44 Genova
Mexico City, Mexico

Dear George:

I still have to thank you for your letter of November 23rd with its highly interesting enclosure which I shall destroy as requested. However, before doing so, I think that you will have no objection to my showing it to Mr. Brosens who is expected to arrive here on Saturday.

I also read with interest yours of November 27th with the enclosed papers on India.

Finally I wish to thank you for your telegram on my birthday. It was nice to be remembered by you and Marion.

With all good wishes to you both.

Cordially yours,

D. N. Heineman
