

PROJECT TO FLUORINATE WATER HERE IS DELAYED

Four Doctors Approve Plan; Five Are Still Unheard From

The plan to fluorinate the town water supply as a curb on tooth decay in Newark children was again held up by the Town Council at its August meeting on Monday night.

The delay was caused by the fact that only four local doctors have recommended thus far to Council's request for written approval of the project.

The physicians, Dr. William Silverman and Dr. Wallace Johnson, and two veterinarians, Dr. Hobart Hare and Dr. L. Springton, have forwarded their approval to Council. Five other doctors are still to be heard from. They are Dr. Hughes Nutter, Dr. John R. Hunter, Dr. Arthur Mencher, Dr. C. J. Smolko, and Dr. G. Burton Pearson.

The Council agreed at its July session to go ahead with the fluorine plan as soon as a written okay from the State Board of Health could be secured. This was requested in a letter to each physician several weeks ago. Since the latter have not yet given their verbal approval, Council's current request is regarded merely as a formality for its production again complaints once the plan is launched.

The doctors are not being asked to support the fluorine plan but merely to state that fluorination of the town water system in the amounts proposed would have no injurious effect on the public.

Council also received a letter from the State Board of Health saying that it had no objection to the plan, but stating that the process was still in the experimental stage and that final word on its effectiveness in preventing tooth decay was still lacking.

Council also gave further study to the town assessment committee's report which offered recommendations regarding the methods of real estate taxation here. Council decided to send a representative of New Castle County's assessment bureau to appear before the town assessment committee.

Services Today For Benjamin W. P. Hicks

Benjamin W. P. Hicks, 64, whose death by drowning was termed a suicide by coroner William Smith, was buried in private services today at the Salem Cemetery.

The body of Mr. Hicks, who was well known in this section, was found Monday on the banks of the Christina River between the Reading and Pennsylvania Railroad bridges near what was formerly the Delaware Pulp Mill. The deceased was identified by his son, Benjamin E. Hicks, former state representative of Marshallton.

Mr. Hicks, a farmer and active church member, had been ill for some time.

He served as master of Harmony Lodge in 1941 and 1942 and had been a member of the executive body for several years. Mr. Hicks, who formerly lived in Marshallton, had a stand in King Street Market near Fourth Street for many years and specialized in poultry. He served as a messenger in the House during the past session of the Delaware Assembly.

Mr. Hicks, in addition to his son, is survived by a daughter, Mrs. Lewis E. Sawyer of Newark, with whom he lived, and two grandchildren. His wife died about 10 years ago.

Newark Girls In Finals For Junior Miss Delaware

Blanche Boulden, who was named Junior Miss Newark at the Legion carnival here last week, and Joan Boulden, the runner-up, were among the Delaware girls who came through the preliminary in the Junior Miss Delaware competition at Rehoboth Beach last Saturday. The eight were chosen from a field of 14 contestants from throughout the state on a point basis for physical attraction.

Miss Boulden earned 54 points to place first with Helen Blackwell of Wilmington, while Miss Brown collected 53 points for second place.

The Newark contenders, both of whom will now enter the finals for the state title this Saturday at Rehoboth. In this contest, talent will also be a factor. The winner will compete in the national eliminations, August 10 and 11 at Pittsburgh for the title of Junior Miss America.

The two local winners were selected

28 Newarkers Named On U. D. Dean's List

525 Students On Merit Roll For Spring Semester

The Dean's List at the University of Delaware for the spring semester of 1948-49 includes 525 students, or about 25 per cent of the entire student body. The list named 28 students from Newark.

Dr. Francis H. Squire, dean of the university, reported that 25 students had scholastic indices of 4.00, equivalent of a straight "A" average. A record averaging at least 3.00, or "B," for all subjects is necessary for inclusion on the list.

Students named from Newark High School were: Edward J. Davis, Herbert S. Slack, Thelma G. Thompson, Robert W. Kennard, Daniel L. DuHammell, Harry W. Maclary, John A. Rothrock, Paul W. Morton, Jr., Sally Wooleyhan, Joseph M. Brown, Louis H. Coxe, IV, Albert A. Thorp, William H. Burnett, Sophie McVey, Mary A. Bueche, Ethel R. Weaver, Robert L. Coxe, Martin F. McAllister, Wayne J. Pollari, Elizabeth G. Dawson, Franklin L. Adams, William F. Lindell, Jr., Harry E. Downs, Richard A. Smith, Patricia G. Reybold, Ernest A. Korber, Robert D. Murphy, Eugene C. Robinson.

Barn Destroyed In \$18,000 Blaze Near Here On Saturday

Only Other Call Past Week For Fire In Basement Of Kase Residence

A bolt of lightning ignited a barn owned by Finley Geesman, on the Newark-Ogletown Road, last Saturday burning it to the ground along with its contents, including one calf and large quantities of hay and grain. The loss was estimated at \$18,000.

The flames spread quickly in the wooden structure and were well under way when firemen from Newark and Christiana arrived. The latter concentrated their efforts on saving the garage and home nearby.

Mr. Geesman had just completed his grain storage a few days before the fire. He was in his farm house with his family when the lightning struck, dousing all lights. He knew the bolt had hit nearby and soon saw the flames licking about his barn. The incident took place around 9 p. m. A strong wind was blowing at the time.

The Aetna company fought the blaze for over an hour and a half.

The only other call the past week came around noon on Monday, when fire broke out in a woodpile in the basement of Dr. C. Robert Kase's residence, 176 East Main Street.

The damage, caused mostly by smoke seeping into the upper stories of the house, has not yet been estimated. The cause is unknown, according to fire recorder Charles E. Moore, although it is believed a bucket-a-day stove near the wood may have ignited it.

Services Monday For Fibre Plant Manager

Edward A. Curtis, plant manager of the Continental-Diamond Fibre Company, was interred on Monday at White Clay Creek Cemetery, following services at his home on West Park Place. Mr. Curtis, who was 52, died last Friday at the Memorial Hospital, where he had been a patient for about eight weeks. He had been connected with the fibre company for about 30 years.

His only close survivor is his wife, Mrs. Margaret Curtis. He was a member of the J. A. O'Daniel Post, No. 10 American Legion, the Newark Lions Club and the Aetna Hose, Hook and Ladder Company.

46 PCT. OF PUPILS HERE TOP AVERAGE

Rate Above Nat'l Norm, Tests Show

Forty-six per cent of the elementary pupils at the Newark Schools are above the national average in subject mastery and general academic achievement.

This was shown through standard achievement tests administered to pupils in grades one to six last May. The results, which were tabulated recently, were released by Henry M. Brader, elementary supervisor.

