

# THE NEWARK POST

VOLUME XXXVII 28

The Newark Post, Newark, Delaware, Thursday, September 5, 1946

PRICE FIVE CENTS

## COUNCIL ISSUES 8 BUILDING PERMITS

### \$50,000 In Construction Authorized In August By Town

Permits for new construction totaling \$50,000, the largest going to the Continental-Diamond Fibre Company for a \$20,000 one-story brick addition on South Chapel Street, were approved by the Town Council at its August meeting Tuesday night in the Council offices.

Other permits were issued as follows: C. Willis for a one and a half story house on Winslow Road to cost \$2,000; William H. Walker, Jr., for \$600 alterations; Newark Publishing Company for a \$6,000 one and a half story frame house on Delaware and Tyre Avenues; Alfred G. Epps, for a two story cement block house on Benny Street, to cost \$5,000; Frank Scott, for a \$2,000 one story frame addition on Orchard Road; Harold Sheaffer, for \$1,000 in alterations at 249 East Main Street; and Samuel S. Slack, for apartment over a garage on 156 Academy Street, to cost \$1,500.

Town Engineer Cleaver Price's report for August disclosed that the new electric line to the sewage treatment plant has been completed and that one new water service was installed, two renewed and three leaks repaired during the month. Two new connections were also placed in the sanitary sewer.

The storm sewer improvements at Chinamen's Alley have also been completed, the report said, while work on the storm sewer on Academy Street is about 10 per cent advanced.

During August 17,759,900 gallons of water were pumped for a daily average of 57,287 gallons.

## PACK 56 APPOINTS CHAIRMAN

### Five New Committee Heads Named

Following a reorganization carried out recently by Cub Pack No. 56, E. C. Mahanna was appointed pack committee chairman and Glenn S. Skinner, submaster in charge of monthly programs.

Other officers named were: Robert C. Squire, instructor of den leaders; Howard J. Wood, in charge of membership; and Paul T. Griffith, charge of records.

The September program will center around the field of engineering, it was said, and the monthly pack meeting will be held Friday, September 27, at 7:30 p. m. in the Presbyterian Church.

Last of new den mothers and their members follows: Den 3, Mrs. Cyrus C. Charles R. Kase, Jr., Frederick L. Stiegler, Jr., Robert T. McAlpine, Benjamin D. Day, John N. McDowell, David L. Mackey, II, Don C. Miller and Peter Mahanna.

Den 4, Mrs. Harry L. Lee—Franklin M. Lee, James McCann, John F. Edmondson, John B. Cochran and Arthur Boulden.

Den 5, Mrs. P. R. Roberts, Jr.—Marion W. Johnston, Eugene C. Stiltz, Jr., James T. Edmondson and Martin F. Nelson.

Den 6, Mrs. Cuthbert Webber—Charles E. McCauley, Jr., George A. Webber, Charles Skinner, Daniel N. Palmer, Philip T. Stewart and John C. Maviomatis.

## POLIO TALK HERE TONITE

In one of the most timely talks to be offered residents here in some time, Dr. George J. Boines, leading authority on poliomyelitis in Delaware, will speak on the symptoms and current treatment of infantile paralysis, beginning at 8 p. m. in the high auditorium. Through here under the auspices of the Newark Chamber of Commerce, Dr. Boines will give a short talk, followed by a film depicting actual instances of polio, after which the program will be thrown open to a question and answer period.

Dr. Boines is at present in charge of the Kenny Clinic at the Doris Memorial Unit of the Wilmington General Hospital.

## Kenneth Barnes Hurts Knee In Auto Accident

Kenneth Barnes, 22, Newark, suffered a severe laceration of the knee when the car he was driving crashed into another car operated by Col. William Bertsch, U. S. Army, on the Rehoboth Beach Highway, a short distance beyond the town limits last week-end. Barnes was treated at the Beebe Hospital at Lewes.

Col. Bertsch, who suffered a possible knee fracture and lacerations of the knee, was treated first at the Fort Miles Post Hospital and later transferred to the Walter Reed Hospital in Washington.

## NEWARK HORSE SHOW TO BE HELD ON SEPT. 14

### 21 Classes To Comprise Program At Yearly Meet

Some 21 classes for hacks, hunters and ponies will make up the program of the Newark Horse Show scheduled for September 14 on the Dameron estate, with proceeds going for the benefit of the Newark Visiting Nurse Association.

Highlight of the program will be a Corinthian class which calls for riders to appear in the full livery of their respective hunt clubs. Jumps in this class will not exceed four feet.

Except in a few classes where cash awards will be offered, the prizes will consist of ribbons and trophies. Judges for the show include W. Delamere Ackhurst and his daughter Miss Ann Ackhurst, of Monckton, Md., and Dr. Edgar Powell, of near Philadelphia.

Entry blanks and price lists may be obtained by writing either Roland Koehler, R. D. 1, Unionville, Pa., or Mrs. James Thompson, Ashley Road, Newark.

Officers are: Samuel Dameron, president; George Jackson, vice-president; Roland Koehler, secretary; Mrs. James Thompson, assistant secretary; A. Geist, treasurer; co-chairmen, Ralph Smith, Dr. W. Downs and Mrs. Koehler.

The committee: Miss Jane Ann Lovett, Miss Simone Deschamps, advertising; Miss Eve Boden, donations and publicity; Ralph Smith, entries; Mr. Geist, finance; Frank Moody, parking; L. Staats, grounds. The Women's Auxiliary of the First Presbyterian Church will conduct a special luncheon booth.

## GORDY IS EXTENSION POULTRYMAN

### Took Over New Duties This Week

George L. Schuster, director of the Delaware Agricultural Extension Service has announced the transfer of J. Frank Gordy, emergency farm labor supervisor to the position of Extension Poultry effective September 1.

Gordy, a graduate of the University of Delaware School of Agriculture, joined the Extension Service staff as assistant county agent in Sussex County February 1, 1941. Prior to that time he was an instructor of vocational agriculture in the Greenwood, Ferris, Seaford and Dover schools.

He became Sussex County Agricultural agent July 1, 1942, and continued in that capacity until May 1, 1943, when he was appointed state supervisor of emergency farm labor as a result of the National Emergency Farm Labor Act which assigned responsibility for recruitment and placement of farm labor within the State to the Delaware Extension Service.

From July 1, 1944, to June 30, 1945, he served also as part-time Extension poultryman along with his farm labor duties.

In announcing the transfer, Director Schuster added that Mr. Gordy will continue to assist with farm labor.

## St. Thomas' To Resume Regular Sunday Services

St. Thomas' Episcopal Church will resume full regular Sunday services this Sunday, Rev. W. H. Haneckel, pastor, announced yesterday.

The celebration of Holy Communion will be held at 8 a. m., followed by the regular church service at 11 a. m. On Sunday, September 22, all the organizations of the church will resume activities.

## 70 PERCENT OF REPAIRS TO STREETS COMPLETED

### \$16,445 Project Begun In August Shows Excellent Progress To Date

The \$16,445.50 street repair program, launched by town authorities last month and calling for resurfacing of six streets, plus curb and gutter work and resurfacing of several others, is now seventy per cent complete, it was revealed in Town Engineer Cleaver Price's report to the Town Council Tuesday night.

Approximately 10,000 tons of amesite have been used thus far in resurfacing the streets, while new curb and gutters have been installed on Academy and Courtney Streets.

The thoroughfares, which have been partially or wholly resurfaced thus far, are: Kells Avenue, Orchard Road, east end of Lovett Avenue, North College Avenue, Prospect Avenue, Wilbur Street and Academy Street.

The work is being carried out by Julian Jones, Wilmington contractor. Town Secretary Vernon Steele's report for August, also submitted Tuesday night, listed electric light receipts for the month totaling \$8,706.08, electric power returns of \$5,273.96 and water rents amounting to \$8,012.90.

Cash balance for August was \$113,900.24, less disbursements of \$20,485.82, for a total cash on hand of \$93,414.42.

## BUSINESS SESSION AT LIONS CLUB

### Swan Talks On Zoning Ordinance

William B. Swan, town assessor, gave a detailed account of the proposed town zoning ordinance at the regular monthly business meeting of the Newark Lions Club, Tuesday evening, with President Ira C. Shellender presiding.

Following the discussion, a committee of five was appointed to study the draft and report at the next meeting. The group includes: T. D. Smith, Wayne Brewer, J. D. Coumahan, Joseph McVey and W. O. White.

A discussion of the student's driver course, conducted in Delaware schools by the Delaware Safety Council, was given by Supt. Wilmer E. Shue, of the Newark Schools, who pointed out that the course, which attracted nationwide attention last year, will be curtailed this term due to the lack of funds and qualified instructors. Forty-six Newark students were trained in the course last year, he said.

A committee was also named to investigate the advisability of operating a portable coffee pot, or small refreshment stand, in Newark on Saturday nights. The committee includes: Charles Cooper, T. D. Smith and W. O. White.

A report on the recent community sing and street dance given by the recreation association was made by T. D. Smith. Program chairman at next week's meeting will be Samuel Harloff.

## SKOGLUND IS MOVED

### Assumes New Post

George L. Schuster, director of the Delaware Agricultural Experiment Station and Extension Service has announced the transfer of W. C. Skoglund, Extension Poultryman, to the position of Assistant Professor in Poultry and Assistant Research Professor on the University School of Agriculture and Experiment Station staff.

