education institutions of higher learning throughout this fair land seek to provide for their students a totality of educational experience wherein the needs of the whole student will be adequately served. The fine efforts of our own university to implement this basic philosophy are abundantly manifest.

The heart of the total education program here at Delaware is a sound, academic course of study. Beyond the academic sphere, full scope and sympathetic direction has been provided for the social and athletic interests of the students. A complete counselling system has been established to vouchsafe for the student maximum benefit from his college experience.

A significant part of the larger educational program at the University of Delaware is the Artists Series of concerts in Mitchell Hall. In this series students, as well as faculty and members of the local community, have the privilege of hearing, throughout the academic year, artists of international stature, and at a pittance, comparatively speaking, due to a generous university subvention.

This old Roman cannot help but observe that the student response to this excellent series each year is not exactly what it might be. The observation seems the more cogent against a backdrop of student attendance at a Christmas Formal in the Field House with, say, Elliott Lawrence, where the price of tickets is high and solely out of the pocket of John Q. Student. Thither John Q. goes to dance, it is admitted, but he also in the process stands much and listens enraptured. Now if it be contended that our own idiom of jazz has important claims I would readily concur. (I am, you see, a one-time playing member of its guild and I have my old union card to prove it). But I would retort that these claims cannot be exclusive and I would suggest that Mr. Lawrence, George Shearing, et. al., would be the first to admit the dependence of their music upon the classical form. And if artistry and technique be the clarion cry of the Field House aficionados, I would remark that their good friend Mr. Goodman would readily acknowledge himself a pupil of Mr. Reginald Kell, our latest visitor to Mitchell Hall.

Of course, if you plead the romantic aspects of the Field House situation you may have a point. But if the old Roman may venture the suggestion, try holding her hand, lads, at the next concert by Erna Berger in Mitchell Hall. Here, too, you shall find that the heart and ears shall be filled with music, glorious music.

And the cares that infest the day,
 Shall fold their tents like the Arabs,
 And as silently steal away.

Of This 'n' That

By NEAL ROBBINS

Here at Delaware we have been given a tragic reminder of the safe driving campaign conducted throughout the country.

With the holiday season coming up, the nation's highway death toll will mount rapidly. Facts and figures on this unhappy state of affairs could be quoted here, but we have all been bombarded with facts and slogans for so long that we have built up a resistance to them. We seem to have the feeling, "It can't happen to me."

But facts show it can happen to you. Just one chance taken can be the last one, and just one more drink can be the fatal one.

Vacation is a lot of fun, but let's all get back in '53, huh? "Make it a Merry Christmas, Happy New Year and Drive Safely."

This letter was sent to the editor of the Vermont Cynic, University of Vermont:

"To the Editor:
 I like your newspaper. It is good. It is something funny. My roommate lets me read it. I read it. I have a dog. His name is Rusty. He likes to read it . . . I am in the first grade. I am 69 years old. Mother says I'm crazy. Mother is always right. I like your newspaper. I am crazy.

A Friend"

Time Magazine reports "Gadget of the week" — a "student reaction meter" invented by two professors of engineering at the University of Tennessee. "Now an engineering student can show that he doesn't understand what a professor is saying by merely pressing a button wired to a meter on the teacher's desk. The more buttons pressed the more the needle will quiver and the more it will behoove the professor to make himself clear." A boon to all students of the future, perhaps, but we are overwhelmed by a whole flock of ideas which would be even more useful.

How about a sleep-o-meter to measure a student's reaction and
 (Continued on Page 10)

SHOCKING!

By
BATTERY

All around the mulberry bush went the weasel, but at Christmas it's all around the Christmas tree go the kids and the old folk, Dad's head goes 'round and 'round when he gets that bill the day after, then he faints. He faints with a left and a right as they circle 'round and 'round the ring; but who's the winner? Why the jolly old gent, Santa himself, with his big bag of toys for good little girls and boys. And that just goes to show you that the quickest and biggest way to a well filled stocking is by graft and getting a big slice of that dough I'm always reading about.

Have you ever tried to find some jokes on Christmas? No? Well you'd have wished you had, I think. "I tried my best," sobbed the wife. "I got the very best Christmas cigars I could."

The husband again looked at the cigars in amazement.

"The clerk asked me what kind I wanted," she went on, "and I told him you were a middle-aged man and always dressed in black."

Christmas—A widely observed holiday on which neither the past nor the future is of much interest as the present.

She: Did you get the liquor I sent you?

He: Who did you send it with?

She: With Howard—the fellow with the big red nose.

He: That's like sending lettuce leaves with a rabbit!

My Dad figured this way: November runs into December, December runs into Christmas—and Christmas runs into money.

We'll come back to the holiday season in a moment. But in the meanwhile here are a couple that the editor was referring to—that is, if you take them that way.

He: I suppose you dance
She: Oh, yes, I love to.
He: Great, let's do that instead.

"Waiter, there's a fly in my soup!"
"Grab your fork quick, a trout might come to the surface."

Then there was the fellow who had the habit of collecting and putting stones in his bathroom. He had rocks in his head.

He: How's about a little kiss, honey?
She: Can't. My lips are chapped.

He: Aw, c'mon, one more chap won't hurt you.

This one is for the writers of that music column.

Bopster: Waiter, I'd like a piece of pie.
Waiter: Sir, the pie is all gone.
Bopster: Oh that crazy pie, I'll take two pieces.

"Why are you washing your spoon in your finger bowl?"
"So I won't get egg all over my pocket."

Christmas comes, but once a year's enough.

Coed Relates Xmas Customs Of France

By JOYCE PROCIOS

According to Anita Klrgo from Paris, Christmas in the United States is very similar to Christmas in France. Although the streets in Paris are not decorated, the store windows show displays with Santas, angels, and Christmas trees. The children have already mailed their letters to Le Pere Noel. They dream of the presents and Christmas fruits they will find in their shoes on Christmas morning. They dream of Christmas parties where they fish for presents grab bag style. Father Christmas is ultra modern—no sleigh for him; he travels by plane. In fact, in his haste, Father Christmas heaves bits of snow behind him on the hearth.

Christmas trees are also a part of French decoration. The traditional star adorns the top of the tree; bright balls, little angels, birds, and candles are scattered throughout. The table is decorated with the traditional candles. Most families have a miniature manger scene in their homes. The manger scene is always on snow, for the snow on the mountains is a sign of Christmas.

Christmas is a family holiday, especially for the children. On Christmas Eve Parisians attend Mass at the beautiful Cathedral of Notre Dame. At this service an all boys choir sings Christmas carols. After Mass the adults eat the Christmas Eve dinner, consisting of soup, turkey, or chicken, and, of course, French pastries. Christmas day is spent in the home.