The completed figures show 46.7 per cent of the children above national average, 25.8 per cent average, and 26.6 per cent below average.

The tests, which are given to thousands of school children throughout the country, provide a fairly accurate gauge both as to a pupil's progress in relation to the norm and to the effectiveness of the school's curriculum. The tests varied for the older and younger groups. Grades five and six were given tests covering such subjects as reading, history, English, geography and science. Grades three and four were quizzed on reading, English, arithmetic and social studies; grades one and two concentrated on reading and numbers tests.

Nursing Substitute Named For August

Miss Mary Roberts To Serve As Visiting Nurse During Absence of Miss Leak

Miss Alice Leak, visiting nurse for this section, announced yesterday that Miss Mary Roberts will substitute for her from August 8 to September 8, during which period Miss Leak will be on vacation. Miss Roberts may be reached by calling either 2-1813 or 3881. The latter is the health office here.

Miss Leak reports making 216 visits in July, including 204 nursing and 12 instructive calls.

The breakdown is as follows: maternity, 1; visits, 4; arthritis, 2; visits, 21; apoplexy, 3; visits, 38; paralysis, 2; visits, 18; carcinoma, 1; visits, 12; fractures, 1; visits, 9; anemia, 3; visits, 8; diabetes, 1; visits, 3; heart diseases, 4; visits, 32; kidney diseases, 3; visits, 18; accidents, 2; visits, 3; intestinal diseases, 10; visits, 25; treatments, 32.

Hearn Grocery Chain Not Planning To Locate Here

The report that Hearn Brothers, Wilmington grocery chain, has bought property from George Leak on the eastern edge of Newark with a view towards erection of a supermarket there, was denied by officials of the company this week.

Mr. Leak also said there was nothing to the rumor, when he was questioned by the Post.

Robert Harra, a spokesman for Hearn, said that the firm's president, Stanley Hearn, had inspected the Leak property several months ago but had decided not to buy it.

The rumor that Hearn was about to locate here was widespread the past two weeks and gained much credence. A similar rumor broke out here several years ago, when it was thought Hearn would locate on New London Avenue, but this also proved without foundation.

Carnival Prizes Are Available At Grounds

The final night of the Legion Carnival here last Saturday was rained out, and a number of prizes could not be awarded.

Winning ticket holders may secure their awards, however, by applying at the carnival grounds any evening this week, according to William Beswick, post commander.

Members of the J. A. O'Daniel Auxiliary this week extended their thanks to those townspeople who helped make their carnival booth a success.

Prize awards were announced by the Auxiliary as follows: electric iron, Mrs. Katherine Gregg; ironing board pad and cover, Mrs. Paul Lovett.

Ordinance To Set 25-Mile Speed Limit

The first and second reading of an ordinance setting a 25-mile speed limit in town was carried out by the Town Council on Monday night.

The new law will automatically repeal a former ordinance which fixes the limit at 15-miles per hour. It will not apply to the Reed Village area, however, where a 15-mile limit was recently set.

SPEEDING VIOLATIONS ARE HIGH

Police Nab 38 Motorists Past Month

A stepped up campaign against speeding motorists here is reflected in the July police report, released this week by Chief William Cunningham. Arrests for the month totaled 51, of which 38 were for violations of the 25-mile speed limit.

The force also carried out a number of investigations, including five accidents, one auto and one bicycle larceny, one case of malicious mischief and one report of breaking and entering. Both the auto and the bicycle were recovered. The police also checked on a reported case of insanity, but no details were given.

The remainder of the month's arrests were classified as follows: drunk and disorderly, 1; assault and battery, 1; disorderly conduct, 4; resisting arrest, 1; passing on right, 2; drunk, 2; failing to have operator's license signed, 1; passing red light, 1.

A total of 251 telephone calls were handled. Overnight lodging was provided three persons.

One person was sent to the workhouse and two were held for the Court of Common Pleas.

The police car traveled 3,600 miles and the motorcycle 433.

Magistrate Clarence Foster reported collection of \$485 in fines for the month.

Advertise For Bids On Street Repairs

Long Proposed Project Expected To Cost \$20,000

Town Engineer Arthur Hauber advertised for bids this week on the long proposed repair program, which calls for resurfacing a number of thoroughfares, plus some curb and gutter work. The project is expected to cost in the neighborhood of \$20,000.

The sealed bids will be opened publicly on August 15 in the Council offices and a contractor will be named. It is not known how long the work will take, but it is hoped to complete the entire project before cold weather sets in.

Major items proposed in the program are resurfacing of all streets in Read Village, the town parking lot, portions of Benny, Hillside, Margaret Streets, Hillside and Forrest Lane and other thoroughfares.

Town To Enforce Anti-Weed Ordinance

Strict enforcement of the town's anti-weed ordinance was ordered by the Town Council at its August meeting on Monday night. The police force was directed to check on all violators immediately.

The step was taken because vacant areas are again becoming overgrown and present a menace to health. Property owners who fail to comply with the law are liable to a dollar a day fine.

Powell's Ice Cream Plant Entered Friday

Powell's Ice Cream Plant in the rear of 43 Main Street, was broken into last Friday night and a sum of cash was taken. A window was used to gain entrance.

The local police did not say how much money was stolen and did not reveal further details of the investigation.

Newark School Enters Exhibit At State Fair

An educational display was set up by the local public school at the beginning of the State Fair Week in Harrington last week. The exhibit was placed in the Department of Public Instruction building on the Fair grounds. Newark's school building program was played up in the exhibit.

Two Newark teachers and Nancy Conte, a 1949 graduate, arranged the display and placed it in the building. Nancy Conte did the art work on the replica of the 1884 School House and painted the backdrop used in the display. The building represented is the Main Street Building now used by the Industrial Arts and Agricultural Departments of the Newark School. Mr. Clifton Knotts assisted with the transportation of the materials to Harrington.

Many schools throughout the state participated in the exhibit. This is the second year the State Department has had such a display. Other schools exhibiting were Delmar, Conrad, Georgetown, Milford, Brown Vocational. In addition the Delaware Rehabilitation Center had a display.

5-Day Registration Slated At Schools

New Pupils To Enroll Between Aug. 15-19 At High School Office

Registration of pupils who plan to enter the Newark Schools for the first time this fall will be held Monday, August 15, through Friday, August 19, Supt. Wilmer E. Shue announced yesterday.

The registration will be for both beginning and transfer pupils. Hours will be from 9 to 12 a. m. in the high school offices.

Officials warned that this will be the final registration period for the September term. Individual registrations will be accepted afterwards during the remainder of August, but no registration will be held on the opening day of school. Those intending to enroll should bring a birth certificate or other proof of birth date.