Appointed to the agricultural staff on February 1, 1940, Skoglund served as poultry instructor and assistant research poultryman until July 1, 1942. From that date to the present he has served as Extension poultryman except while on military service.

He is a graduate of the University of New Hampshire and received his master of science degree in poultry from Pennsylvania State College.

## ALL STAFF VACANCIES ARE FILLED AT SCHOOLS

### Slight Rise In Cafeteria Lunch Price Is Announced

A slight increase in the price of lunches at the school cafeteria, due to rising costs of food and help will be necessary this fall, it was announced by school authorities yesterday.

The platter formerly costing 15 cents has been jumped to 20, it was said, but milk, which now costs the cafeteria five cents, will be sold without profit at five, thereby providing the student with a balanced meal for 25 cents. Individual servings of vegetables, however, will be increased from five to 10 cents.

All staff vacancies at the Newark Schools were filled this week, it was further announced, with the selection of a principal for the New London Avenue School, the only post previously open.

Appointed as acting principal until his selection can be formally approved by the Board of Education was Cornelius Morgan, a native of Chester, Pa., and trained at the West Virginia State College. Mr. Morgan, who also has three years' teaching experience in West Virginia schools, has already taken over his new duties.

Also announced was the fact that Reading Readiness Tests will be given all members of the first grade this week. The tests are designed to determine how far the student has progressed in pre-school reading, and the results will be used to reclassify the group.

## TO LAUNCH SURVEY OF WATER HERE

### To Furnish Blue-Print Of System

A complete engineering survey of the town's water system, aimed at providing preliminary data for large-scale improvements to the local water distribution set-up, was authorized by the Town Council at its August meeting.

The survey, to cost between \$500 and \$1,000, will be conducted by Whitman, Reardon and Associates, of Baltimore, and will provide the town with a detailed blue-print of the water supply system, something never had before.

A new water storage tank and extra pumps are regarded as prime needs at present, it was said, and the report, when completed, will furnish information as to the most desirable size and location of the tank for efficient operation, as well as an outline of effective steps for overhauling the entire system.

The survey is in line with the town's current program of improvements to all municipal utilities. Projects which will bring the local electrical and sewerage systems up to date are already underway. The latter program includes extensive improvements to the sewerage disposal plant, which will increase its capacity greatly.

In the electrical survey now being conducted by the Delaware Power and Light Company, the Council authorized the inspectors to proceed with phase two which will include checking the main wiring system of the town for the purpose of providing a better distribution of voltage. Phase one of the survey will be completed in September.

## LEGION TO ELECT

The annual election of officers will be held by the J. A. O'Daniel Post, No. 10, American Legion, at the group's bi-monthly meeting next Tuesday at 8:15 p. m. in the Legion rooms.

Although a slate has been drawn up, further nominations will be open from the floor, and all members are urged to attend.

The slate previously selected includes: Ford H. McBerty, for commander; William K. Richardson, for vice-commander; Richard Cooch for financial officer; George C. Price for sergeant-at-arms; and A. E. Tomhave for historian.

Two nominations for chaplain are: W. O. White and John N. McDowell.

## Town Officials To View Demonstration In Chester

A delegation of town council members will view a demonstration of a motorized Elgin street sweeper in Chester, Pa., on September 20.

Plans for purchase of the modern, one-man street sweeping truck, which cleans streets and picks up debris in a single operation, were discussed by the Council some time ago. Members wish to see the machine in actual operation before going further.

Need for improving the town's street cleaning facilities is increasingly evident, authorities feel, with waste-littered streets becoming all too commonplace in the community.

## PUBLIC TO AIR VIEWS ON ZONING ORDINANCE

### First Hearing On Proposed Law Set For Tuesday Night

A final reminder was issued yesterday by town officials to property owners and the general public regarding the first public hearing on the proposed new zoning ordinance for Newark to be held in the high school auditorium next Tuesday at 8 p. m.

Anxious to sound out public opinion first hand as well as to iron out any questionable features of the ordinance before final adoption, the zoning commission is looking for a large turnout of property-owners and all residents interested in the future development of the community.

Emphasizing the importance of the session to each individual owner is the fact that the regulations of the ordinance, when adopted, will directly affect all new construction and development of property. Familiarity with the varying restrictions in each zone is a matter of direct interest to every individual.

A thorough airing of all aspects of the bill, many features of which are regarded as highly controversial, and a full opportunity to voice objections and suggest improvements will be offered at the meeting.

Aiding the discussion will be the presence of technical advisors from the Institute of State and Local Governments. Also, a picture of the town zoning map will be shown on the auditorium screen.

## POLICE LIST 86 ARRESTS FOR AUGUST

### Report For Month Shows Slight Drop

A total of 86 arrests, a drop of seven under the preceding month, was reported by the Newark Police Force during August, according to Police Chief William Cunningham.

A breakdown shows the following types and numbers of arrests: speeding, 19 arrests; drunk, 9 arrests; assault and battery, 8 arrests; disorderly conduct and reckless driving, 4 arrests for each offense; resisting arrests, 2 arrests; passing stop sign, improper brakes, driving drunk, loitering on the street, breaking glass on the street, interfering with a police officer, making threats, profane language and malicious mischief, one arrest for each offense; parking tickets, 31.

Seven accidents, one breaking and entering case and one attempted breaking and entering case were investigated. Three cars were stolen during the month, two of which were recovered.

Magistrate J. H. Rumer reported a total of \$489.50 in fines collected in August. Four cases were dismissed and two were committed to the workhouse in default of fine.

There were 176 police calls during the month, the police car traveling 3637 miles and the motorcycle 391 miles.

## GROUP SING IS SUCCESS

### Marks Close Of Summer Program

An enthusiastic gathering of townspeople was on hand for the community sing and street dance last Friday evening in the rear of the Academy Building and to witness the presentation of awards to the outstanding individuals and teams of the summer recreation program here.

Several hundreds joined in the singing of group favorites as "Down by the Old Mill Stream" and "Daisy" led by Charles Southwell and the "Old-Time Barber Shop Quartet" of Wilmington. The street dancing which followed lasted until about 11 p. m.

The festivities, staged by the Recreation Association, marked the formal close of the summer program.

## GROUP BUYS CURTIS MILL; A. F. HORTON IS PRESIDENT

### Ownership Is Transferred; No Change In Policy Planned

Purchase of the Curtis Paper Mill by a group of investors represented by Allen F. Horton, of Mt. Airy, Pa., for the past 18 years manager of the New York sales office of the W. C. Hamilton Paper Company, was announced last Friday.

Mr. Horton will serve as the firm's new president, with Mrs. Mildred N. Mason, owner and president for the past seven years, remaining as vice-president. Mrs. Mason told the 130 paper mill employees of the transfer last Friday.

The change of ownership was completed without interruption of the operation of the plant, and the new owners expect to continue the present policies of the concern without major change as well as retain the same employees.

Mrs. Mason took over the firm in 1939 on the death of her husband, Herbert Warren Mason, former president. Established originally in 1848, the Curtis Paper Company, produces high grade paper used in limited book editions, fine quality magazines, and for reprinting work.

Mr. Horton severed his connections with the Hamilton Paper Company to take over Curtis. The sale price was not revealed.

The mill currently employs 130 persons, 25 of whom have been with the company over 30 years, one for 50 years and many represent the third generation of mill employees.

## '47 FIREMEN CONVENTION MAY BE HERE

### Town To Invite State Firemen Here Next Year

A formal notice, inviting the Delaware Volunteer Firemen's Association to hold its annual two-day state firemen's convention in Newark in 1947, will be sent by the town in the near future.

The Town Council authorized sending the invitation at its monthly meeting Tuesday night.

Although no assurance could be given that the firemen will gather in Newark next year, there appears to be an excellent chance of acceptance since the last state convention, held here in 1938, was voted one of the most successful ever held in Delaware.

Cooperation of officials, reception by the town, and the variety of facilities offered were lauded by the visiting companies.

If held here, the Aetna Hose, Hook and Ladder Company will be host to delegates from volunteer units throughout the state. The two-day event will be highlighted by the annual firemen's parade.

This year's convention, the 26th annual meeting, is being held at Milford on September 18 and 19. Delegates from the local company are expected to attend.

## Local Recruiting Office Is Open Two Days Weekly

Full information on enlisting in the New Regular Army may be obtained at the local recruiting station located in Room 1 of the postoffice building.

Newark's new recruiting chief, 1st Sergeant Robert Bolsford, will be at the office every Wednesday and Thursday between 9 a. m. and 4:30 p. m.

# DELAWARE FARM FRONT THIS WEEK

## Data For Farmers In Support Plan

Delaware farmers participating in the 1946 Agricultural Conservation Program have at least five approved practices that can be carried out this fall, reminds C. E. Ocheltree, State Director of the Production and Marketing Administration.

Practices that can still be carried out are the seeding winter legumes, seeding small grain cover crops, establishing pastures, harvesting legumes seeds, and applying lime and fertilizer.

In cases where farmers have been unable to follow through with all their conservation plans as outlined in their farm conservation program developed this past spring, Ocheltree suggests that these instances be brought to the attention of county conservation committees. County committees may be able to assist in the completion of these plans or allot additional practices to other farmers who wish to carry out more practices.

Heifers that are expected to freshen this fall should be placed with the milking herd at least two months before freshening, says Delmar J. Young, University of Delaware Extension dairyman.

Such heifers, suggests Young, should be placed in the regular stanchion and fed some extra roughage and grain to get them in condition for their first lactation. The animals should be handled carefully at all times in the barn and should be brought in at each milking time to train them to the routine. This practice permits the animals to become acquainted with the men moving about the barn, with the rattle of milking utensils and any other happenings associated with milking.