New Year's is the more special day in France. It is the day when friends and relatives visit each other. Greeting cards are sent to wish everyone a Happy New Year rather than to wish them a Merry Christmas.

It makes little difference where we spend Christmas, for the spirit of Christmas is everywhere.

**NOTICE
DON'T FORGET!
Bridge Club Meeting
Every Thursday evening at
7:30 in Robinson Hall basement.**

Board Of Trustees Discuss Report Of President Perkins

The semi-annual meeting of the Board of Trustees of the university was held on Dec. 6. The principal topic under discussion at the meeting was President Perkins' annual report to the trustees.

The university's net increase requested is \$653,930 more for operations, bringing the annual legislative appropriation figure to \$2,091,130. An additional non-recurring appropriation request of \$936,296 has been submitted for non-recurring deferred items of university equipment and maintenance.

Approval was given to a recommendation by the committee on admissions that a deposit of \$25.00 be required of: first, all undergraduate students in residence who wish to reserve a dormitory room for the ensuing academic year, payment to be made to the Business Office between February 1 and May 15; second, all new students (and readmitted students) payment to be made to the Business Office within two weeks after the date of acceptance. This recommendation will become effective for the school year 1953-54.

For upperclassmen and new students planning to live in dormitories, the deposit will be applied toward the room rent for the first semester. For new students planning to commute, the deposit will be applied toward their general university maintenance fee.

In all cases, refund will be made if written notification of the student's withdrawal is sent to the Dean of Students before August 1.

Students Receive Information About The Naval O.C.S.

First-hand information about the Navy's Officer Candidate School will be brought to the campus on December 16 by Lieutenant Commander James A. Reed, USN, a representative of the Office of Naval Officer Procurement, Philadelphia, Pa.

There are no longer specific course requirements for enrollment in the Navy's OCS. Any college graduate, or any senior whose graduation is less than four months away, may now apply for this program regardless of his college major. A previous requirement of some mathematics training has recently been eliminated.

Mr. Reed, who will represent the Office of Naval Officer Procurement, was recently recalled to active duty. He first entered the Navy in Feb. 1943 and during World War II he served as the Commanding Officer of a PT boat in the Solomon Islands and Philippine Islands. In civilian life he is dean of men and assistant athletic director at Edinboro State Teachers College in Northwestern Pennsylvania.

Mr. Reed will be in the Library Basement Corridor from 10 a. m. until 3 p. m. on December 16, 1952. He will have data sheets giving details of the Officer Candidate program and will interview and answer the questions of interested seniors.

The Navy's Officer Candidate School is located at Newport, R. I. Classes convene every two months, and the majority of each class remains for four months training for duty afloat. A portion of each class, however, is assigned to special fields and commissioned after two months. This group completes its training at various Navy centers for specialized duty. These specialist commissions require specialized educational backgrounds. Major college fields which may qualify candidates for specialist commissions are engineering, business administration, chemistry, physics, and mathematics.

\$50,000 Granted To University For 3 Year Population Study

A research contract of \$50,000 between the University of Delaware and the office of the Surgeon General of the United States Army was announced today by Dr. Allan P. Colburn, provost and adviser on research at the university.

This grant provides funds for the first year's work in a three-year study of the educational, cultural, social and general background of the Delaware population. The project is the first extensive investigation in the field of human relations being carried out by the University.

Dr. Halsey M. MacPhee, professor and chairman of the department of psychology, is designated as chief investigator in charge of the project. Dr. Joseph Jastak, research professor in psychology at the University of Delaware, and Dr. Martin Whiteman, assistant research professor, are associated with Professor MacPhee in this basic study. Dr. Jastak will direct the field work. A number of graduate students in psychology will assist in the research study so that the project has a special value to the educational program at the university.

In addition to other members of the staff from the department of psychology the project will also draw upon the research services of the sociology faculty under the direction of Dr. Frederick B. Parker, head of the sociology department. When fully staffed, there will be from ten to fifteen psychologists, sociologists, field workers, and assistants working on the study.

The purpose of this research currently in progress at the University of Delaware is to provide means for the more efficient use of manpower in our state. The project staff will make a detailed survey of the vocational, educational and social resources of the Delaware community — not neglecting the area of emotional rehabilitation.

In discussing the undertaking, Professor MacPhee pointed out that the project is unique inasmuch as the state of Delaware is a socio-economic unit, reflecting many characteristics of the nation as a whole. Professor MacPhee also indicated that "the success of our efforts will, in large measure, depend upon the support and active interest of a great many Delawareans. We will need to talk with and obtain information from about 1000 Delaware families, which represent a cross-section of the entire population of the state. This opportunity will permit the university (Continued on Page 7)

January 16 Is Date For Military Ball

The annual Military Ball, co-sponsored by Scabbard and Blade and Delaware Rifles, has been announced for Friday, January 16. The music will be provided by the Aberdeen Proving Ground Band which has long been an outstanding favorite in the Army.

Tickets will be on sale this week and may be purchased for \$2 at the following places: basement of library, adjutant's office, Military Department; and from members of Scabbard and Blade and Delaware Rifles. Military uniforms or formal dress are acceptable and the dance is open to anyone on campus or guests.

The 18 piece Aberdeen Proving Ground Band located at the "Home of the Ordinance" has among its members many outstanding musicians who have played with name bands in civilian life. It is expected to be as good as if not better than the Second Army Band which played with so much success at last year's Military Ball.

Shorts From Other Colleges

Lafayette . . . Campus hit by three fires in ten days.

The first of the three fires which hit the Lafayette campus recently occurred in a construction shack adjacent to one of the new buildings. The other two fires which occurred were in two of the fraternity houses. The first of these two blazes originated from a paper-mache leopard which was stored on a front porch, while the second one was started in one of the rooms of another fraternity house. Members of both fraternity houses believe the fires to have been started by an arsonist. The damage to the first house included a badly blistered and charred porch roof and shattered French door windows. The members of the second house found that paper had been piled up around the rungs of a chair and that was how the criminal started that fire. Investigations are following.

Muhlenberg . . . Muhlenberg Christian Association sets goal

The Muhlenberg Christian Association established this year's goal for the World Service Student Fund drive at \$650 which is equivalent to a contribution of one dollar from each student and faculty member at Muhlenberg. It has been announced that the World Service Student Fund will represent UNESCO in American colleges. Through this program the students in the United States can now send the necessary scientific and educational equipment and books to those lands where a lack of such essentials are seriously handicapping study.