The final sign-up period, starting August 15, is for prospective first graders who did not enroll during the pre-school clinic last spring and for older pupils who are transferring to Newark from other schools.

Another record enrollment in the first grade is expected this year, according to Supt. Shue. He anticipates a slight increase over the approximately 145 first graders last term.

Rites Held Saturday For Newark Woman Killed In Car Crash

Mrs. Ada B. C. Claringbold Succumbs In Hospital After Accident Near Glasgow

The funeral of Mrs. Ada Belle Cochran Claringbold, 74, who died of injuries received in an automobile accident last Wednesday night, was held Saturday from the Shellender Funeral Home.

Mrs. Claringbold passed away in the Wilmington General Hospital the morning following the accident. The latter occurred when the car in which she was a passenger collided with a truck and a trailer at the intersection of Route 40 and the Summit Bridge-Newark Road near Glasgow.

Her husband, Thomas R. Claringbold, 77, who was driving the car, escaped with severe lacerations of the head and contusions. He was released from the hospital after treatment.

The couple were returning home from a day at the Kent-Sussex Fair at Harrington at the time of the accident.

State police said Claringbold was driving toward Newark and the truck was heading towards Baltimore, south on Route 40.

The operator of the truck was James C. Milloway, of High Point, N. C. According to troopers the traffic control light at the intersection was operating at the time and Mr. Claringbold had the green light.

Milloway was arrested on a charge of technical assault and battery and placed under \$3,000 bail by Magistrate Thomas W. Holcomb II of New Castle. This charge was later changed to manslaughter.

The police said Mr. Claringbold's car had gone through the intersection and that the rear of the car was struck by the truck. The truck owned by R. D. Fowler Motor Lines, High Point, N. C., was only slightly damaged. The accident occurred at 7:27 p. m., Wednesday.

Mrs. Claringbold was born in Wilmington, and was married in 1900.

In addition to her husband, she is survived by two sons, Thomas Cuthbert and Richard Bayard Claringbold, both of Roseville; a daughter, Mrs. Andrew S. Walp, Metuchen, N. J., four grandchildren, and two great-grandchildren.

NHS Youth Top Winner In State Model Auto Contest

Vaughn P. Fox, Newark High's ace model car builder, has again been named a top state winner in the Fisher Body Craftman's Guild model car competition, according to Arthur Dondineau, superintendent of schools in Detroit, where the judging has been in progress for three weeks.

Vaughn's entry, a balsa wood miniature design of the Car of the Future, was chosen the best in the senior division for Delaware. Last year Vaughn took first in the junior division for the state.

The 17-year-old youth, who will enter the senior class at the Newark High School next term, will receive \$150 in cash and a gold ring as a token of his victory.

The son of Mr. and Mrs. Pierce Fox, of near Newark, Vaughn put in many hours of painstaking and tedious work on his model both at home and in the school workshop before submitting it

TO QUARTER 170 PUPILS IN CHURCH NEXT TERM

Details On Plan To Ease Crowding In District Are Given By Brader

Full details on the plan announced some time ago to hold overflow classes of the Newark Public Schools in the Sunday School rooms of the Methodist Church this fall were outlined yesterday by Henry Brader elementary supervisor at the school.

About 170 children, including first, second and third graders, will attend classes in the spacious quarters in the basement of the church. The largest group, about 130 pupils, will be the third graders, who will be divided into four sections and assigned to the church' junior, intermediate and beginner department rooms. In addition, groups of 20 first and 20 second graders will use the church.

Besides the classroom space, the children will be able to use a playground area in the rear. The pupils will continue to use the cafeteria in the main school building and attend assembly programs in the high school auditorium, walking there from the church via Delaware Avenue.

Arrangements are also being made to have school buses load and unload the children daily directly at the church by using Harold Sheffer's driveway.

In addition to regular classroom work, the pupils using the church will be offered all the advantages provided those in the main buildings, including art, music and physical education programs.

Furniture and supplies will be installed in the church prior to the opening of school to facilitate the organization of classes. Authorities have purchased new tables with book compartments along with chairs for the use of the church. This furniture will be transferred to the new elementary building once it is completed.

The plan for using the church is regarded as an emergency measure to relieve severely crowded conditions in the school district. It will be discontinued as soon as the new grade school is ready for occupancy, which is expected to be next February.

Teachers assigned to the classes in the church will be as follows: first grade, Miss Bette Maxwell, Mrs. Dorothy Maclary; third grade, Mrs. Helen Douty, Miss Mary Kepler, Mrs. Marguerite Alves and Miss Irma Jaquette.

Tax Receipts Boost Town's Cash Reserves

The town's cash reserve took a jump in July due mainly to the annual upswing in property tax receipts. The cash balance at the month's end was \$18,382.20, a considerable increase over the \$6,477.28 carried over from June.

Property tax receipts totaled \$18,606, while personal tax receipts came to \$224.30. Other major items of revenue were light receipts of \$10,719.40, power receipts of \$7,641.02, and \$1,886.52 in water rents.

Total income for July was \$46,354.87, less disbursements of \$27,772.67, for the \$18,382.20 balance.

AETNA TO ENTER PARADES Now in the flood tide of parade season, the Aetna Company will enter marching contingents in two nearby firemen parades next week.

On Wednesday, August 10, they will compete for awards at Middletown, and the following Friday will march at Oxford, Pa.

W. Murray, Jr., 9 King's Highway, Second place was won by Thomas Dover, in the Junior Division, while Stephen M. Amos, 1705 Linden Street, Wilmington, took second in the Senior Division. Prizes for these awards are \$100 cash and a silver ring.

Third place in the Senior Division went to Edward LaVere, Woodside, who will receive a bronze ring and \$50 in cash.

The two local winners were selected

Frear Lauds Small Businessmen In Talk

Says They Are One Of Chief Reasons For U. S. Growth

United States Senator J. Allen Frear, Jr., this week praised America's small business man "whose initiative and enterprise," he said, "have been one of the principal means of promoting the magnificent expansion of our country."

In the eighth of a series of weekly radio reports on current congressional matters on Monday night, Senator Frear declared that the competition developed among small business firms assures constantly improved goods and services to the American consumer.

The Delaware senator told small businessmen that the Small Business subcommittee of the Banking and Currency Committee is actively concerned with their problems, and welcomes the opportunity to be of assistance whenever possible.

Mr. Frear again urged the prompt consideration of the little man's R. F. C. Bill (also variously known as the Delaware Plan, the Maybank Program, etc.) which he said would be a great boon to veterans and others interested in starting up a small enterprise.

"I have no hesitancy," he stated, "in expressing the belief that the small business man is the bulwark of our free enterprise system. His accomplishments reflect the typically pioneer spirit that is so characteristically American."