The September issue of *Timely Notes* for Delaware Broiler Growers prepared by W. C. Skoglund, extension poultryman for the Delaware Extension Service is being distributed to broiler producers this week. Included in the notes are the results of the Delaware Experiment Station poultry farm study of Crossbreds versus Purebreds for Broilers conducted by A. F. Kish, assistant research poultryman nine points recommended by Skoglund for a Delaware Grow Better Broiler Program, and a review of the Feed Situation by Dr. R. O. Bausman, associate agricultural economist.

The State office of the Production and Marketing Administration reports that it has been necessary to raise its schedule of "fair prices" established as a part of its conservation program in promoting the increased application of fertilizer materials. This has been necessary because of the increase in fertilizer prices. The rate of reimbursement under the 1946 Conservation Program will remain the same and farmers cooperating in the program are advised that it will be necessary for them to make the additional payment caused by fertilizer price increases.

It is estimated that each week in September there will be slightly over 830,000 broilers reaching 14 weeks of age in the Delmarva region. This will be increased to approximately 1,080,000 each week in October. Indications are that the volume available in November will be around the same as in October. This is quite a reduction from the high point of 2,225,000 in July.

## Advice On Dairy Feeding Given By Extension Head

In spite of recent improvements in pasture conditions as a result of favorable weather conditions, Delmar J. Young, extension dairyman for the Delaware Agricultural Extension Service recommends liberal feeding of hay and perhaps some silage for dairy cows.

From now until cows are put on regular winter feeding says Young, is the most difficult time of feeding to maintain an even flow of milk. If we discontinue supplemental feeding and pastures should fall short, cows will lose weight. If cows go into the winter feeding period in thin condition, liberal feeding period in thin condition, will not show much improvement during winter. If cows come into the winter feeding period in excellent condition, they will remain in excellent condition most of the winter.

## Fungicide Doses Urged For Potato Blight Control

To control late potato blight that is showing up in some fields, Dr. John W. Heuberger, extension plant pathologist urges growers to begin fungicide applications at intervals of 10 to 14 days. Approximately four to five applications should be made.

If sprays are used, apply sufficient to get complete coverage of the foliage—150 gallons per acre on full grown plants; if dusts are used apply approximately 40 pounds per acre.

Research at the University of Delaware Experiment Station has shown that use of Copper compound A, Dithane plus zinc sulfate-lime and Bordeaux all increased yields on late red potatoes when applied as sprays.

## State's 1946 Turkey Crop Put At 117,000

Delaware's turkey crop this year is estimated at 117,000, compared with an average of 111,000 for the last five years, the U. S. Department of Agriculture's Production and Marketing Administration reported recently.

The agency said that while turkey production throughout the nation is nine per cent under last year's, large cold storage stocks still on hand make enough turkey available for a consumption up to last year's record of 4.31 pounds per person.

This year a total production of over 41,000,000 birds is indicated, whereas the five-year average was only 32,194,000.

## UNIVERSITY NAMES NEW SWIM COACH

### New Physical Ed. Instructor For Staff Here

A former All-America swimmer and Eastern Intercollegiate swimming title holder will soon join the physical education staff at the University of Delaware it was announced recently by W. D. Murray, director of health, physical education, and athletics at the university.

Appointed as a physical education instructor as well as director of aquatics and swimming coach was Harry W. Rawstrom, an Army veteran who now is physical director of the Monroe Branch of the Y. M. C. A. in Rochester, N. Y.

A native of Montclair, N. J., Rawstrom captained the high school swimming team there in his senior year and in 1935 captured the New Jersey State High School 200 yard free style swimming championship.

While at Springfield College (Mass.) from which he was graduated with a B. S. degree in physical education in 1940, he established several records and annexed numerous swimming titles. In 1938 and 1939 Rawstrom won the New England Intercollegiate Swimming Association 220 and 440 yard free style championships, and in 1940 again won the N. E. I. S. A. 220 event. In 1938 he also added the Eastern Intercollegiate 440 yard free style championship to his other titles. He was named to the All-America swimming team in 1938 and also in 1940.

From shortly after his graduation from college in June, 1940, to March, 1941, Rawstrom served as aquatic director at the Central Y. M. C. A. in Rochester. In the latter month he was inducted into the Army as a private, and after more than five years of service was released to inactive duty last May with the rank of captain. While in the service Rawstrom and five other officers established the Army Air Forces Survival Aquatics Program. He has held his present position since his release by the Army last spring.

## DEHYDRATED FRUIT JUICE GAINS FAVOR

### Orange Powder Pills To Take Place Of Fresh

In a survey of citrus production, the Agriculture Department recently predicted that dehydrated, canned and frozen orange juice may eventually supplant the freshly squeezed product. The department predicted an important future for orange juice pills and powder now being developed for consumer use for the first time. The dehydrated tablets or powder would be dissolved in water.

"The reduction in volume and saving in space and shipping costs also are noteworthy factors. Typical estimates of total costs of production, including raw material, for orange juice crystal

by sublimation drying as of 1945 indicated a cost of \$1.07 per pound of finished product.

Another product, upon which considerable work has been done and which is covered by a patent, is a

hard tablet of citrus juice. The department expressed the opinion that only wartime shortages have prevented canned orange juice from supplanting fresh orange juice in the public favor.

## OUR DEMOCRACY — by Mat

### HEADING FOR COLLEGE

AMERICA'S YOUTH TODAY, RETURNING FROM WAR SERVICE OR COMING UP THROUGH SCHOOL, HAS AN INCREASED AWARENESS OF INDIVIDUAL, NATIONAL AND WORLD PROBLEMS, AND OF THE VALUE OF HIGHER EDUCATION IN PREPARING FOR THE RESPONSIBILITIES OF THE TIMES.

THROUGH THE G. I. BILL OF RIGHTS, THROUGH ENDOWMENTS AND SCHOLARSHIPS, THROUGH LIFE INSURANCE AND SAVINGS—MORE YOUNGSTERS THAN EVER BEFORE WILL HAVE THE OPPORTUNITY, IN OUR COLLEGES AND UNIVERSITIES, OF EQUIPPING THEMSELVES FOR BETTER CITIZENSHIP IN OUR DEMOCRACY.

# More power! More mileage! More anti-knock protection! You get all three because Betholine is Benzol Blended

### Here are the facts:

Power units run your car. Betholine, and only

Betholine, contains a high percentage of

benzol . . . which weighs more than gas-

oline . . . costs more than gasoline . . .

puts thousands of extra power units

into every gallon of Betholine.

Try Betholine in your car. Feel the extra

## U. S. TRAFFIC TOLL DROPS, REPORT SAYS

### Safety Drive Is Responsible For Decline

Sudden death on the nation's highways is on the decline, according to the July traffic mortality figures of the National Safety Council, which lists the toll for that month as 2,530 lives, a 25 per cent drop from the last peacetime July in 1941. The figures represent the year's biggest decline from the pre-war level.

The council credited the progress in highway safety to President Truman's Highway Safety Conference, backed by newspapers, magazines and radio. The Safety Council said that while the July toll still is higher than last year, when gasoline rationing and wartime restrictions were in effect, the increase of 21 per cent over July, 1945, was the smallest of the year over last year.

Before the safety campaign got underway last May the 1946 deaths were running neck-and-neck with 1941, Ned H. Dearborn, council president said.

"The break apparently has come. Four months ago the picture was very black, with a near-record traffic death toll in prospect.

"We've proved we can do it, but we still must prove we can keep it up."

The death toll for the first seven months this year was 18,280—37 per cent over last year and 10 per cent below the same period of 1941. The January to April average this year showed no change from the record year of 1941 and was up 46 per cent over 1945. The sharp break began in May. The May to July average was down 21 per cent from 1941 and up only 28 per cent over 1945.

The council said rural areas were contributing most to the death toll. Approximately 10,210 persons were killed on rural highways during the first half of 1946, compared with 6,230 in the same period of 1945—an increase of 64 per cent. Urban deaths increased only 12 per cent.

### Chrysler Permit For Plant Here Held Up By State CPA

The Chrysler Motor Parts Corporation's application to build a \$1,900,000 parts assembly plant near Newark was rejected temporarily by the Civilian Production Administration recently.

Plans for erecting the structure at this time were rejected, a CPA spokesman said, due to the critical need for all available construction materials and labor for home building.

The application to CPA was the first definite answer to the long circulating rumors that Chrysler plans to build in Newark. The firm's purchase of approximately 600 acres of farmland on both sides of the Pennsylvania Railroad was reported about a month ago. The concern is also said to have a 65-acre tract on the eastern edge of Newark, purchased in 1938.

### Afternoon Services At Head Of Christiana

Services will be held in the afternoon at the Head of Christiana Presbyterian Church this Sunday.

Sunday School will be held at 1:30 p. m. and the regular church service at 2:30 p. m. The Sunday School classes will discuss "Jesus and Sincerity of Speech."

At the church service, the pastor, Rev. Evan W. Renne, will present as his sermon, "Abraham—the Friend of God." The Junior Choir will offer a special number. All are welcome.

The Westminster Fellowship will be held at 8:45 p. m. All young people of the church and community between 12 and 30 are urged to attend. Junior choir rehearsal will follow at 7:45 p. m.

Rally Day will be observed with special programs at the morning services on Sunday, September 29.