Bucknell . . . Conference to Open

The "British Commonwealth and Empire Today" Conference will be held on December 10, 11, and 12, at Bucknell University. This is the Fourth Annual International Conference at Bucknell and is designed to acquaint students and the members of the community with the present condition and problems within the British Commonwealth and how they effect the United States. Five main speakers will be on campus to participate in the conference. The five speakers are Dr. Ralph H. Gabriel, a noted and internationally known author; Mr. Frank Mennel, an active member of the British Labor Party; Dr. James Mark, the Economic Counsellor at the British Embassy; Mr. G. Hayden Raynor, Director, Office of British Commonwealth and Northern European Affairs; and Mr. Reginald Barrett, the Nigerian Liaison Officer of the British Embassy.

South Dakota State College . . . Farewell!

A new ruling at South Dakota State College has replaced kissing at the door of the women's dormitory with a casual handshake.

"It isn't the idea to completely prohibit the traditional good-night kiss," says the dean of women, "but to curb prolonged half-hour demonstrations at the door."

Chick 'n Chat

By VIRGINIA WELLS

Badminton is just about ready to take off for another year of competition. Mary Miller, badminton manager, has announced that both the singles and doubles tournaments will be of the double elimination type. The starting date for all games was Monday, December 8, and all play will end on January 23. At that time we will have new singles and doubles champions to add to the 1952 roster. All matches will be scheduled for the players by the badminton manager. If one of the players is unable to play at the scheduled time, it is her responsibility to contact her opponents and arrange a time to play. This must be done at least two hours before the time the match was to be played, or the player must forfeit. All matches must be played before the round deadline. These deadlines will be posted with a chart of game rules on the bulletin board of the large gymnasium. All matches are to be played in the mirror room. Everyone should be sure to check the chart in the gymnasium in order to see how games are progressing.

The Modern Dance Club will again don their leotards, slippers, and bright skirts for their next performance on December 11. This performance will be presented in the afternoon for all the students of Mt. Pleasant High School. The program will consist of both dance techniques and choreography. It is hoped that this demonstration will help to encourage the advancement of the modern dance program at Mt. Pleasant. In this way, the Modern Dance Club will be helping to further the development of this rather new addition in state physical education programs.

1952 volleyball is still in the embryo stage, but already girls have been getting in their required practices during afternoon and evening practice hours. The final teams, captains, and managers should become final very soon, and games will be going on full force before we can even say "Jack Robinson."

In a last minute switch, Pat Adkins has taken over the reins of volleyball manager. The former manager was Shirley Truitt. Therefore, see Pat at Warner Hall if you have any questions concerning the tournament. Now the big question is who will get the black eye this season. Rae Priestly won last year with "flying colors" — and I do mean "flying colors." It was a beaut, and all 1952 contenders will have to go a long way to match it. Good luck to all, and have loads of fun.

Last Thursday evening the Fencing Club elected two new officers to their ranks. Doris Green will be the new equipment manager, while Ann Miller will take over the post of secretary-treasurer. Plans are being made to buy additional equipment to supplement that which the club already owns. Extra individual practices are being scheduled in addition to the regular weekly practice held every Thursday night in the Women's Gymnasium.

Soph cager, Jack Loomis, showed Lehigh last Saturday that he not only poses for set shots, but can sink them on occasion when needed.

Blue Hen Of The Week

One of the standout performers in Delaware's impressive 69-52 triumph over a game but eventually outclassed Lehigh quintet last Saturday in Carpenter Field House, was lithe, 6'5" Hen forward Frank White of Wilmington, Del. The blond ex-P. S. DuPont High court star copped individual scoring honors for the evening with a fine 23 point effort, connecting on a series of deadly jump shots, mixed in with several points scored via the tap-in route. A bright prospect on Bob Sieman's yearling cage five, three years ago, Frank has blossomed into one of the most adroit and able ball players which Fred Emmerson has coached in four years here at the university.

When the basketball season ends, "Whitey" turns his attention to the Hen tennis team. Playing in the number one singles spot, Frank won ten matches, while dropping only two extremely close ones last spring. Four times Junior State Champion, Frank really hit his stride this past summer in winning the Delaware Senior State Championships, the Delaware Public Parks title and the Wilmington City Championship.

Easy-going and friendly Frank is a member of the class of '54 and is majoring in business. He is also a member of Sigma Phi Epsilon Fraternity.

Lafayette Conquers Burnham's Squad

Despite winning efforts by Capt. Tom Schultz and crafty Jerry Angulo, Delaware's 1952-53 wrestling team dropped its opening match to a strong Lafayette squad at Easton last Saturday by a 25-8 score.

Delaware was never in the match as the Leopards grabbed the first three matches as Tom Bratton, Don Rumer and Bob Collingwood all went down to defeat. Angulo broke the ice with a neat 6-0 win probably the only bright spot in an otherwise dull afternoon. Charlie Rodriguez was the next Blue Hen to feel the Leopards' stealthiness, as he succumbed quickly to a pin. After rookie Gene Holland wrestled Lafayette's McAdams to a draw, Vince Stallone fell victim to a pin with seconds to go in a rough encounter.

Capt. Schultz finished the day with a decision over the Leopards' Downing, but the defending Middle Atlantic Champ was extended throughout the match.

Delaware meets Haverford next Wednesday in quest of the season's first victory.

Summary:
123 Lb. Class: Adler, Laf., pinned Bratton, Del., 6:19.
130 Lb. Class: Snyder, Laf., decisioned Rumer, Del., 6-3.
137 Lb. Class: Laegler, Laf., pinned Collingwood, Del., 3:36.
147 Lb. Class: Angulo, Del., decisioned O'Huyvetters, 6-0.
157 Lb. Class: Downing, Laf., pinned Rodriguez, Del., 2:41.
167 Lb. Class: Tie, Holland, Del., and McAdams, Laf.
177 Lb. Class: Braun, Laf., pinned Stallone, Del., 6:54.
Heavyweight: Schultz, Del., decisioned Downing, Laf., 4-3.

NOTICE

Any men interested in trying out for the track team are asked to report to Coach Steers at practice in the hanger any afternoon.

Blue Hen Quintet Opposes U. of P. In Palestra Tilt

Blue Hen Five Downs Engineers

Last Saturday night, Coach Fred Emmerson's varsity quintet balanced its season's record of one and one with a convincing 69-52 triumph over Lehigh at Carpenter Field House before a crowd of almost 2,000 onlookers.

In the first period, sure sets by Frank White, Skip Crawford, and Johnny Loomis brought Lehigh out of a tight zone into a man-to-man defense set-up. Then in the second stanza with the score 31-30 in favor of Lehigh, Matt Lamkin's hook shot gave the Hens a one-point lead at halftime. In the next two periods, Delaware's high-geared attack got rolling to give them a sound victory at the final buzz of the timekeeper's clock.