University Names Instructor For Animal Industry Dept.

Robert J. Bacon has been appointed dairy research instructor in the Department of Animal and Poultry Industry of the University of Delaware, announces A. E. Tomhave, head of this department.

A native of Wilmington, Del., Bacon was graduated from Pennsylvania State College in 1948, with a B. S. degree in animal husbandry. He received his M. S. degree in animal industry at the University of Delaware this past June. While working for his advanced degree, he also assisted in teaching freshmen courses in livestock production.

Bacon will now combine duties in research and teaching of livestock and dairy courses. His research will be in the field of dairy production, as a project he plans to analyze breeding records obtained from artificial breeding of cattle in Delaware. He will also help with two projects already underway. A study of consumption of pasture grain by dairy cattle and factors influencing hay consumption by dairy cattle.

Bacon will also assist in teaching dairy and livestock courses to be given during an agricultural short course at the university next winter.

Field Day Program Outlined At Substation

Tuesday, August 9, is the date set for the fifth annual field day of the Delaware Agricultural Substation on the Georgetown-Laurel highway. Beginning at 1:30 p. m., research in progress will be explained by members of the horticulture, agronomy, plant pathology and entomology departments of the Delaware Agricultural Experiment Station.

In the horticultural field, results will be reported on chemical weed control in asparagus, lima beans, and cantaloupes; variety tests of cantaloupes, watermelons, cucumbers, snapbeans, and tomatoes; fertilizer experiments with asparagus, tomatoes and strawberries; applying fertilizer to tomatoes and watermelons by foliage sprays; apple and peach soil management experiments; and variety tests of apples, peaches, blueberries and grapes.

Agronomy research results to be outlined include sidedressing corn with nitrogen; effects of green manure crops; soybean fertilization; time of planting soybeans; weed control in corn with 2,4-D; variety trials with wheat, oats and barley; and time of planting trials with oats and barley.

Studies on sprays, dusts and time of application for the control of downy mildew disease on cantaloupes will be discussed by members of the plant pathology department. In the entomology field, research is being conducted on control of tomato pests by the use of DDT and methoxychlor sprays.

A total of 21 research projects are currently being carried on at the Substation. All Delaware farmers and others interested in agricultural research are invited to visit the experimental plots and hear the discussions of various projects.

Enlistments Open For Marine Corps

It has been announced by MSgt. Daniel P. Lewis, NCO in Charge of the Marine Corps Recruiting Office in Wilmington, that the Marine Corps is once again accepting young men for enlistment with no waiting period required. All applicants who applied for the Marine Corps prior to July have now been enlisted and there are openings for new applicants.

Men 18 years of age may enlist for one year, and others between the ages of 17 and 29 have a choice of 3 or 4 years.

Applications are still being accepted for woman marines from young ladies between the ages of 20 and 30.

This is the first time since March that the Marine Corps has opened their ranks to all phases of enlistments.

Hot Weather Hints

Everyone is unhappy about the weather, except, perhaps, the persons who operate our seashore resorts. Many of us would like to move further north, especially for the summer months, but for various and sundry reasons, this cannot be done.

Why not make the best of the weather here? We have excessive heat to be sure, and the humidity is something we don't care to discuss, but other sections of the country have their trying seasons, too.

So far as health is concerned there is a question of which type of air is most beneficial. It is the general opinion at present that warm, dry air is less pleasant than an air containing a moderate amount of moisture, since it dries the lining of the nose and throat and increases susceptibility to colds and hay fever. The satisfactory range of relative humidity is considered to be between 30 and 70 percent.

On occasion, Delaware humidity far exceeds the desired range and personal discomfort is increased due to the inability of the body to throw off moisture in the form of perspiration. While excessive perspiring lowers the salt content of the body, a small amount should be encouraged. This may be accomplished by wearing such clothing as will absorb perspiration not readily absorbed by the moist air.

According to Dr. Floyd I. Hudson, executive secretary of the State Board of Health, the amount of heat in the body may be reduced to some extent by eating only light, easily digested food in moderate amounts. Fats should be avoided and lesser amounts of meat and eggs than usual should be consumed.

Contrary to general belief, plunging the body into cold water is not the way to get comfortable on a warm day. Slightly warm water is much more refreshing and does not subject the body to excessive change of temperature. No harm results when very cold water is applied to the wrists, but immersing the head or neck in cold water should be avoided.

Hot weather demands a cool head and the necessity for keeping calm. Avoid excessive physical exercise as a means of forgetting the heat, but keep busy at light tasks which are not likely to cause fatigue.

Strengthen Farm Buildings, Advise Agricultural Engineers

Since the majority of Delaware's farm buildings are of frame construction, some recent research results obtained by U. S. Department of Agricultural Engineers should be pertinent, according to William Calvert, extension agricultural engineer at the University of Delaware. Calvert recently attended the annual meeting of the American Society of Agricultural Engineers at East Lansing, Mich., where these facts were brought out.

It was found, says Calvert, that the joints in a frame building are often the weakest point, and thus failure is most likely to occur at these places. The engineers have concluded that a sturdier house, garage or farm building will result if the wall framing is toenailed instead of endnailed. The slant of the nail in toenailing is important, and for the best job, the tests showed that the nail should be driven at a 30-degree angle with the upright framing member and started a distance of about one-third the length of the nail from the end of the board. Toenailing takes more nails, but smaller ones than in endnailing where the nail is driven straight through the sill into the end of the upright.

The engineers recommend ten-penny nails instead of the eight-penny size usually used in toenailing because the ten-pennies give a much stronger joint. Describing test of various joints, the researchers rate joints made with metal straps as being stronger than either method of nailing. Straps take longer to nail and are more expensive, however. Their use on alternate joints or even third joint will add considerably to the strength of the building, and this method will help reduce the extra cost.

The Department tests are a phase of current agricultural engineer investigations aimed at producing reliable information about light construction. The research engineers are confident that with better design, improved materials and more reliable basic information, frame buildings can be made better and cheaper.

Rough Riders Decide Not To Disband

Teddy Roosevelt's famed Rough Riders, after two days of reminiscing about the battle of San Juan Hill, had a change of heart.

The 23 survivors of Roosevelt's hard-riding band present at the 50th annual reunion in Las Vegas were almost ready to disband.

They had agreed that the Las Vegas conclave was to be the last of their fold. But reliving Teddy Roosevelt's historic charge up San Juan Hill and other battles caused them to revise their plans.

They voted to meet again next year, July 24 and 25 at Tulsa, Okla. Among messages read at the session was one from Cuba: "Comrades of our Apostol Martí salute Colonel Roosevelt's Rough Riders."