### G. I. Job Training May Be Extended

The Veterans Administration said recently establishments offering on-the-job training for veterans may extend it beyond the two-year limit, in some cases by adjusting it to fit state or federal requirements for apprentice training.

VA said the limit will not apply when courses are tailored to train apprentices.

Otherwise, it said, the establishments may condense their on-the-job training so veterans can complete it within two years.

After the two years are up, VA said, a veterans' subsistence allowance stops. But that does not mean he cannot receive additional educational benefits under the GI Bill of Rights.

## JUMP IN BUSINESS LICENSES

### 11,324 Are Issued Thus Far In 1946

The State Tax Department reported recently that a total of 11,324 business licenses have been issued to date in 1946, a jump of 1,725 over the amount issued in the same period of 1945.

At the same time, the department called attention to the fact that under mandatory provisions of the license laws, all persons, firms or corporations engaged in any business, trade or vocation who have not obtained the proper state license are subject to a 25 per cent penalty effective Sept. 1.

Licenses issued to date in New Castle County total 6,791, with 1,716 in Kent, and 2,817 in Sussex.

For the corresponding period of the last year, 9,599 licenses were obtained throughout the state. The figures for each county at this time in 1945 were: 5,748 in New Castle; 1,563 in Kent, and 2,288 in Sussex.

It was pointed out by state tax department officials that under Chapter 6, Paragraph 242, Section 208, Revised Code of Delaware, 1935, persons who do not expose licenses in a conspicuous manner are subject to a fine not in excess of \$100 for failure to display a license.

Representatives of the department are conducting a survey in Delaware to enforce the license laws, which provide that, in addition to the criminal penalty, suit may be brought without further notice to collect license fees from delinquents.

Results of this survey to date indicate that many of those liable have not obtained licenses.

### Spare Stamp 51 Valid For Sugar

The OPA has announced that spare stamp 51 will be made good Sept. 1 for five pounds of sugar for regular consumer use.

This stamp will remain valid until Dec. 31. Spare stamp 49 will also continue to be good for five pounds of sugar through Sept. 30.

OPA said that civilian sugar allocations cannot be increased because of the uncertainty of supply available from Cuba and Puerto Rico and because of continuing requirements for shipments to famine-stricken countries abroad.

### Relative Of Newark Woman Link In French Underground

Mrs. George E. Brinton, wife of Professor Brinton of the modern language department of the University of Delaware, who recently returned from a four-months stay in Paris, this week described the part played by her mother, Madame Sauvage, in the French underground movement during the war.

The Paris home of this 71-year-old French woman was used by the French underground as a hiding place for American and British airmen who escaped the Germans after being shot down over France.

During the war years, Mrs. Brinton wrote regularly to her mother but received no reply. Until she went to France, she did not know whether Madame Sauvage was dead or alive.

Then, in Paris this summer, Mrs. Brinton learned that during the war her mother's home had been turned into a link in the chain of underground activities. American and British flyers, shot down over France had hidden there until they could be passed on to others in the resistance group and then sent over the lines and back to England. Madame Sauvage had thus secreted 14 Allied airmen.

### Walker Is Sworn In As New Register Of Wills

John S. Walker, register of wills of New Castle County, took the oath of office Monday in the Public Building and expressed high praise for his predecessor, Isaac R. Brown, Jr.

Mr. Walker, who is also Republican candidate for election to the position in November, said he hoped to be "able to continue the high standard of service that has been given by Mr. Brown and his staff."

Mr. Walker disclosed that he would retain as his deputies Ralph S. Keenan and James B. McManus, who served under Mr. Brown.

## IN REVIEW

TWENTY-FIVE YEARS AGO  
AUGUST 24, 1921  
Newark Building Boom

"Building Boom" is the big word in Newark. Contractors, plumbers and mechanics report more work than they can handle. Contractor Griffin is pushing work on the Crompton residence on South Academy Street which will be completed early in September. His work on the Rehabilitation Building has been temporarily held up due to the non-arrival of structural steel. Griffin has been awarded the contract for the fine residence of John R. Chapman and ground was broken yesterday on Welsh Lane and Kells Avenue.

The Cleaves bungalow on Kells Avenue, built by Contractor Greer, is complete and is attracting favorable comment. Wollaston has three houses started on his development on Kells Avenue. Robert Lewis is remodeling the old Clark home recently purchased by him. Squire Lovett, through Contractor Greer, is going ahead with his new home in the Orchard.

### Movie Season Opens

Manager Hubert of the Newark Opera House is having glass framed billboards placed at the Opera House entrance preparatory to the fall season. Motion pictures are being given now on Wednesday and Saturday evenings.

### Fire At Newark Inn

A slight fire occurred at the Newark Inn today at noon which caused a flare of excitement for a time. Fire Chief Wilson rushed chemicals to the scene. The blaze was extinguished and no material damage done. The cause and sources of the fire are unknown.

### Thieves Loot Mill

Sneak thieves got in some fine work at the Curtis Paper Mills on last Thursday night, making away with \$36 from Howard Patchell and \$46 and a gold watch from "Bob" Gregg. Gregg and Patchell were working on the same machine at the time, and it is supposed the thieves slipped through the window and got in the locker where the employees keep their street clothes.

### Picnic At Shellpot Park

Mrs. Leonard A. Rhodes and the members of her Sunday School class of the Methodist Church had a delightful picnic at Shellpot Park yesterday. The party left by bus to Wilmington and then took a trolley to Shellpot.

### Congratulations

Mr. and Mrs. Alfred C. Stiltz, Jr., are receiving congratulations upon the birth of a fine baby boy.

### Traffic Regulations

Observing citizens have suggested that Academy Street between Main and Delaware Avenue be made a one-way traffic street. Increased travel and the fact that it is a school street at both intersections make it especially dangerous. Several narrow escapes have been reported recently. At least a slow-down-school-street sign should be provided before school opening, is the comment of those acquainted with the traffic conditions in this section.

### Convention Delegates

Misses Ann Hossinger, Lena Evans, Mrs. H. F. Graves, W. E. Graves and County Chairman Eben Frazer represented Newark Democracy at the big meeting held at Rehoboth on Saturday.

### Peach Festival

There will be a Peach Festival at the Presbyterian Church this Saturday evening, held under the auspices of the Women's Missionary Society. Peaches, ice cream, cake, candy and fancy articles will be for sale.

### Personals

Misses Mary Johnston, Catherine Beaton and Dorothy Fisher were guests at the home of Dean and Mrs. E. L. Smith last week.  
Mrs. Harvey Boyce and children Katherine and Harvey, are spending some time in Blue Ridge Mountains.  
Mr. Warren Singles motored to Wernersville, Pa., on Sunday.

Mrs. George Medill and children are spending several weeks at Spring Lake, N. J.  
Misses Sara Wilson and Helen Jarmon motored to Ocean City, Md., on Sunday where they will spend their vacations.

Miss Charlotte and Josephine Hossinger have returned after a visit with the Misses Reed at their home in College, Md.

Charles Cornog and William Cunningham left early Monday morning for a bicycle trip to Rehoboth Beach where they will spend several days.

Misses Helen Leak and Olive Porter have returned after spending a couple of weeks at Rehoboth Beach.

Mr. and Mrs. Frank Cooch leave the latter part of this week for a trip to Niagara Falls and Canada.  
Prof. and Mrs. H. E. Tiffany and

children are spending some time in Tunkhannock, Pa.

Mrs. Paul DeW. Lovett and little son, spent the first of this week with her aunt and uncle, Mr. and Mrs. Jacob Welch, at their home near Milford Cross Roads.

Miss Mary Colmery was the weekend guest of Miss Alice McCornis at her home in West Grove, Pa.

Mrs. David Chalmers and son, George, and Mrs. George Chalmers spent the week-end in Philadelphia with relatives.

Mr. and Mrs. Pierce K. Crompton, Mr. and Mrs. Conrad K. D. Lewis and Mrs. Albert L. Lewis spent last Thursday in Philadelphia.

Dr. and Mrs. F. M. Foster are spending their vacation in Pottamund, N. Y.

Mrs. Leila Richardson spent the week-end with Mr. and Mrs. Benjamin Richardson and family at their home in Delaware City.

Master Orville Richardson is the guest of his grandparents, Mr. and Mrs. Benjamin Richardson.

Miss Emilie Koelig is visiting her aunt and uncle, Mr. and Mrs. Watson W. Koelig, at their home in Wilmington.

Mr. and Mrs. D. L. Gallaher and son, Clayton, have returned after a delightful trip to Niagara Falls and points of interest in Canada.

Mr. and Mrs. Fred E. Strickland, of Providence, Md., and Miss Nellie Strickland, of Parkesburg, Pa., visited Mr. and Mrs. H. H. Cleaves on Sunday.

Miss Sarah M. Collins, of Newark, and Mr. Earl Frederickson, of Lansing, Michigan, were married at the home of Mr. and Mrs. William Craig, 807 South Chestnut Street, on Sunday afternoon, August 14.

## Streptomycin Supplied To 1600 General Hospitals

Use of 1,600 general hospitals for limited commercial distribution of streptomycin will begin Sept. 1, the Civilian Production Administration announced recently.

It said the new drug may be obtained by physicians from their local hospitals under a distribution plan intended to make the limited supply of streptomycin available for the greatest number of patients.

Until now streptomycin has been distributed by CPA for the Army, Navy, Public Health Service, Veterans Administration and National Research Council through a committee headed by Dr. Chester S. Keefer of Evans Memorial Hospital, Boston, Mass. Until Sept. 1 civilian appeals for the drug will continue to be met by Dr. Keefer.