Frank White emerged the big gun for the Blue Hens with 23 points and was closely followed by Lamkin with 18 in the scoring column. Skip Crawford tallied 13 markers to round out the scoring. Lehigh's top point-getter turned out to be Dick Slaff who tossed 19 through the hoop.

Tomorrow evening in the opening game of a big-time college double header at the Palestra in Philadelphia, Fred Emmerson's ambitious cagers engage the basketekers from the University of Pennsylvania. In the nightcap, Villanova, who incidentally meets the Hens next Thursday night, clashes with St. Francis of Loretto, led by Easy Ed Dugan, formerly of Wilmington's Salesianum High. The opening fray is at 8:00 p. m.

Penn this year is again led by Ernie Beck, an almost sure bet for All-American. For the past two seasons, the 6'3" senior has averaged 20.6 points per game. He holds the Ivy League honors for most points in a single game (45 against Harvard), single season total (284 in 12 games), and field goals (108). Last year, Beck was leading scorer in the Philadelphia district with 596 points. Recently, he was elected co-captain of this season's Red and Blue quintet along with Tom Holt.

Other starters for the Howie Dallmar-coached squad are the above-mentioned Holt, Dick Heylum, a 6'4" sophomore sensation of last year, Karl Hoagland, a 6' second year man, and Larry Masters, a 6'3" junior sharpshooter.

Shootin' The Breeze

By CHARLES WILLIS

Although the Peoria journey into the big leagues wasn't too successful, Capt. Dick Evans and his mates pulled themselves together to whip a highly touted Lehigh five last Saturday night by a margin close to some 20 points in a 69-52 final score. A 30 point final half insured the victory for the Hens which moved the consecutive home winning streak to 11 games.

The Hens' Skip Crawford and Eddie Cahn of the Engineers, scoring leaders last year, were held in check most of the contest, amassing 13 and 2 points respectively.

Johnny Loomis, who played a whale of a floor game for the Hens, seems to have taken Dick Goldberg's job of last year as the playmaker of the team.

The game with Rutgers this past Wednesday is the last home contest until January 7, when we face St. Joseph's. During the interval, Coach Emmerson's hoopsters will play four games and compete in a tournament at Hofstra College.

At Christmas Dance time this Saturday night, the Hens will be facing Ernie Beck and his talented University of Pennsylvania teammates at the Palestra in Philly. In Penn, who posted a 21-8 ledger last year, Delaware will be facing a strong contender for the Ivy League Cage title this season. Beck, who was nominated to several All-American teams last year, is performing to expectations this year, as evidenced by his 24 markers against Maryland.

The Hofstra Tournament, which takes place December 26-30, will feature outstanding Eastern Colleges. Johnny Borreson, who is doing the wrestling write-ups for the Review, will cover the tournament for the Review.

The more avid basketball fan would have noticed Saturday night that a new foul shot rule is in effect this year. In essence, a player that missed the first shot will get another shot. But this rule covers only the first 37 minutes of the contest. The last 3 minutes are taken care of by a rule which gives two free throws for every foul committed. Also during the 3 minute period no foul shot may be waived. This last clause was inserted to cut out the football tactics that are often used by a team desperately trying to intercept the ball after a foul has been waved. Confused now, eh?

Rebounds —

Nice to see Marty Pierson at the Lehigh game Saturday night. The former frosh coach is now coaching at Duke under Bill Murray.

If you didn't notice, Jimmy "Bucknell" Flynn holds forth at the mike as announcer during home basketball games. Tom Schultz keeps on winning for "Whitey" Burnham's matmen. Just like Old Man River, keeps rolling along.

Bill Murray has been voted the outstanding football mentor of the Southern conference by the conference coaches—Hen Mermen will open against La Salle tomorrow. Frosh swimmers will be strong this year with Freddie Foveibott leading the way.

Al Brodhag, stellar tackle on the '51 eleven, parted from his army duties to take in the Lehigh game.

Sigma Nu has established itself as the team to beat in the Inter-Fraternity Basketball League. They have whipped Theta Chi and Sig Ep by convincing margins.

Choir Performs

(Continued from Page 1)
at the Bainbridge Naval Training Center.
Student soloists, trained by Mr. Fennema, represent a broad cross-section of the campus. The soprano soloist, Dorothy Locke, from Hadonfield, New Jersey, is a junior majoring in sociology. Before coming to college she did much solo work in church choirs and in her high school chorus. Friends of the university will recall her solo role in the Department of Music's presentation of Gilbert and Sullivan's *Trial by Jury* several seasons ago. Shirley Hanby, who is making her debut at the university when she sings the alto solos, is a freshman student from Baltimore, Maryland.
The bass soloist for the performance is Benjamin Hatch, a senior civil engineering student. From Haver town, Pennsylvania, Mr. Hatch has been very active in the choral groups at the university. Another senior will take the tenor roles. Herbert Keene is a music major in education and is well known as a soloist both in Newark and his native Wilmington.

The public is cordially invited to attend the concert.
Handel's *Messiah* will be presented in various neighboring towns in addition to this performance at Mitchell Hall on Sunday.
Music Group On Tour
Last Sunday afternoon, December 7, 1952, the initial performance was given at St. John's Methodist Church in Seaford, Delaware. Another church engagement was on Wednesday, December 10, at the First and Central Presbyterian Church in Wilmington. In addition to the other student soloists, Janet Smith of Wilmington was the soprano soloist for this performance.
On Thursday, December 11th, the Choir travelled to Penns Grove, New Jersey, where they sang the *Messiah* for the Penns Grove High School.
After the Christmas holidays a final performance of Handel's *Messiah* by the University A Cappella Choir will be given for the Diocesan Book Forum at Ursuline Academy in Wilmington on Tuesday evening, January 13th, at eight o'clock.

When shopping for a Christmas gift, Get something that he likes - For cleaner, fresher, smoother smokes, He'd love some Lucky Strikes!

E. Arlene Goldfarb
Newark State Teachers College

In French I'm taught so many words - For instance, "my" is "mon"; But I don't go to class to learn Un Lucky Strike est bon!

Doris Bratt
University of Nebraska

LUCKIES TASTE BETTER!

They're made better to taste cleaner, fresher, smoother!

Ask yourself this question: Why do I smoke?
You know, yourself, you smoke for enjoyment. And you get enjoyment only from the taste of a cigarette.

Luckies taste better—cleaner, fresher, smoother! Why? Because Luckies are made better to taste better. And, what's more, Luckies are made of fine tobacco. L.S./M.F.T.—Lucky Strike Means Fine Tobacco.

So, for the thing you want most in a cigarette... for better taste—cleaner, fresher, smoother taste... Be Happy—Go Lucky!

FOR A CLEANER, FRESHER, SMOOTHER TASTE...