The message was signed: Cuban Emigrates War Independence, Doctor J. Garcia Baylles, president.

WEEK'S NEWS

UNANIMOUS—After Stephen T. Early appeared before a Senate armed services committee, the group unanimously recommended confirmation of his appointment as Undersecretary of National Defense.

TALENT PLUS—Frances Keegan, screen, radio and television star, credits Nestle Colorine for her beautiful hair. Says Frances, "And now that Colorine has a new ingredient, 'Lurium,' it gives my hair more color-glamour than ever."

LARGEST AND FASTEST—The Stratocruiser Flying Cloud, the world's largest and fastest commercial airliner, passes the Empire State Building in New York City during a test flight.

"PHOTO QUEEN"—Curvaceous Marion James has been chosen "Photography Queen of 1949" at the Popular Photography Exposition in the N. Y. Museum of Science and Industry.

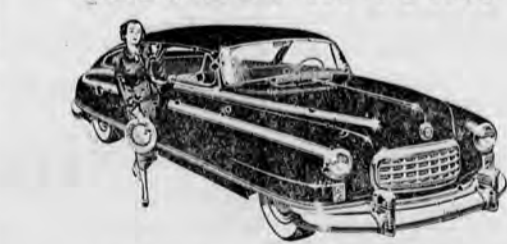

AWARD WINNER—Ben Park (L), director of the "It's Your Life" health documentary radio series sponsored by Johnson and Johnson, and heard Sundays over Chicago's Station WMAQ, receives the City College of New York plaque award "For the Creation of the Best Radio Program of 1948." Making the presentation is John Gray Peatman, Dean of the College of Liberal Arts and Sciences, C.C.N.Y.

MAURICE BRAUNSTEIN
113 E. 7th St., Wilmington, Del., Ph. 4-8694

ON U. OF D. FACULTY TO RETIRE SOON

Two senior members of the University of Delaware's School of Education, Dr. Alice Van De Voort and Mrs. Rena Allen, will retire on August 18. President William S. Carlson announced today a combined retirement of nearly a half-century on the faculty, they have helped hundreds of Delaware school children.

Mrs. Allen, an associate professor, has been at Newark since 1924. A member of the Delaware State Teachers Association, the Progressive Education Association, the Childhood Education Association, the National Association of University Professors, Delta Gamma, honorary Phi Kappa Phi, she served as a member of the Delaware Safety Council and has written on safety education in several of her papers. During several of her years at the university, she also filled the position of dean of women.

Dr. Van De Voort, who was promoted to the rank of professor in 1947, is an Alabamian who has been on the Delaware faculty since 1924. She holds the degree of Bachelor of Science and Master of Science from the University of Alabama, and of Master of Arts and Doctor of Philosophy from Teachers College, Columbia University. Before coming to Newark she was an instructor in science and education at Bessemer City (Ala.) High School and at the department of science at the University of Alabama.

Dr. Van De Voort is a member of Phi Kappa Phi and Delta Kappa Epsilon scholastic fraternities; the Phi Kappa Phi Association of University Professors; the American Association of University Professors; the Delaware State Education Association; the National Education Association; and the National Society of Education.

Dr. Van De Voort is expected to visit a brother in Philadelphia and then probably take up her residence in that state.

Dr. Van De Voort is a member of Phi Kappa Phi and Delta Kappa Epsilon scholastic fraternities; the Phi Kappa Phi Association of University Professors; the American Association of University Professors; the Delaware State Education Association; the National Education Association; and the National Society of Education.

OF D. NAMES INSTRUCTORS

Appointed to Faculty

The new instructors and assistant instructors will join the staffs of seven departments in the University of Delaware School of Arts and Science this week. Francis H. Squire, dean of the school, announced the appointments. Most of the appointments are of instructors who have resigned to pursue advanced study in their respective fields.

Among the appointees is one former member returning after a leave of absence. Russell Renne, Jr., will continue as instructor in mathematics, but he held in 1946-48 before he came to continue graduate study at the University of Pennsylvania. Holder of a Ph.D. from the University of Virginia, he expects to receive his doctorate of Philosophy degree from the University of Pennsylvania in February.

Other appointees are:

- Department of Biological Sciences: Noel R. Ronkin, assistant professor.
- Department of English: Robert A. John, F. Lynen, and Dr. Lawrence G. Stacey, instructors.
- Department of History: Dr. John E. Long, instructor.
- Department of Modern Languages: Albert B. Halley, instructor, and Dr. Elbert D. Turner, Jr., assistant professor.
- Department of Psychology: Martin A. Hirschfeld, instructor.
- Department of Psychology: Theodor Landman, instructor, and Dr. L. Smith, assistant professor.

Nearly Gets Away With Fishermen

A fishing party of seven from Arden, N. Y., reported they were towed at night by a "monster tuna" in the bay recently.

The search for them was called off when their 35-foot cabin cruiser was seen by a fisherman.

Brodie told a thrilling story of the fish. With him aboard the boat were his father, his sister and her husband, Mr. and Mrs. Carl Conkline, their sons, Billy, 6, and Carl, 7, and Hager.

Date Set For Farm Coop Meeting Here

Farmer-members of Southern States Cooperative in the Newark area will hold their local annual membership meeting August 18.

This date was set at a recent planning conference of the Board of Directors and Farm Home Advisory Committee of S. S. Newark Service and Locker Plant locally owned cooperative affiliated with Southern States.

The annual meeting will take place in the Newark Century Club at 8 p. m. (EDT), according to Arthur Harvey, president of the local Board of Directors. Mr. Harvey, who presided at the planning conference, said the annual session will include: A Farm-Grown Hat contest, election of new members to the Board and Farm Home Committee, and reports on Southern States and local operations.

New Sea Food Market Opens Here

Newark's first retail establishment devoted exclusively to the sale of fresh sea food for home consumption opened here yesterday under the proprietorship of J. G. Foster, formerly of Millford, Del.

The market, located on New London Avenue adjacent to Richards Market, will specialize in all types of fresh fish, oysters in season, crabs, etc.

The market will be known as the "Sea Food Center."

Maj. Barker Gets Japan Assignment

Major Leonard C. Barker, Newark, was recently assigned to the 76th Anti-aircraft Artillery Automatic Weapons Battalion as the executive officer of that Battalion with the Eighth Army in Yokohama, Japan.

Major Barker recently served at Ft. McKinley, P. I. He arrived at Yokohama, Japan, in June, 1949, and was assigned to the 76th Battalion.