## State Democratic Women Publish New 4-Page Paper

A new publication entitled "The Democratic Woman" was distributed for the first time last week by the Women's Democratic Club of Delaware at the party's state convention in Dover.

A four-page paper edited by Mrs. Anna H. Maher, president of the women's organization, the first issue is dedicated to all of the Democratic women in Delaware who have "worked so loyally and untriflingly" for their party and their government.

## PERSONALS

Jean Miller, of Drexel Hill, has been a recent guest of Lindsay Latomus, of 172 West Main Street.

Dr. and Mrs. Charles N. Lanier, Jr., and children Ginger and Andrea, of 37 East Park Place, have returned home after a vacation at "Addy Sea," Bethany Beach.

Mr. and Mrs. F. A. Cooch, of Homestead Farm, near Dillsburg, Pa., are at their West Main Street home for a few days this week.

Mr. and Mrs. Robert Thompson and family, of 39 East Park Place, have returned home after a two week's vacation spent on Long Island Sound.

Mr. and Mrs. David Crowl and daughter, Patsy, of Westminster, were week-end guests of Mr. and Mrs. James Foster, of Appletton.

Sunday dinner guests of Mr. and Mrs. Robert J. Davis, at their farm at Cherry Hill, were Mr. and Mrs. Jacob Correll, Mr. and Mrs. Cyrus Rittenhouse, Miss Martha Foard and Mr. and Mrs. William McCloskey.

Mr. and Mrs. Roger P. Watkins and Chief Petty Officer and Mrs. Oliver F. Watkins attended the Foard family reunion at the home of Mr. and Mrs. Frank Foard, of Harford County, on Monday.

# In The WEEK'S NEWS

**VETERAN WINS \$1,000.00 AWARD**—Lt. William E. Kendall, sole survivor of an exploded ammunition barge, is shown receiving a check for \$1,000 given by the Fisher Body Craftsmen's Guild from Capt. Robert E. Duncan, commanding officer at Bethesda Naval Hospital, as his wife, Marlene, smiles her approval. Altogether more than \$100,000 in cash and university scholarships will be awarded by the Guild to veterans and teen-age boys in the nation-wide model car and Napoleonic coach competitions.

**WANTS EYES TO LIVE**—James W. Todd, veteran of World War I, is suffering from an incurable disease, but his eyes will live after him if some sightless veteran of World War II accepts his offer.

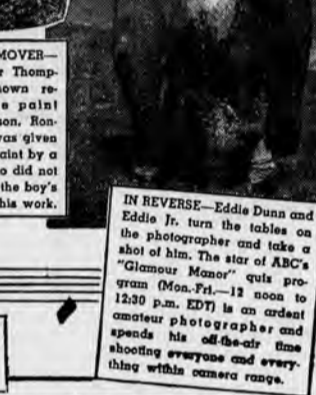

**MODERN CRUSOE ON BIKINI**—Crane operator George (Gator) Media believes in keeping cool and comfortable as the navy relaxes its strict discipline during the Bikini experiments. His father is Charles G. Media of Orlando, Fla.

**PAINT REMOVER**—Mrs. Lester Thompson is shown removing the paint from her son, Ronald, who was given a coat of paint by a painter who did not appreciate the boy's interest in his work.

**PRODUCER TO CONSUMER**—Pigs is pigs, but these milk drinkers are unique inasmuch as they have eliminated the middle man. The patient Holsteins belongs to Fred Dunsow of East Moline, Illinois.

**IN REVERSE**—Eddie Dunn and Eddie Jr. turn the tables on the photographer and take a shot of him. The star of ABC's "Glamour Manor" quiz program (Mon.-Fri.—12 noon to 12:30 p.m. EDT) is an ardent amateur photographer and spends his off-the-air time shooting everyone and everything within camera range.

## PLAYERS GRANTED DEMANDS

### Major League Owners Approve Salary Minimum

Major league ball players have been granted all contractual demands, including a yearly minimum salary believed to be \$5000 and a wider hand in policy making, but will be called on to play a 168-game schedule in 1947, which is 14 more games than this year. The move was approved at a recent session of the American and National League club owners.

The owners authorized the following:

1. Unanimously approved all contractual demands asked by players in a history-making "collective bargaining" move, including a yearly minimum salary believed to be \$5000.
2. Created a new baseball governing body, a seven-member "executive council," which will include a player representative from each league.
3. And arranged a 1947 playing schedule, starting April 15 and ending September 28, which will be 14 games longer than the current 154-game slate.

Other player proposals approved include a pension plan, modification of the 10-day release clause, extension of post-season exhibition play from 10 to 30 days and incidental spring training expenses, believed to be \$25 per player a week.

Most significant of the concessions which filled 40 typewritten pages was establishment of an Executive Council which will include a player delegate from each league to displace the old advisory council.

## KENT HOME AIDE NAMED

The appointment of Mrs. Violet Noble Goodwill of near Harrington as Kent County Home Demonstration Club Agent effective September 1, has been announced by George L. Schuster, director of the Delaware Agricultural Extension Service.

Mrs. Goodwill was born and reared on a farm near Harrington and was graduated from Harrington High School in 1936. She attended the Women's College of the University of Delaware and received her Bachelor of Science degree in Home Economics in 1940.

Following her graduation from the Women's College, she was for four years the teacher of home economics and science at Harrington High School. She succeeds Mrs. Betty Jo Newcombe of Smyrna who served as acting home demonstration agent from April to July of this year.

## PERSONALS

Mrs. James McNeal's circle entertained Mrs. Earl Armstrong's circle at her cottage at Bethany Beach on Tuesday of this week. These circles are a part of the Woman's Society of Christian Service of the Newark Methodist Church.

Mr. and Mrs. J. Irvin Dayett, of near Newark, have received word from their daughter, Mrs. J. Chesley Stewart, of her safe arrival in Europe, where she will join her husband to make their home in London. Mr. Stewart is associated with the International Division of Trans World Air Lines. Mrs. Stewart made the trip by plane from LaGuardia Field.

Miss Leah Otley, of Nottingham Road, and Mr. Benson and his daughter, Miss Sara Benson, of Silview, spent the past week-end with Mr. and Mrs. Elmer Jones at their cottage on the Delaware Bay.

Mrs. George E. Brinton has returned to her home on Dallow Road, after a four month visit in Paris with her mother, Madam Sauvage.

Mr. and Mrs. Joseph Kelley, of near Newark, celebrated four family birthdays on Sunday with a family dinner. Those birthdays honored were: Mr. Joseph Kelley, Sr., Joseph, Jr., whose birth dates were September 2, and Paul of September 19, and Ann of August 28.

Mr. William Morrison, of West Delaware Avenue, is a patient in the Delaware Hospital following an appendectomy on Saturday.

Miss Mary Johnston, of Wilmington, is a house guest for the month of September with her brother and sister-in-law, Mr. and Mrs. John K. Johnston, 136 South College Avenue.

Miss Pauline Spence, Mr. Austin Chidestu, and Mr. and Mrs. Stanley Steele, all of Providence, spent Sunday in Atlantic City.

Mr. and Mrs. Frank A. Jamison, of Capitol Trail, has as their dinner guests on Sunday, Mr. and Mrs. E. P. Gemberling, of Dunedin, Florida.

Louise Lattomus, of 172 West Main Street, spent several days last week visiting Penny Damon, of Drexel Hill, Pa.

Richard Ralston Evans, son of Mr. and Mrs. G. Taggart Evans, 256 South College Avenue, has reported for recruit training at the Naval Training Center, Bainbridge, Md.

Mrs. William McCloskey and Miss Martha Foard, of 160 West Main Street, spent a couple of days last week as the guest of their niece, Mrs. Ira Jones, Wildwood, N. J.

## Still Predict 2,250,000 Auto Output In 1946

The trade publication Automotive News in its Aug. 19 issue said that despite existing supply shortages the motor car manufacturers still hope to build 2,250,000 passenger cars in 1946. Many plants, the paper said, have established schedules for the remainder of the year calling for a 30 per cent increase over present production rates. Car output so far this year amounts to 994,512 units.

Automotive News estimated this week's output in United States plants a 79,746 vehicles against a revised estimate of 77,857 the previous week.

## CLASSIFIED

e Famous ER BROOM

Overheard an interesting observation yesterday when a prominent business man commented: "I just wonder how long a memory the public has."

Past experience indicates that the public's memory is not notoriously long-lived—that John Doe is prone to forget and forgive maltreatment and go right back for more.

One local business man, at least, is trying to see how much service he can render to his community instead of seeing how little he can do and get by with it.

The person referred to in the above paragraph is R. Doyle McSpadden who this week has announced the opening Monday of another office, or part of call, for his locally owned and operated Newark Cleaners.

We can think of a few lines of business here where competition would be more than welcome . . . and a healthy condition for the community. For instance . . . but, we won't go into that. You likely know as well as we of the places where the service and product isn't what it ought to be.

Genial Frank Glenn, that rotund proprietor of The State Restaurant—Newark's only air-conditioned establishment—spent three days last week packing and preparing for a four-day vacation, spent in his hometown of Williamsport, Pa., reminiscing with school-day acquaintances.

Newark's annual Home Show, to be held here September 14, NOT September 4 as was erroneously stated in Jackson's Hardware Store advertisement last week. We regret the error.