Be Happy—GO LUCKY!

COLLEGE STUDENTS PREFER LUCKIES IN NATION-WIDE SURVEY!

Nation-wide survey based on actual student interviews in 80 leading colleges reveals more smokers prefer Luckies than any other cigarette by a wide margin. No. 1 reason—Luckies' better taste. Survey also shows Lucky Strike gained far more smokers in these colleges than the nation's two other principal brands combined.

While searching for a smoother smoke, I found a tasty treasure - It was a firmer Lucky Strike With deep-down smoking pleasure!

Tony Mitchell portrays the role of Duke Orsino, the love-sick, ardent lover of Olivia.

Judy Kase, as Viola, plays the third in the hilarious love-triangle.

Engineers Hold Meeting

The student chapters of the A. S. C. E., A. S. M. E., A. T. E. E., and the A. I. Ch. E., will hold their annual joint meeting next Monday evening, December 15, at 7:30 p. m. in Old College Lounge. Mr. Ernest W. Baker, Chief Engineer of the Western Division of the Bell Tele-

phone Company, will be the guest speaker for the evening. His topic will be "The Engineer and His Problem."

This meeting is to be attended by the student members and the Wilmington Section members of these societies. They have extended an invitation to anyone interested.

Element Discovered By Chemistry Major

An enterprising graduate student in chemistry at the University of Delaware, anonymous by request, is being seriously considered as a recipient for the Puleeze Prize for Preservation of the Species for the astounding discovery of an element which has no doubt existed for some time but heretofore has never been thusly described—the element Woman!

WOMAN — symbol woe — is a member of the human family. Accepted atomic weight is 120, although a number of isotopes have been observed with weights varying from 100 to 160.

OCCURRENCE—Is abundant in nature, found both free and combined, usually associated with man.

PHYSICAL PROPERTIES — A number of allotropic forms have been observed. Their density transparency, hardness, and color vary with wide limits. The color exhibited by some specimens is a surface phenomenon and is usually due to a closely adhering powder. It is found that an unpolished specimen tends to turn green in the presence of a highly polished one. The boiling point of some varieties is quite low, while others are apt to freeze at any time. All varieties melt under the proper treatment.

CHEMICAL PROPERTIES — Absorbs seemingly limitless quantities of expensive foods. Many naturally occurring varieties are highly magnetic and in general the magnetism varies directly with the square of the valence and inversely as the density, size, and the cube of the age. The ionic migrations vary widely. All varieties exhibit a great affinity for Au, Ag, and Pt, and for precious stones, both in ring and chain structure. The valence toward these substances is high, and its study is complicated by the fact that the residual valence is never satisfied. Many stable and unstable unions have been described. Some varieties, being highly explosive, are dangerous in inexperienced hands. In general, they tend to explode when left alone temporarily by man. The application of pressure to woman produces such a variety of results that they defy the "Gas Laws" (hot air).

USES—Highly ornamental. Wide application in art and domestic science, acts as a positive or negative catalyst in the production of fever, as the case may be. Useful as a tonic in alleviation of sickness, low spirits, etc. Efficient as a cleansing agent. Equalizes the distribution of wealth. Is probably the most powerful reducing agent of income known.

CONTACT PROCESS—KIS 2—is a conjugate salt, the reaction taking place more rapidly in the absence of light. KIS 2 has a sweet taste and an ethereal odor. When taken in small quantities it produces a nauseous affect. It is soluble in distilled moonlight and is best precipitated in the absence of light. The presence of a catalytic agent such as love increases the speed and also the temperature of the reaction. Therefore it is exothermic in the presence of the above catalyst.

Notice

"Twelfth Night" will begin promptly at 8 p. m. on Saturday evening, December 13. This will enable students to attend both the play and the Christmas formal.

NOTICE

Will all persons who took the Junior Management Assistant Tests on December 6 please see Dr. Dolan in his office in Hallihen Hall immediately.

ALUMNI
NOTES

By
Martha
Phillips

Congratulations to Dora Monaco of the Class of '51. She has been a student at the Vanderbilt University School of Medicine for the past year and her efforts have been rewarded by a \$2,000 scholarship from that institution. She will study audiology and speech. Good luck to a good student.

Caesar Rodney school has taken two Delaware students from the Class of '52. They are Adele Feldman who will teach girls' physical education and Mary Appleby who will lead the first grade urchins into the halls of ivy.

On the subject of new teachers, Helen Lilley, Class of '52, is now teaching English and social studies to the junior high students of Claymont.

Edith May Lupton treked to New York to work as secretary to a doctor in the Pharmaceutical Advertising Department of the American Cynamid Company.

Germus Matrimonius has gone on a rampage and victimized many ex-Delaware students. Barbara Joan Bowers and Donald L. Magness, both of the class of '51, took the plunge a few weeks ago at Richardson Park Methodist Church and have set up their honeymoon cottage at 1300 Carr Road, Holly Oak Terrace, Wilmington.

Miss Betsy Simon and Frances Saffo of the Home Management House here on campus gave a shower for Marie T. Hutchison on November 7. Marie became Mrs. John G. Torkelson on November 8, following a nuptial mass at Christ Our King Catholic Church in Wilmington. The Rt. Rev. Msgr. John F. Lynch presided and the ceremony was followed by a reception at the home of the bride's parents. Both the principals were 1952 graduates.

Robbie Stevens, class of '52, is in the Navy now, or rather her husband is. On June 21, 1952, Robbie became the one and only of Ensign William M. Wolff, Jr. at the Naval Base Chapel in Philadelphia. The couple arrived in Hawaii in late August and are now living at 454 B Kuamoo Street in Honolulu. Janet Vansant, also of the class of '52, was Robbie's maid of honor.

Ruth Anne Webb, class of '52, cooked a rice pudding for Dale Harrison, '51. Dale caught the "makings" in his top hat as he and his bride dashed from the church after the ceremony on November 29. Harry Loose and Eleanor Williams Loose, both of the class of '52, were the bride's attendants. Mr. and Mrs. Harrison are now living in Fort Knox, Kentucky.

We would think Christine Walton would have had enough of teachers when she left the U. of D. last June, but apparently she didn't. A week after graduation Chris became Mrs. Robert Shaw and is now living in Selbyville, Delaware where her husband teaches school. Here's a gal who went all the way to Texas to marry her guy. Emille H. Bayne married Lt. Lawrence Hartnett in St. Michael's Catholic Chapel, Fort Bliss, Texas. Both the newlyweds are 1952 grads and they are now living at 4424 Hueco Street, El Paso.