During May, 1949, Major Barker and family, (Mrs. Elizabeth T. Barker, wife, Gail T. Barker, daughter, L. C. Barker, son), vacationed at Equio and Pagsanjan Falls in the Philippines. In early June after sailing from Manila via Okinawa, the Barkers continued their vacation in the Unzen Mountains at Kyushu, Japan.

While serving in the Philippines, Major Barker handled all the construction work for the Philippine Command.

Buck Is Now Trustee Of Lincoln University

C. Douglass Buck, former U. S. Senator and ex-Governor of Delaware, has become a member of the Board of Trustees of Lincoln University, Pa., it was announced recently by Dr. Horace Mann Bond, president of Lincoln.

In joining the board, Mr. Buck expressed the belief that "My best contribution to Negro higher education can be made through association with Lincoln because of an outstanding record throughout the 95 year history of the institution."

Mr. Buck, whose home is in Wilmington, was Chief Engineer of the Delaware State Highway Department before his election as Governor. He is President of the Equitable Trust Company of Wilmington and a member of the Wilmington Country Club. He is the only Delaware Governor to serve two successive terms, the maximum in that state. He served as Senator from 1943-49.

New Drug Increases Lung Capacity Fifty Percent; Prevents Asthma

A new drug, Orthoxine Hydrochloride, has been produced which acts as a preventive for asthma. The drug has been clinically tested on more than 1,000 patients. Hospital tests showed it can increase vital lung capacity by more than fifty percent when taken after the onset of an asthmatic seizure. If taken at the beginning of an attack, the drug will prevent asthmatic constriction in eighty percent or more cases.

Initial Jobless Benefit Claims Show Increase

Total claims for unemployment insurance declined slightly early this month but there was an increase of 18,796 in so-called initial claims, indicating new unemployment. The report was from Robert Goodwin, director of the Bureau of Employment Service, Washington, D. C.

Goodwin listed vacation shutdowns and layoffs as two of the factors contributing to the increase in initial claims.

He said job placements in May totaled 1,147,738, or 14 per cent greater than in May, 1948.

"Extinct" Species Has Numerous Survivors

After looking for one for more than 100 years, scientists finally have found a Haitian hutia.

It turned out, the Smithsonian Institution said recently, that the Haitian hutia—which is a ratlike relative of the guinea pig—isn't really extinct at all. The natives of Haiti's southwestern

peninsula look for hutias every day—with dogs.

But until someone sent the Smithsonian a sample recently, no living specimen of the little animal had been reported to scientists since 1830.

At one time, the institution said, Haitian hutias were pretty common. Their cousins (non-Haitian hutias) still are found on other West Indies islands.

The State Board of Health will receive bids for printing five hundred (500) copies of the Annual Report, of which one hundred (100) are to be linen bound. All bids must be received by August 5.

Information on specifications may be obtained from the Division of Public Health Information, State Board of Health.

NOTICE TO OWNERS OF VACANT LOTS

The question of weeds on vacant lots was quite forcibly brought to the attention of the Council at its August 1st meeting.

The Town Ordinance provides for a penalty of \$10.00 for any owner, agent or tenant who refuses or neglects to remove any weeds or rubbish within ten (10) days after receiving written notice, and for an additional penalty of One Dollar (\$1.00) for each day the nuisance is permitted to remain after the expiration of the notice.

Survey is to be made of vacant lots and provisions of the Ordinance are to be enforced.

The town does not have the personnel or the equipment to carry on this work, therefore, owners, agents or tenants are requested to make their own provisions for having the work done.

Dr. Blake Funeral

A beloved doctor left Newark forever last Friday. Hundreds of townspeople stood silent as the funeral cortege of Dr. Charles H. Blake passed along Main Street towards St. John's R. C. Church, where the services were held. They seemed still stunned from the news of his death four days previous. During the morning every store and business house closed its doors. Business stood still, even traffic lessened. This followed no order, no request. It was a voluntary mark of respect to one of the town's really great men.

Dr. Rhodes Heads Health Board

Town Council and the Red Men's Band held an endurance contest last Monday night in the Town Hall. The Council was downstairs and the band upstairs. The latter got mixed up on its rehearsal dates and rather than cause them to lose a night's practice, they were permitted to tout away.

Over the din, the Council managed to make itself heard long enough to appoint Dr. George W. Rhodes to succeed the late Dr. Charles H. Blake on the Newark Board of Health.

Youngster Injured

While running out into the street from her home to get a piece of ice from one of Renshaw's trucks Monday at noon, little Naudain Slack, 3-year-old daughter of Mr. and Mrs. Samuel Slack of Prospect Avenue, was struck and knocked down by a car driven by Robert Tweed. Mr. Tweed immediately stood and assisted the youngster to her home nearby. The injuries, while painful, were not serious.

Personals

Charles A. Bryan, Depot Road grocer, who has been quite ill, is rapidly recovering and late last week was able to attend to business. Mr. Bryan suffered a severe attack about this time last year.

Messrs. Warren A. Singles and Irving Crow motored to Red Point Beach on Sunday last.

Miss Elizabeth Lindell is visiting her aunt, Mrs. George McCafferty, of Philadelphia for two weeks.

From Issue of July 30

A new street, running north from East Main to the base of the B. and O. Railroad embankment, and connecting with Kershaw Street, is the latest civic development in Newark.

Mill Picnic

Charles C. Hubert, in charge of transportation arrangements for the fourth annual picnic and out of the Continental Fibre Company stated, yesterday that 500 will make the trip to Riverview Beach, N. J., where the affair will be held. A chartered steamer will carry the group from Wilmington.

Stricken With Typhoid

William Marrs, Jr. foreman at the National Vulcanized Fibre plant here, is suffering from a light attack of typhoid fever at his home on Chapel Street. He was taken to the Elkton Hospital.

Dr. Blake Found Dead

Dr. Charles H. Blake, one of New Castle County's leading physicians and a practitioner in Newark for the past

19 years, was suddenly stricken with apoplexy yesterday morning and died a few minutes later without regaining consciousness. He had retired the night before in what seemed perfect health. His death was a topic of conversation wherever people gathered yesterday. He is remembered most for his loyalty to his patients and his cheerful, kindly disposition. He was at the service of his community day and night. No case was too trivial for him, none too exhausting. He treated all his patients alike, rich or poor, and in many cases lent some money to buy medicine. His place will be hard to fill in the hearts of Newark people.

Samuel Little, William E. Renshaw and Clyde Robinson, all local poultry fanciers, left this morning for Harrington where they will witness the poultry judging at the Kent-Sussex Fair. All have birds entered.