Going back to work on Monday, after an ordinary week-end was tough enough, we thought, but coming back to the grind Tuesday after the three-day Labor Day week-end was the worst yet. Wonder how we would feel if we ever took a vacation?

Speaking of Labor Day—it was just that at our house. It may have been a holiday from the office but it was still Monday . . . and wash day. Then, the cellar had to be cleaned . . . and the grass had to be cut and as if that wasn't enough, three panes had to be put in windows that had been broken by the kids playing football, baseball, golf and croquette in the backyard.

All fourteen lettermen are World War II veterans. Seven of the lettermen are backs and an equal number held down line posts. The ball carriers are fullbacks, Paul Hart and Joe Coady; wingbacks, Fred Sposato, Art Millman, Danny Wood, and Gerald Doherty; and quarterback, Jim Buchanan.

Lettermen with experience in the forward wall are ends, Buck Thompson and Jabbo Jarvis; tackles, Tony Stalloni, Bob Campbell and Al Northwood; guard, Walt Marusa, and center, Jack Messick.

Those who previously served as replacements but did not receive varsity letters are Horace Ginn, Joe Hearn, Charlie Griffith, Billy Cole, and Bill Nash, all backfield men; and Carrot Hauptle, an end, Bob Pappy and Jim Otton, tackles, Gene Carroll and Jack Coulter, guards, and Bob Glisson, a center. All of these candidates are also World War II veterans.

Others expected for the pre-season training sessions who have received some coaching from Murray either in informal war-year teams or in spring practices are Angelo Cataldi and Gerald Bowls, fullbacks; Bill Otten, a quarterback; Bob Jones, Ernie Mettenet and Ted Zink, ends; Herb Ewing and Jim Williams, tackles; Bob Lind and Carl Stalloni, guards; and Ray Ciesinski, Walt Perominski, and Jack Weaver, centers.

The return of four teams to Delaware's schedule this year, after an absence of several seasons, tends to make this schedule the toughest in history for the Delaware squad. The returning teams are Randolph-Macon, Franklin and Marshall College, Bucknell University, and Muhlenberg College.

If you haven't read the proposed ordinance, do so by all means. Copies may be obtained at the Council office—free of charge.

Wonder what happened to the Wilmington contractor who smashed our left front fender last week . . . while our car was parked dead still on Main Street, waiting for a traffic break so we could make a turn onto Center Street. 'Sfenny' but that's the fourth time in four months that we've been involved in a minor automobile accident and on each occasion our car was parked or standing still in perfect compliance with all traffic regulations (luckily).

Nation's Business recently reported that a survey conducted by Restaurant Management revealed that seven out of ten housewives would like to dine out more often.

Heck, you wouldn't need to conduct a poll to ascertain that fact in Newark . . . or any other sane community. Not only would you find that seven out of ten housewives would like to dine out more often . . . you'd undoubtedly find that seven out of ten housewives would like to dine out seven nights in the week, too.

The University of Delaware 1946 football schedule has been completed and released . . . with one game scheduled on Frazer Field.

Those of you who read for a deeper purpose than mere entertainment probably wouldn't like "The Huckster" . . . but we did.

If the persons responsible for handling funds of Newark's two Boy Scouts and two Cub troops will contact us, they will be rewarded with a welcome contribution . . . from the now defunct Newark Salvage Committee otherwise said contributions will be delivered if and when we meet.

## MANY LETTERMEN IN LARGE GRID SQUAD REPORTING TO MURRAY FOR FIRST DRILLS

### At Least 10 Former Varsity Men Return To Delaware, Plus 11 Who Saw Varsity Action in '41 and '42 Squad Is One Of Largest In Blue And Gold Grid History

Any minor ground tremors or subterranean rumblings reported rocking the local area this week are probably emanating from Frazer Field where a horde of some 66 football huskies, one of the largest squads in Delaware history, is churning the turf under the guidance of Coach William D. Murray, in the first practice sessions of the year.

Led by 14 lettermen and 11 others who saw some varsity service before the war, plus a promising array of fresh talent, the Blue Hen hopefuls began drills Tuesday, which will be climaxed with the season's opener, a night clash with P. M. C. in Wilmington Park on Saturday, September, 28. Also on the squad are 13 men who either played in the war-time informal elevens or took part in the 1946 spring workouts.

With two daily sessions, the first at 10 a. m., and the other at 4 p. m., being held until the opening of school, September 23, after which one session will be held daily following afternoon classes, Head Coach Murray has begun grooming and screening out his talent in earnest. Assisting are backfield mentor William S. Martin and line coach Ed. Burnansky, with Ken Steers tutoring the ends.

Newcomer to the athletic staff is H. August Seaburg named trainer and equipment man this week. Seaburg, who worked with the Indianapolis baseball team of the American Association in 1941 and with the Army football squad of Fort Knox in 1942 and '43, also was trainer for the Green Bay Packers in 1943 and '44, when they won the world's pro championship. Also announced was the appointment of Bob Seeman, a Delaware graduate, as business manager.

Because of the unusual size of the squad and so that all candidates will have an opportunity to participate in actual competition, Coach Murray has announced that a junior varsity schedule will also be arranged.

Major gap in Delaware's returning grid forces, however, is Red Hogan backfield star of the undefeated '41 and '42 elevens, who, it was announced this week, will not return to Delaware this term.

All fourteen lettermen are World War II veterans. Seven of the lettermen are backs and an equal number held down line posts. The ball carriers are fullbacks, Paul Hart and Joe Coady; wingbacks, Fred Sposato, Art Millman, Danny Wood, and Gerald Doherty; and quarterback, Jim Buchanan.

Lettermen with experience in the forward wall are ends, Buck Thompson and Jabbo Jarvis; tackles, Tony Stalloni, Bob Campbell and Al Northwood; guard, Walt Marusa, and center, Jack Messick.

Those who previously served as replacements but did not receive varsity letters are Horace Ginn, Joe Hearn, Charlie Griffith, Billy Cole, and Bill Nash, all backfield men; and Carrot Hauptle, an end, Bob Pappy and Jim Otton, tackles, Gene Carroll and Jack Coulter, guards, and Bob Glisson, a center. All of these candidates are also World War II veterans.

Others expected for the pre-season training sessions who have received some coaching from Murray either in informal war-year teams or in spring practices are Angelo Cataldi and Gerald Bowls, fullbacks; Bill Otten, a quarterback; Bob Jones, Ernie Mettenet and Ted Zink, ends; Herb Ewing and Jim Williams, tackles; Bob Lind and Carl Stalloni, guards; and Ray Ciesinski, Walt Perominski, and Jack Weaver, centers.

The return of four teams to Delaware's schedule this year, after an absence of several seasons, tends to make this schedule the toughest in history for the Delaware squad. The returning teams are Randolph-Macon, Franklin and Marshall College, Bucknell University, and Muhlenberg College.

## Tomhave Is Winner In Horseshoe Tourney

Winner of the Horseshoe Tournament organized as a part of the summer recreation program here was A. E. Tomhave, who defeated Stanley Gibbs in the finals last week. Tomhave took three games to one in the best-three-out-of-five series.

An error appeared in last week's article which stated that Tomhave had been eliminated in his opening clash with Dr. Moore. The latter lost the match, Gibbs eliminated Williams in the semi-finals.

## FIGURES ON SUMMER RECREATION PLAN GIVEN

### Figures Indicate Mark Success Of Program At Pool And Playground

Some indication of the success which marked the recently concluded summer program here is given in statistics for the season compiled by recreation association heads this week.

A total of 6,443 youngsters attended the university pool over the 8-week period. Twenty-six children, who formerly had no experience in the water, learned to swim under the tutelage of Coach W. S. Martin, program director, and passed tests which included swimming two lengths of the pool, plus diving off the board. In addition, some 20 to 25 others progressed sufficiently to handle themselves well in the water but did not quite measure up to Martin's tests.

A group of 27 swimmers passed the Junior-Senior Red Cross Life Saving Course sponsored by the program, and three others won places (2 seconds and a third) in the recent swimming meet at Canby Park.

The playground was host to 395 children, who joined in supervised games and special events three mornings weekly throughout the summer.

Total attendance for the teen-age canteen, open three nights weekly for a 10-week period was 2,550, indicating this was one of the most successful features of the program and suggesting the need for a permanent center open to the youths in the evenings.

Also highly popular both with the players and fans were the two softball leagues, the Service Club and the Independent loops, the former made up of teams from the town's civic clubs and the latter composed of teams of younger men.

## NEWARK TRIPPED IN FINALE

### Ends Season When Shutout By Rivermen

In a postponed game here last Saturday, Newark rounded out its season when it was stifled by Havre de Grace, 6-0. Although the locals poled eight hits, with Whiteman and Cataldi getting two apiece, they were unable to push across a single tally in the nine-inning contest.

Havre de Grace scored on two run rallies in the second, fourth and eighth sessions, while collecting 12 hits off Wilson.

## LOCAL BOWLING SEASON GETS UNDERWAY; LEAGUES TO START ABOUT SEPT. 16

### Newark Center Started Operation Yesterday; Team Heads Urged To Enter Clubs As Soon As Possible; Alleys Are Fully Reconditioned

Signs of Autumn were unmistakable this week as one of Newark's most popular fall and winter sports gave indications of revival with the opening of the Newark Bowling Center yesterday. Local kegling enthusiasts are already limbering up for the coming season, as Morris M. Adams, manager of the center, stated that the regular weekly leagues will be launched about the 16th of September.