Phyllis Schafer promised to love, honor and throw dinner plates at Edwin A. Fluevog, Jr. The promise was made on October 18 with maid of honor Nancy Diehl, '52, and Lt. Nelson Wilcox, '52, looking on. The couple have set up housekeeping at 5801 Summands Avenue, Baltimore. Both Phyllis and Ed are '52 graduates.

Another Delaware grad picking confetti out of her hair is Evelyn L. Liarakos, class of '52. Evelyn became Mrs. Constantine N. Mitsopoulos on September 7, 1952. The couple will live in Wilmington while Mr. Mitsopoulos, a graduate of the Greek Orthodox Seminary, Brookline, Mass., awaits ordination.

Two future Delaware students have arrived at the homes of three grads. Susan Beth Miller, six pounds, six ounces, is now a member of the Frank Miller household at 169 Baynard Blvd., Claymont, Del. Frank is a member of the class of '52 and Mrs. Miller, formerly Barbara Shafer, graduated in '51. The new addition arrived on October 18.

Mr. Stork flew over Delaware Hospital on November 13 and shortly thereafter Mr. and Mrs. Frank H. Lamson-Scribner took a daughter home to 119 B Thomas Drive, Monroe Park. Mrs. Lamson-Scribner is the former Nancy Doom, a member of the class of '52.

It's In The Book

By METC

After searching very diligently through the Robinson Hall Juvenile Library we arrived at the startling fact that there is no Mother Goose Rhyme suitably pertaining to Christmas! Now ain't dat sumplin'.

Having consulted the entire English Department and the complete staff of the Review we decided that in the spirit (4 Roses, please)—a wet mitten to the gentleman—of things we would endeavor to captivate our entire reading public—all two of you—by writing, the most original, the most humorous, the most touching literary achievement yet composed on this campus. Neal Robbins has given his complete, hearty approval and the Cauldron is clamoring for contributions.

And here it is, the literary masterpiece of all Delaware—nay of the United States—and yea, even more, nay of the world, and sung to the scintillating rhythm of Xavier Cugat's rhumba band—with the faint sound of Chihuahuas yapping in the background, to the tune of "Row, Row, Row Your Boat."

- tion of the several publications.
- 3) Establish qualifications for the major staff positions on these publications, and review the elections and appointments to these positions to determine that established qualifications are met.
 - 4) Formulate publications' advertising policies.
 - 5) Determine publications' business procedures.
 - 6) Define the role and responsibilities of the advisors to the several publications.
 - 7) Review and approve publications' annual budgets prior to submission of these budgets to the Student Government Association for final approval.
 - 8) While the university should have no voice in editorial policy of any student publication, it should, through appropriate channels, continually remind the student editors of their responsibilities to see that libelous, scandalous, and obscene material is not published.
 - 9) Formulate procedures and regulations governing the establishment, disestablishment, and suspension of student publications.
 - 10) Encourage participation by undergraduates on the staffs of the student publications.
 - 11) Determine the relationship between the business managers of the several publications and the Coordinator of Student Activities who will supervise the following:
 - a—Publications' business practices.
 - b—Preparation of advertising contracts.
 - c—Collection of advertising debts.
 - d—Solicitation of printing bids and the granting of contracts to printers on the basis of solicited bids.
 - e—Collection of publications' revenues.
 - f—Disbursements of publications' funds on the basis of budgets approved by appropriate university officials.
- Membership on this committee shall include the faculty advisors to the several student publications and the student editors and business managers of the publications.

Pictured above are (standing) Ralph Spotts, Andrew Schmidt, Hugh Martin, (seated) George Simpson, and Dawson Blest, recent initiates into the Delaware Chapter of Alpha Zeta, honorary agriculture fraternity. As shown here, the new members are clothed in the traditional AZ garb — straw hats, plaid shirts, bib overalls, corn necklace, painted and signed AZ keys, old shoes, and implements.

David Conrad

(Continued from Page 1)

tion of the *Mikado* and at the University sang the soprano solo in the Music Department's performance of the Brahms' *Requiem* last spring. Ralph Spotts, tenor; Donald Hornberg, baritone, and Glenn McKibbin, bass, are cast as the Three Kings. Ralph Spotts, a junior in Agriculture Education, is from Cochranville, Pennsylvania. At the University he is a member of the A Cappella Choir and has been active in all of its activities. Donald Hornberg comes from Wenhaw, New Jersey. A junior in Chemical Engineering, Mr. Hornberg took part in the E-52 Players production of *Finian's Rainbow* and sings in the University Men's Chorus. Glenn McKibbin is a senior majoring in History. In high school he was very active in operettas and participated in the Brandywiners' presentation of the *Fortune Teller*. Margaret Scott, Pennvia Green, and Donald Race will perform the dances. George Nagy will be the Page. The Shepherds, consisting of members of the A Cappella Choir, will include: Judith Evans, Catherine DeLellis, Ruby Fisk, Marcia Mumma, Carolyn Clift, Grace Bosard, Margaret Paff, Betty Andrews, Janice Merrick, Mary Jane Raftery, David Riblett, James Lawrence,

David Sharp, Gerald Buckson, William Harkins, Lee Rice, Allen White, George Nagy, Merle Knotts. **Music and Dramatic Depts. Join**

The entire opera is a joint production of the Music Department and the Department of Dramatic Arts and Speech. Thomas B. Pegg and Herman Middleton, members of the Department of Dramatic Arts and Speech, are the dramatic and technical directors, respectively. Marvin R. Fennema, director of vocal music at the University, is in charge of music. Elizabeth Crook of the Department of Music has created the dances. Mildred Gaddis, also of the Department of Music, will be the accompanist for the opera.

The two performances of the opera, the first classic of its kind in video, at 7:30 and 9:00 p. m., will be highlighted by the singing of Christmas music by the University Women's Chorus under the direction of Mr. Fennema.

After the nine o'clock performance the faculty and students of the University will gather around a lighted Christmas tree on the campus to sing carols. The Brass Sextet under the direction of J. Robert King will furnish the music for the campus singing. The sextet is composed of the following: Ted Sandstrom, Neil Thomas, Lorin Krusberg, George Gronde, George Mitchell, Irvin Rinard.

 Overture to Abu Hassan

Christmas music is now flooding the music market, and by the time December twenty fifth rolls around we'll have more than our fill of the same. Each year, of course, some of the songs rise into popularity automatically. We are referring to songs like "White Christmas," "Jingle Bells," "Sleigh Ride," etc. But with each succeeding year there is a new crop of Yuletide melodies, and at least one always receives a lot of attention. This year "I Saw Mommy Kissing Santa Claus" has grabbed the "new song" spotlight. We imagine there are more versions, but we have only heard three. One by Jimmy Boyd, another by Spike Jones of "Rudolph, the Red Nosed Reindeer" fame, and the other by Mollie Bee. Of the three, Mollie Bee does the best job. She is a girl of thirteen and she gives the song a lot of sincerity; Jimmy Boyd gives it a moaning hillbilly treatment, and Spike Jones' version has a definite artificiality, probably because it is done by a man who tries to make himself sound young.