CERTIFICATE OF REDUCTION OF CAPITAL OF CHICAGO PUMP COMPANY

CHICAGO PUMP COMPANY, a corporation organized and existing under the General Corporation Law of the State of Delaware, DOES HEREBY CERTIFY as follows:

(1) That at a meeting of its board of directors duly held and convened, a resolution was adopted setting forth a proposed reduction of the capital of said corporation in the manner and to the extent hereinafter set forth and calling a meeting of the stockholders having voting powers for the consideration thereof.

(2) That thereafter at a special meeting of the stockholders of the above named corporation duly called and held for the purpose of voting upon the question of reducing its capital, a resolution was duly adopted by the holders of record of a majority of the outstanding shares of stock of the corporation, having voting powers, to reduce the capital of the corporation by the amount of \$678,190.00 by the purchase for retirement of 45,000 shares of 3% preferred stock of the par value of \$15.00 each and 1926 shares of common stock of the par value of \$1.00 per share at not exceeding such prices fixed or approved by the stockholders. The resolution so adopted provided that an amount not exceeding that part of the capital of the corporation represented by the shares so retired may be charged against the capital of the corporation in respect of such shares.

(3) That the Certificate of Incorporation prohibits the reissue of the 3% preferred stock so retired and that such shares constitute all the outstanding shares of 3% preferred stock and, pursuant to the provisions of Section 28 of the General Corporation Law of the State of Delaware, upon the filing and recording of this certificate and the amendment under the provisions of said law, the certificate of incorporation of said corporation shall be amended so as to effect a reduction in the authorized capital stock of the corporation by the elimination of the amount of all reference to said 3% preferred stock, comprising 45,000 shares of the par value of \$15.00 each.

(4) That the assets of the corporation remaining after such reduction are sufficient to pay any debts, the payment of which has not been otherwise provided for.

IN WITNESS WHEREOF, said CHICAGO PUMP COMPANY has caused its corporate seal to be affixed and this certificate to be signed by George D. Bers, its President, and Joseph Klein, its Secretary, this 20th day of July, A. D. 1949.

Without A Chargeable Accident!

Meet our Calvin Wroten

Ten years without a chargeable accident is a fine record on any job. When it means 190,000 miles of safe driving, it's remarkable.

Likeable Calvin Wroten was employed by the Delaware Coach Company in 1937. His favorite line is the Newark-Marshallton, the route he now works. Everyone who uses this line knows Calvin, and he's made a host of friends through his work among both passengers and fellow-workers.

A resident of Marshallton, Mr. Wroten is married and has two children. He's an ardent baseball fan, and likes to spend his summer vacation at the seashore.

Your introduction to Calvin Wroten is one of a series planned to acquaint you riders with the men who have driven you safely for years. Day in and out, they give fine, dependable service to us — safe, care-free commuting to you!

CERTIFICATE OF REDUCTION OF CAPITAL OF BATTLES & COMPANY, INC.

THIS IS TO CERTIFY: That the holders of record of the total number of shares of BATTLES & COMPANY, INC., having voting power now outstanding have consented in writing to the reduction of the capital of said corporation, such reduction to be effected by reducing the amount of capital represented by the 95 shares of its Class A Stock without par value now issued and outstanding from \$50 per share (or \$4,750 in all) to \$0.10 per share (or \$9.50 in all), and by reducing the amount of capital represented by the 78 shares of its Second Preferred Stock without par value now issued and outstanding from \$100 per share (or \$7,800 in all) to \$20 per share (or \$1,560 in all). The amount by which the capital of the corporation shall be so reduced, to wit, \$10,980.50, is to be transferred to surplus upon the books of the corporation.

That the assets of this corporation remaining after such reduction are sufficient to pay any debts, the payment of which shall not have been otherwise provided for.

IN WITNESS WHEREOF the said corporation has caused this certificate to be made and executed under its corporate seal this 6th day of July, 1949.

Backyard Vacations Just As Satisfying As Expensive Trips

Vacationing Is State Of Mind Not Matter Of Mileage, Health Unit Says

The State Board of Health says that a machine can be just as health-giving as your own backyard as in some distant resort and that just because one does not have money for a trip is no reason why folks cannot have a healthful vacation.

Vacation can be an attitude of mind and if one will cultivate the holiday spirit, relaxation and the building up of good nerves can often be done very well in the comforts of home. Everyone should be able to work much harder and feel more fit if they have a week or more of comparative leisure with escape from routine.

Especially is this true of the mothers of small children. But when mothers are disappointed that they cannot have a change of scene for their vacation they should remember that homes are usually better equipped for the needs of children than are strange places.

The Board suggests that mothers who need a vacation (and what mother doesn't?) can plan to let all house work and the bare essentials go and stay out-of-doors as much as possible with the children sunbathing, relaxing in the shade reading. The suggestion is to put aside many of the usual duties for a period of rest. (Those extra jobs would be left undone if one were at the shore or visiting).

Plan to serve the simplest meals possible—lots of fresh fruits, vegetables and milk—little cooking. Use paper plates and picnic in the back yard some times for a change.

Dress in simple, cool clothes. Take a nap in the afternoon when the children do.

Life can be simpler—for a while—if you really decide that one must have a vacation. Pay some one to come in and stay with the children (or perhaps working out an exchange system with some other tied-down mother) or pooling the youngsters under one mother's care, might allow the other mother to dress up and go out for a meal, a movie, or a visit with friends and then. Seeing other people is a vacation treat for mothers usually denied in with little folk.)

Even more of a home vacation can be worked out by adults who do not have to consider the needs of little folk. A vacation with sleep, hobbies, leisure, as well as fresh air and sunshine, can be accomplished at home by many at a minimum of cost and with great benefit to health says the State Board of Health.

Report Rapid Strides In Artificial Insemination

Artificial insemination of dairy cattle is recognized as one of the greatest production-improvement aids ever developed for owners of both small and large herds. It is now operating in every State. Nearly two and one-half million cows are enrolled in artificial-breeding programs this year, the U. S. Department of Agriculture announced.

Delaware is listed by the Bureau of Dairy as having a statewide organization with three operating units at the beginning of this year. There are 833 dairy herds with 6,738 cows enrolled for service in the State Cooperative. The number of cows bred during 1948 was 470 cows. There are 4 Holstein Sires, 10 Jersey Sires and 3 Jersey Sires in the Bull Stud of the State Cooperative available for service to any dairyman in the state.

The report issued by the Bureau of Dairy Industry shows that almost 2,000 bulls are now giving service to 216,177 herds in 1,263 artificial-breeding associations throughout the nation. The rapid growth of the program is shown by the increase over 1948 of 91,684, or 41.5 per cent, in number of herds, and 68,132, or 38.4 per cent, in number of cows.