Several new teams have given notice that they expect to enter loop play this season, Adams said, plus the regular member teams of the Monday, Tuesday and Friday Night Leagues.

Competition for feminine kegglers also is promised, with plans calling for the resumption of the Girl's Thursday Night League, if a sufficient number of teams are rounded up.

Team managers for all leagues, as well as representatives of any new teams desiring to enter competition, are urged to notify Adams as soon as possible in order to work out details of league schedules.

The local bowling center, one of the best equipped in the state outside of Wilmington, has been undergoing a thorough reconditioning and refurbishing the past two weeks. Complete new sets of pins will be available for league play, and the alleys will be thoroughly reconditioned. The fountain and snack bar will also be operated.

Newcomers to the sport will be offered free instruction throughout the season by Manager Adams, one of Delaware's leading pinsters.

## Predict Output Of 26 Million Suits This Year

The Civilian Production Administration recently predicted a record output of 26,000,000 men's suits this year.

CPA Administrator John D. Small based this forecast on production of nearly 12,000,000 suits during the first half of 1946. He said this was almost as many suits as were produced during all of 1945.

Output during the first six months of 1946, Small reported, included 10,900,000 men's wool suits, 500,000 students wool suits, and 500,000 men's cotton and rayon suits.

## RED MEN WIN AGAIN

### Plan 2 More Games Here

The Red Men softball club, one of the recently reconditioned Service Club League here, are now extending their conquests to more distant shores.

This Saturday, the local outfit will take on the North East Fire Company softballers on the Continental Ground in a game beginning at 2 p. m. while on Sunday they are scheduled to meet the Chester, Pa. Red Men game here, also beginning at 2 p. m.

Recently the Newark club has hawked the North East Fire Company by a 17-8 count in a game of the latter's field. The locals biggest victory in the fifth when they won a seven run.

Outstanding hitters were A. Donovan, Simpers and Rose. In the end while Tweed, G. Dougherty and Donovian collected two.

### INSECTICIDE TO PROTECT FOOD SEEDS

#### Safeguard For Nation's Food Supply

A new and superior seed-disinfectant, which without use of other insecticides gives improved protection from insect attacks to the seed in storage, is the greatest danger-spot in the nation's food supply, has been developed by research scientists after years of experimentation.

The DuPont Company announced recently that the discovery was first made by laboratory technicians who exposed seed treated with various fungicides to a varied collection of the most devastating storage insects, including bean weevil, rice weevil, corn meal weevil, cadelle beetle, and Mediterranean flour beetle. The observations were made during experiments to determine the length of time that "Arasin" seed disinfectant, containing tetramethyl thiuramdisulfide, retains its fungicidal powers.

To confirm these early observations, bean, lima bean, wheat, rye, and corn seeds on which these insects feed, were treated at the usually recommended dosage for seed disinfectants. From 10 to 25 insects were added to each lot of treated seed, as well as to comparable untreated seed.

Examinations and counts of living and dead insects at intervals disclosed that "Arasin" was the most generally effective treatment in checking the infestation.

"Insects used in the tests rarely succeeded in living more than a few days on the "Arasin"-treated seed, and in fact damage to the seed was negligible," according to Gilbert F. Miles, manager of the DuPont Sementes Research Laboratory here. "And, as expected the insects devoured the edible portions of the untreated seeds."

### STATE LIFE INSURANCE PAYMENTS

#### \$1,840,000 In Death Benefits Paid In Del.

Delaware families received \$1,840,000 in life insurance death benefit payments in the first half of this year, compared with \$1,984,000 in the corresponding period of last year and \$1,903,000 in the first half of pre-war 1941, it was reported recently by the Institute of Life Insurance.

The number of policies becoming claims in the first six months was 2,705 which compares with 3,128 in the corresponding period of the previous year and 2,498 in the first half of 1941.

"These payments nationally reflect the increased protection set up by the American people through life insurance since the start of the war," Holgar J. Johnson, president of the Institute, said in announcing the figures. "Death benefits paid in the first half of this year countrywide are 30 per cent greater than in the corresponding period of 1941 and total life insurance owned is over one-third greater than at the start of 1941."

Of the aggregate payments in this state, \$1,134,000 was under 494 ordinary policies; \$247,000 was under 159 group life insurance policies, and \$459,000 was under 2,052 industrial insurance policies.

### ARMY CUTS EMPLOYEES

#### Many Civilians Dropped By WD

In an effort to meet President Truman's demands for economy, a ten per cent cut in the number of civilian employees was ordered by the War Department recently, with orders going to army headquarters and field agencies to discharge 53,079 employees by October 1. Additional slashes were also predicted.

There were 572,579 on the payroll July 31.

The reduction was ordered by the Budget Bureau in accordance with a congressional directive that government departments must absorb the cost of pay raises voted Civil Service employees.

Mr. Truman's Aug. 1 directive to all government departments to hold expenditures to a minimum will bring further economies, officials disclosed, including possible cancellation of part of the winter training program.

Cuts are being made all along the line where, in the War Department's opinion, the national interest will not be endangered, Maj.-Gen. Charles H. Bonesteel, head of the War Department's manpower board, said.

### NATIONAL GUARD UNIT IS ACTIVATED

#### Headquarters, State Staff Are Sworn In

Twenty-two officers and 37 enlisted men were sworn in at the formal ceremonies activating the 198th A. A. Group Headquarters of the Delaware National Guard and the state staff in the State Armory, Wilmington, last week.

The ceremonies were conducted by Col. George J. Schultz, A. A. Group Commander. The state staff is headed by Lieut.-Cols. John B. Grier and Walter L. Tindall.

Following the activation the two units were inspected by Brig.-Gen. Paul R. Rinard, the adjutant general and Lieut.-Col. Elmer R. Fry, Lieut.-Col. Clarence J. Weidman, and Maj. Raymond J. Dees. The latter three inspecting officers arrived yesterday from the First Army headquarters at Governors Island, N. Y.

A report of the activation will be sent to Washington, D. C., by the three First Army officers for final approval. The National Guard unit will be notified within the next several days of the final outcome and if approved, may be eligible for federal pay as early as next week.

It was pointed out that as soon as the Delaware Guard receives federal recognition, the unit will be ready to acquire the 35 fighter air craft allocated to it under the peace-time training program.

**ADVERTISEMENT FOR BIDS**  
Sealed proposals will be received by the State Highway Department at its offices, Dover, Delaware until 2:00 P. M. E. S. T., Sept. 25, 1946, and at that time and place publicly opened for contracts involving the following approximate quantities:

- CONTRACT 837
- Georgetown to Ellendale
- Sussex County
- Hot Mix Bituminous Resurface—9.137 MI.
- Federal Aid Project F-84 (2)
- 7 A. Clearing
- 7 A. Grubbing
- 26,000 C. Y. Excavation
- 450 C. Y. Structure Excavation
- 400 C. Y. Borow Pit Stripping
- 14,000 C. Y. Selected Borow
- 4,200 C. Y. Cement Concrete Base
- 26,000 T. Hot Mix Asphaltic Surface
- 5,000 S. Y. Patching Present Pavement
- 35 C. Y. Cement Concrete Masonry
- 33,000 Lbs. Reinforcing Steel
- 507 L. F. 12" R. C. Pipe
- 275 L. F. 15" R. C. Pipe
- 681 L. F. 18" R. C. Pipe
- 156 L. F. 24" R. C. Pipe
- 2 Ea. Catch Basins
- 1,000 Lb. Castings
- 0.2 A. Seeding
- 1,500 T. Sand

These contracts will come under the provisions of the Federal Aid Highway Act, as amended.

The Employment Agency for these contracts shall be the Employment Service Division of the Unemployment Compensation Commission, Georgetown, Sussex County, Delaware.

Attention is called to the Special Provisions in the proposal, specifications and contract agreement.

Performance of contract shall commence within ten (10) days after execution of the contract and be completed as specified.

Monthly payments will be made for ninety (90) per cent of the construction completed each month.

Bidders must submit proposals upon forms provided by the Department.

Each proposal must be accompanied by a surety bond, certified check, or money to the amount of at least ten (10) per centum of the total amount of the proposal.

The envelope containing the proposal must be marked "Proposal for the construction of State Highway Contract No. ...."

The contract will be awarded or rejected within twenty (20) days from the date of opening proposals.

The right is reserved to reject any or all bids.

Complete sets of plans and specifications may be obtained after Sept. 10, 1946 upon receipt of two dollars (\$2.00) for each contract, which amount will not be refunded.

Make checks payable to the State Highway Department.

### PUBLIC SALE

#### of Real Estate and Personal Property on

#### Tuesday, September 17, 1946

#### 12 Noon Daylight Saving Time

#### Farm on the Road Leading from Route 40 to Porter's Station, Delaware

Having decided to discontinue farming, I will sell my farm and personal property, real estate consisting of two tracts of land (one tract of 228 acres of land on the west side of the public road known as the Marlmax Farm which was the old "Biddle Farm"; the other tract of 31 acres is situated on the other side of the public road).

This farm is level, productive soil and nicely situated 12 miles from Wilmington, Del., 1 mile from the Dual Highway and improved by 7 room frame dwelling house, large cow barn, 33x90, 30 stanchions, corn crib, hay barn, machine shed, horse stable, pump house and other necessary outbuildings. Good wells of water and electrically equipped.

Real estate to be sold at 1 P. M., Daylight Saving Time.

Terms of real estate, one-third (1-3) cash on day of sale. Balance on transfer of the deed. Purchaser to pay all costs of conveyance including internal revenue stamps.