Year in and year out, Bing Crosby has a definite lock on Christmas music. He has probably made more records about Christmas than any other artist since the beginning of the recording business. His smooth, relaxed voice is perfect for almost any type song, and he just seems to relate that Christmas spirit. This year is no exception as "Der Bingle" is already leading in record sales.

We were just wondering what the Christmas songs would be a few years from now, say in 1962. With the decided swing toward jazz, I imagine we'll be hearing songs like "The House Will Rock From Now Till Christmas Eve" by the five Reindeers, or "Hepcats Holiday" by the Sleighriders, or maybe even "Jingle Bells Boogie" by the Santa Claus Trio. Seriously though, what would Christmas be without Christmas music? It would be like Delaware without Sussex County. When we were told to write about this topic, we were really floored. We like music in general, and we can't help liking Christmas music. It gives most everyone a feeling of warmth and of belonging. To sum everything up for the coming vacation, here is our pick of the week: "Merry Christmas to You" by Nat "King" Cole.

Campus capers call for Coke

There's fun-filled confusion when the campus empties into cars, trains and planes as Christmas holidays begin. Heading for good times? Pause for a Coke and go refreshed.

Greek Column

Sigma Nu

It's been a fabulous year socially speaking. Almost every weekend has had its share of fun to offer and we've enjoyed every minute of it. But, you know, that work that's been put off? The awful truth dawned, doesn't it? There's not much time remaining in this term, and as everyone on campus, we suppose, are the snakes on putting to good advantage these last few days before that welcome Christmas vacation. Let's hope our luck holds!

Nice chatty house party Saturday night . . . nice game, too . . . looks like a good year ahead for the team . . . Jack Loomis, too . . . Atlantic City and Joni James not bad . . . neither's Bob Wilcox's harem . . . Middle Atlantic's champ Tom Schultz and Jerry Angulo, winners in the first wrestling meet.

Delta Tau Delta

The local Delts had a wonderful time Wednesday night entertaining 18 Ferris Industrial School boys, taking them first to the Rutgers game and then back to the Shelter for refreshments afterwards.

Copies of the recently published fall issue of our chapter paper, **The Diamond State Delt**, are being sent out by Brothers Strothman and Allen to other chapters across the nation and also to our alumni.

A terrific bit of news popped up last weekend when Dave Menser pinned Edie Evans. Wednesday night found brothers and pledges serenading Edie. Plaudets should also go to Ted Sandstrom and Glen Hill for joining Lem Lilleleht in the Omicron Delta Kappa Leadership Fraternity.

The Drivin' Delts basketball quintet is still looking for its first win, which should come fairly soon if pledge Spen Hedger's spirit and hustle have anything to do with it. See you at the Christmas dance.

Alpha Tau Omega

The ATO's have really been in the news for the past few weeks. Congratulations are in order to . . . Brother Don Renshaw recently initiated into Omicron Delta Kappa and Tau Beta Pi, an honorary engineering fraternity; Dick Chappell initiated into O.D.K.; Russ Myers pledged by Scabbard and Blade; and last but not least best of luck to the new co-captains of the soccer team, Bob Jamison and Jack Knapp.

Congratulations also to Doug Huggard who was recently received into pledgeship.

Brother Jim Scotton, U. S. Army, was heard from last week and he is now stationed at Camp Breckinridge, Kentucky. He will soon be going to Finance School in Indiana.

On Monday Dec. 15 the ATO house will be open to the children of "Our Lady of Grace" Home for our annual Christmas Party.

Let's not forget the Christmas dance this weekend. Brother Dick Chappell, SGA Social Chairman, has been working hard on this one and it promises to be one of the best.

Pi Kappa Alpha

This week saw President Hal Prettyman and Brother Bill Keyser heading for Bethlehem, Pa. to attend a district convention at Lehigh University. Brothers George Palmer, Bob Fisher, and Bob Pillow were also on hand for the Saturday night festivities at the Lehigh chapter house. The convention represented by chapters from Penn State, Syracuse, Carnegie Tech, Maryland, Rutgers, Penn, Delaware and Lehigh, as host was a great success.

In the success department the

Pi Kap basketball powerhouse led by pledge Steve Butcher is having its share. The record now stands at one win and one loss. Also in the line of success, I believe congratulations are due to the Blue and Gold quintet on their first home victory of the season. We want more!!!

SPE

It was a pleasure to see so many alumni and guests in the Panther Room after the game Saturday night. Giff Nowland and Ginny McQuade, Ralph Gessel and Nancy Ruos made their first appearance of the year. Ralph and Giff just returned from a tour of duty in Juarez, Mexico. Good to see the boys back safe and sound.

Bill Ritchie supplied the entertainment for the party with his interpretation of "Sleepy Time Down South." "Hop Along" Reybold supplied the accompaniment on his guitar.

The Sig Ep cagers lost their first to a strong Sigma Nu team. The B team was more fortunate. They defeated the Sigma Nu C team and the Downhomers. There are many good teams in all three leagues and the fight for the championship should be quite a good one.

Congratulations to the Delaware team for their fine performance against Lehigh. Frank White sparked the team to a 69-52 victory. Up and coming "Pistol Pete" Kelleher saw some action, too.

This being the last issue of the Review before the holidays, Sig Ep wishes everyone a Merry Christmas and a Happy New Year.

OX

Last Saturday night the boys up on the hill got together to throw a T. V. party—part of the inauguration of our new television set. During the course of the party we found Jack "Ace Up the Sleeve" Messick and Louise Puder, Don "The Big Dealer" Montgomery and Louise, Joe "Hands Under the Table" Miller, and several others sitting around the "Upper Room." The party was quite a success, a major source of entertainment being Bill "Jerry" Colona, the "Celestial Scotsman," with his repertoire of Scotch jokes and songs. And you think Bobbie Burns has something to brag about?

After the party some of the brothers took in the basketball game to finish off the evening. Seen at the game were Don Kiddoo, Al Brodhag, and Joe Miller, a few of our alumni. Nice to see the boys back. Belated congratulations to John Borrenson on his pinning to Charlotte Zirpoll.

KA

The Love Bug has really hit KA recently. Congratulations are in order for Margie Scott and Jim Lawrence, Sue Conner and Neil Thomas, Pat Billings and Bob Baynard, Ann Short and Bob Wilson.

Our basketball team, under Coach Ryan's guiding hand, has gotten off to a good start with two wins. It looks like a tight league and we will really have to keep dumping them to keep out of that loss column. We are looking forward to our Christmas House Party and of course to that much needed break from the books that follows. Everybody have a good vacation.

AEPI

First off, the brothers want to congratulate Ted Zutz, Joe Glick, and Sandy Ackerman upon their initiation into ODK.

Hats off to Gene (Bully of the Beach) Holland for a draw in Saturday's wrestling match against Lafayette. The house ruffian gained two of the eight points the Blue Hens managed to get.

Saturday also saw Hank Bertuch, Rhoda Weisman, Mark Rappaport, and Marion Gansberg travel down to Atlantic City for the day. All

four visited the Weisman plantation by the sea and really lived it up.

Giving out with the vocal and moral support at the Lehigh basketball game were Bobby Goodman, and Hope Orloff, along with Dave (the older one) Goodman, and Harriet Lewis. Everybody really enjoyed Delaware's first victory.

Sam (Frogman) Nord and Lois Malamut, along with Mike Margolis and Lee Lang completed the weekend with the excursion out to the Old Mill.

. . . Neath The Arches

(Continued from Page 2)

their fine production "Here's Howe" at the Playhouse. A party after the show ensued at the Wilmington Country Club. Pouring were Nan Gast, Ann Ferguson, Mitzi Greeley, the McClellan sisters, Alice Jefferson, Dot Melick, and Nancy Clark. Carrie Williams and her fiance, Bill Ward, were also

there. Bill is president of Sigma Chi at Penn.

In Passing . . . Lush Meyers has a new nickname given to him by one of our oomph gals. Just call him ugly . . . We hear there is a Freshman boy on campus terrified of mice . . . Christmas spirit is high. Apartment M celebrated Friday night . . . Make a night of it, Twelfth Night, Intermission Party, and the Dance . . . Several fraternities planning Friday Christmas parties . . . Try to see Amahl and the Night Visitor at the second showing on Tuesday at 9 o'clock. A campus caroling session is planned after that performance . . . Keep your fingers crossed against any snow tomorrow night, remember??? . . . Elaine Ough engaged to Lt. Don Reynolds, Congratulations . . . Pinned: Dave Hoyer and Sue Anderson, Dave Menser and Edie Evans, Jim Lawrence and Maggie Scott . . . Place of the Week: Newark Diner, where else? . . . We take this space to wish our readers a Merry Christmas and a Happy NEWS year.

Compliments
'POP' ROBERTS

25 strands of steel wire start on their way to be electrolytically coated with copper, lead and brass.

Part of the 600 foot long electroforming machines where wires go through successive baths of plating solutions.

Console of controls for entire process is readily operated when necessary, even though seldom used in the almost fully automatic operation.

ENGINEERING . . .with a pioneering twist

There's a real incentive in working out ways to do things that have never been done before. And problems in pioneering are constantly cropping up at Western Electric—manufacturing unit of the Bell Telephone System.

For example: the revolutionary electroforming process dreamed up and made a reality by Western Electric engineers for making copper coated steel wire.

The big idea was this: Could a process be developed in which successive coats of copper, lead and brass would be deposited on steel wire electrolytically in one continuous operation?

Engineers of varied skills—electrical, mechanical, chemical, metallurgical, civil—went to work as a team. After solving many problems, they came up with a process that makes better, stronger wire at lower cost—does it at the rate of 1 1/4 billion feet per year.

Recent developments such as microwave radio relay networks for telephone calls and television programs—operator and customer dialing of long distance calls—secret electronic equipment for the Armed Forces—promise an ever-widening field for young engineers of varied training at Western Electric.

Of This 'n' That

(Continued from Page 2)

give him a small shock when he becomes overly sleepy. This would remove the necessity for the person sitting in the next seat to wear out his elbows, and would stop the embarrassment of snoring in a professor's face.

Another idea which would be all right for some classes would be an automatic note-taker and role answerer. This little gadget could be installed in a person's seat to answer "here" and then take down the professor's lecture. This would be a big hit in certain required courses and almost all eight o'clock and Saturday classes.

The cheerleaders would probably like to see an "autocheerer" installed in Carpenter Field House. The head cheerleader would push the button and all Delaware students would be electrically stimulated to cheer for their Alma Mater.

We claim 50% copyrights on any inventions whipped up from these ideas.

On the honor system, the Daily Reveille of Louisiana State University, has a slightly sardonic view. "It seems," says the paper, "that the teachers have the honor and the students have the system."

Students go to college 14 days out of every year, according to the Southeastern, at Southeastern State College, Oklahoma. Here's how the paper figures it:

Out of 365 days a student sleeps away one third — eight hours a day. This leaves 243 days. Then there are 52 Sundays. Take at least a half an hour per day off for lunch and three months for summer vacation.

This leaves 91 days.

Now subtract 52 Saturdays, a couple of weeks for Christmas vacation and throw in Spring vacation and Thanksgiving weekend. We're left with two weeks of school each year.

Never knew you had it so good, did you?

Home Ec Club Sponsors Wrapping Demonstration

The December meeting of the Home Economics Club was held Wednesday, December 3. Business was first on the program and then Miss Pierce, of the Agricultural Extension group, gave a demonstration of gift wrapping. The group now knows how to make unattractive packages attractive, and a lot of the information obtained from Miss Pierce shall be put into use this Christmas. There is a display of these packages in the main lobby of the new agriculture building. A coffee hour followed the demonstration.

Notice

Don't miss THE CITY. On display in Memorial Art Gallery until December 7 during library hours.

NOTICE

Will all students who intend to take the J.M.A. exam on Dec. 16 please see Dr. Paul Dolan in his office, 313 Hulihan Hall, before Dec. 10.

THEY SATISFY *AND HOW!*

"I always smoked Chesterfields in college just like my friends" says New York secretary, Elizabeth Lydon, "and here in New York it seems like almost everyone smokes them."

Elizabeth Lydon DUKE '51

**AND NOW—CHESTERFIELD FIRST
TO GIVE YOU SCIENTIFIC FACTS
IN SUPPORT OF SMOKING**

A responsible consulting organization reports a study by a competent medical specialist and staff on the effects of smoking Chesterfields. For six months a group of men and women smoked only Chesterfield—10 to 40 a day—their normal amount. 45 percent of the group have smoked Chesterfields from one to thirty years for an average of ten years each.

At the beginning and end of the six-months, each smoker was given a thorough examination including X-rays, and covering the sinuses, nose, ears and throat. After these examinations, the medical specialist stated . . .

"It is my opinion that the ears, nose, throat and accessory organs of all participating subjects examined by me were not adversely affected in the six-months period by smoking the cigarettes provided."

Remember this report and buy Chesterfields . . . regular or king-size.