(Other arrangements can be made by contacting the undersigned owner. Satisfactory arrangement can be made as to possession.

Personal Property

Stock: 4 good work horses, 1 good Jersey milk cow, 2 bulls, 5 heifers; Machinery: 2 tractors, 2 manure spreaders, plows, cultipacker, number of wagons, many other implements too numerous to mention.

100 bu. of oats, 9 tons of haled oats straw, alfalfa and hay, 30 acres of corn in the field, and 60 acres of soy beans in the field.

Terms of personal property cash. . . .

Philip Liebman, Owner

Eugene Racine, Auct.

9-5-21c.

## DOVER FARM POTATO CROP TOPS RECORD

### Farmer Reports Largest Yield In Kent County

Chris Zimmerman of near Dover, Delaware, is harvesting the largest yield per acre of potatoes ever known in Kent County. His yield on his 75 acres of potatoes is averaging in the neighborhood of 450 bushels to the acre. Some of his Irish Cobblers, Green Mountains and Kathadins are running so uniform that they are being sacked right in the field and are grading U. S. No. 1 throughout.

Kent County Agent William Tarbell reports that in one plot on the Zimmerman farm where the owner cooperated with the Extension Service in a demonstration on the Kathadin variety of a new combination of a fungicide and insecticide developed by the Delaware Experiment Station, the yield was 612½ bushels per acre. A plot treated with the present standard treatment yielded 512½ bushels. This demonstration to learn better disease and insect control under commercial production conditions was directed by Dr. John W. Heuberger, extension plant pathologist and Dr. L. A. Stearns, extension entomologist.

Zimmerman began his planting in March and completed this job the last of April. The rows were spaced 3 feet apart with the hills in the row 13 inches apart. He planted 20 bushels per acre of certified seed and used 1200 pounds of 8-16-16 fertilizer in bands on either side of the row and somewhat below the seed piece. Weeds were controlled by regular cultivation and the rows were ridged up and layed by before the plants were too large. Almost a mile of pipe for irrigation purposes is used in the production of the crop. This system has been in use for the past three years. This year's irrigation was used only once and this during the blooming period of the Cobblers and other varieties. Source of water for the irrigation is the St. Jones River which borders his lands.

### 306 Killed In Mishaps Over Holiday Week-End

More than 300 persons suffered violent deaths as the nation celebrated its final extended holiday week-end of the summer.

Homebound vacationists and tourists jammed most of the country's highways over the three-day Labor Day holiday and traffic fatalities surpassed the estimate made by the National Safety Council.

At least 306 persons were killed, including 217 in traffic mishaps. The council had estimated 350 persons would die from public accidents over the holiday week-end, including 210 in traffic accidents.

### Main Street Tree Is Condemned As Hazard

Condemned as a traffic hazard, the large tree near Chinamen's Alley on East Main Street, will be removed by town workmen soon. The tree, which extends some distance into the street, is regarded as an increasingly dangerous obstacle to parkers and traffic in general and was ordered removed by the Town Council at its monthly session Tuesday night.

Five minute parking notices may also be set up soon before the Newark Newsstand on Main Street. The move was approved by Council and passed on to the Police Committee, headed by Norman Battersby, for action.

### THE FIRST STREET RAILWAY

The first street railway operated in the United States was built in New York City in 1831 and 1832. It ran from the Bowery to Harlem, and was pulled by horses.

## Kyanize SELF-SMOOTHING FLOOR ENAMEL

DON'T GET EXCITED—NO HARM DONE—THE FLOOR IS WELL PROTECTED WITH KYANIZE FLOOR ENAMEL

Tough and durable Kyanize Floor Enamel is the enamel finish to use on old floors of wood, paterawo linoleum and cement, indoors or out. Hides old blemishes; dries overnight; waterproof. All popular colors. Kyanize is the LIFE of the surface.

## "Delaware Plan" To Foster Vet Employment In State

The "Delaware Plan" providing for maximum employment, business opportunities and careers for veterans, was described recently by U. S. Senator James M. Tunnell of Georgetown. Developed by Senator Tunnell from the so-called "Veterans RFC Bill" which he introduced in the Senate during the last session of Congress, the Delaware Plan can be promoted in this state, Senator Tunnell said.

The bill is sponsored by the Veterans of Foreign Wars of the United States. The interests of unemployed veterans, Senator Tunnell stated, can be promoted by spreading the base of smaller business firms and using the technical advisory service of government agencies in setting up justifiable and self-liquidating enterprises in a free competitive economy.

## 45 MILLION U. S. EXPORTS

### Figure Is For 4 Year Period

Lend-lease shipments skyrocketed the value of United States exports to \$45,000,000,000 for the four war years, the United States Chamber of Commerce reported recently. This was equal to the value of all exports in the preceding 14 years.

The value of lend-lease exports was \$32,000,000,000 and of commercial exports \$13,000,000,000, for the years 1942-45.

The commercial exports, averaging \$3,200,000,000 a year, "represented a decline of about 20 per cent in quantity under pre-war years after allowance for higher prices," the report said.

The United Kingdom and Russia took 54 per cent of all exports and 71 per cent of direct lend-lease exports. Ninety-two per cent of all exports to the United Kingdom and 98 per cent of those to Russia were under lend-lease arrangements.

The commercial trade in Europe was with Switzerland, Spain, Portugal, Sweden and Ireland for the most part.

### Present Owner Will Mark Truman's Birthplace

Everett Earp's tired of listening to the Lamar, Mo., city council and chamber of commerce argue about who is going to build a sign pointing out President Truman's birthplace. He is going to put one up himself.

Earp is owner of the five-room white frame cottage where the President was born. He also is a real estate dealer and has been chief constable here for 16 years.

"They've been doing a lot of talking about signs and markers," said Earp, "but I just got tired of waiting on them."

Explaining that his sign would be six feet high and eight feet wide, Earp said it would be erected "right by that tall pine tree—60 feet high, it is—that the Trumans planted the day the President was born."

### Mother Pushes Baby Carriage 250 Miles

Mrs. Marjorie Barnett, 29, of Pottlach, Idaho, hiked from Tacoma to Pullman—about 250 miles across the state—and pushed her two small children in a baby buggy while the third child, walked with her.

## WOMEN VOTERS TOP MEN

### Figures Show Over Million More In U. S.

Of the 91,634,472 potential voters in the nation, according to a recent announcement by the Census Bureau, women voters outnumber men by 1,171,948. The bureau's report stated that as of July 1, the voting population included 46,403,210 women and 45,231,262 men over 21 years of age.

The report added that the ranks of new voters will be increased by the addition of those aged 18 through 20 in Georgia, where voting starts at 18 years. There were 200,000 persons of this age group in Georgia in the 1940 census.

The 9½ million potential voters this year contrasted sharply with the number who actually cast ballots in the 1944 election—a total of 47,976,263 persons or 54 per cent of all 21 or over who totaled 89,204,658. A smaller percentage is expected to vote this year.

The vote in 1944 was said to represent "a slight reduction from the 49,820,320 who voted in 1940, a reduction caused by the shifting of servicemen and large segments of the working population from their established places of residence."

This reduction was regarded as vote in Presidential election years and lighter balloting in the other election years in between.

### Allocate Funds To State For Hospital Aid Program

A first-year survey allocation of \$10,000 and a construction allocation of \$86,625 were made to Delaware recently by Surgeon General Thomas Parran in Washington, D. C., under the federal government's \$75,000,000-a-year hospital aid program.

The act, signed by President Truman shortly before he left Washington on a vacation cruise, empowers the government to bear one-third of the cost of constructing or expanding hospitals for the next five years by private, non-profit agencies as well as states, cities and counties.

Fully utilized, the act would provide a \$1,225,000,000 building program. The act appropriates \$3,000,000 for surveying and planning by state-designated agencies, which will determine what projects shall benefit and in what order. The fund is allocated on a basis of population.

Funds for construction are allocated on a complicated formula, which gives varying weights to population, value of products, per capita income and other factors.

## U. S. VACATION TRAVEL SETS NEW RECORD

### Tourists Set Peacetime Mark In Nation

A peacetime record for vacation appears in the making this year by the hordes of Americans swarming into Canada and Mexico, touring the national parks and crowding hotels and summer resorts from coast to coast.

Here is a quick glance around the country.

Hotels: The American Hotel Association says hotels and resorts this summer—with some few exceptions—have been packed from coast to coast.

The year 1945—when demobilized servicemen swarmed home—was the peak year for hotel occupancies. But 1946 is running neck and neck with it.

Railroads: The Association of American Railroads expects 1946 to be the greatest peacetime travel year in history. It estimates 68,000,000,000 passenger miles will be traveled in 1946, compared with 48,000,000,000 in 1920, the previous record peacetime year.

Railroad travel is below 1945 when servicemen were returning home.

National Parks: The Interior Department says that through July 31, 1946, more than 14,471,000 people visited the national parks. In the same period of 1941 only 12,500,000 went there.

Auto Travel: This is what the American Automobile Association figures:

Of the 25,000,000 cars able to roll, 20,000,000 will be taken on some kind of vacation trip, each car carrying an average of three people, or a total of 60,000,000 people taking some kind of holiday.

Each of those 60,000,000 people will spend an average of \$100, or a total of \$6,000,000,000 on vacations.

In the six months ended June 30, 1946, the number of American cars going into Mexico was 21,084, the highest for any similar period in history.

In the six months ended June 30, 1946, about 457,500 cars crossed into Canada.