Artificial insemination is the answer to the problem of spreading my mechanical means, the usefulness of outstanding bulls to large numbers of cows. For instance, natural service may produce 25 to 50 calves a year from one bull. By artificial means it has been possible to inseminate more than 20,000 cows in a year to a single bull. The supply of good proved sires necessary to a general improvement program is too small to allow any great number of dairymen to get the service of such bulls by natural matings.

Now Comes Law Against Reckless Rain-Making

Comes now a bill to have the government pay damages caused by rain-makers who bring down showers where they are not intended to fall.

The proposition was put before a Senate Judiciary sub-committee by the Navy, which has ordered some rain-making experiments from the General Electric Company.

The bill would have the government reimburse the company for any damage claims it has to pay while doing experimental work for the Navy. It is called the "cloud modification" bill, and Capt. Chester C. Ward of the Navy legal department, said G-E is the only firm involved "because it has the services of a unique scientific foundation and rain-making."

Presbyterians Show Rise In Membership

General Assembly Releases Figures Of Church In U. S.

Membership figures in the Presbyterian Church in the U. S. A. showed a net gain of 55,877 for the period Jan. 1 to Dec. 31, 1948, according to statistics just released from the Office of the General Assembly of the church in the Witherspoon Building, Philadelphia. The number of new communicants added to the church rolls in the year 1948 was 117,476, bringing the total membership up to 2,330,136, largest in the history of organized Presbyterianism in America.

Membership statistics in the Presbyterian Church in the U. S. A. are based strictly on the number of communicants in full standing.

The Sunday church school enrollment statistics showed a rise from 1,325,088 in 1947, to 1,351,138, in 1948. There were 71,805 infant baptisms in Presbyterian churches in 1948. Officers in local churches included 58,992 elders and 32,864 deacons.

There was a conspicuous rise in the number of young men under the care of the church as candidates for the ministry. From 1,446 in 1947, the number of candidates rose to 1,928 in 1948.

From reports received this year from 31 colleges on the number of church vocations candidates in the junior and senior classes, it is estimated by church officials that the seminaries of the church will have the largest student bodies in their history in 1950. Close to 300 students were enrolled in the church's seminaries at the close of 1948.

The church reaches college students through its Westminster Foundations which represent the Presbyterian Church in the U. S. A. in the non-church-related colleges and universities of America. Early in 1949 there were 103 Westminster Foundation centers on the campuses, many of them carried on cooperatively with churches of other denominations.

Nationally, the Presbyterian Church is organized into 40 synods and 267 presbyteries. There are 8,532 local churches and 9,480 ministers. Eighty of the ministers are serving as chaplains in the armed forces.

Hobby Books Listed In Post Office Lobbies

The following Government publications may be secured from the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

Modern inventions bring modern problems—but all are quickly solved through the ingenuity of the nation's progressive engineers. The television alcove above provides the necessary soundproof retreat from favorite radio programs preferred by members of the family who won't desert airplane stars for the new home entertainment. Modernfold doors combine beauty and utility—folding like an accordion—yet meeting all building requirements with flame-proof coated fabric. Used both in remodeling and new home construction by leading interior decorators, the new folding doors or walls are available in 28 colors. This variety enables matching or harmonizing with all home furnishings or color schemes.

Newark, Delaware, Thursday, August 4, 1949

Final Rites Held For Mrs. Martha R. Strahorn

Funeral services for Miss Martha R. Strahorn, 79, were held Friday at the Jones Funeral Home, with the Rev. Dr. Willard G. Purdy, of First and Central Presbyterian Church, Wilmington, officiating. Interment was in Sharp's Cemetery, near Fair Hill, Md.

Miss Strahorn, former Wilmington and Newark school teacher, died Tuesday, July 26, at the Governor Bacon Health Center after an illness of six weeks. Born in Cecil County, Md., she was a daughter of the late Albert and Gertrude Kennedy Strahorn. She retired about 18 years ago, after more than 30 years of teaching at the public school in Newark and School No. 9, Wilmington. She was a member of First and Central Church.

Surviving Miss Strahorn are the following sisters and brothers: Cassandra K. Strahorn, of Philadelphia; Orlando K., of Newark; John S., of Annapolis, Md.; George, of Willard, N. C.; and Charles W., of Arlington, Va.

Ella M. Goldsborough Interred On Sunday

Mrs. Ella M. Goldsborough, 78, widow of Dennis A. Goldsborough, of Penns Grove, died Thursday, July 28, at the home of a daughter, Mrs. C. Emerson Johnson at Newark. Her husband died three years ago. Other survivors are a daughter, Mrs. Edward F. Wright of Clayton; a son, Dennis A. Goldsborough, Jr., Wilmington; six grandchildren, and five great grandchildren. Private funeral services were held Sunday from the Jones Funeral Home at Newark. Interment was in Odd Fellows Cemetery at Smyrna.

Prof. Hanson Is Now Aide On Pan American Geography Unit

Earl Parker Hanson, professor of geography at the University of Delaware, has been appointed to an advisory committee for the United States member of the Commission on Geography of the Pan American Institute of Geography and History. Professor Hanson will represent the University of Delaware on the advisory committee, which is to recommend programs and policies.

Jr. Miss Newark

(Continued from Page 1)

Newark merchants as follows: silver cup, David Jewelers; compact, Newark Pharmacy; electric clock, Jackson's Hardware Store; Henry Rosenfeld powder and Eau de Cologne, Newark Department Store; Max Factor cosmetics, Rhodes Drug Store; Elizabeth Arden Blue Grass Set, Neighbors Pharmacy; jewelry and bathing suit for the winner, Peggy Cronin Fashions.

Photographs of the entrants were taken free of charge by Poffenberger Studios. The prizes were collected by members of the Thomas Cooper Auxiliary, VFW.

Arrangement and direction of the Newark phase of the contest were handled by Mrs. Jane P. Sinclair, representing Peggy Cronin; Ivan Parsons, representing the J. A. O'Daniel Post; and A. S. Maclary, the Veterans of Foreign Wars.

Fluorine Plan

(Continued from Page 1)

before it and outline the county's procedure. Council is considering adopting the county's figures for its own assessment. The present town assessment is regarded as outmoded and, in many cases, inequitable, and it is felt a new survey will be necessary before taxes can be raised.

The first and second reading of an amendment to the new zoning ordinance was also completed. The latest change sets the procedure for issuing building permits under the ordinance and calls for notifying adjacent property owners in cases where a building permit is about to be granted. Five on either side of the property in question will be notified, getting 10 days to register an objection and request an appeal. The amendment will get its final reading at the September session.

Council also took steps to clear up confusion over the various rates charged made for light and power here. Town Solicitor John P. Sinclair was instructed to confer with the light committee and draw up an outline, defining who is eligible for the residential, commercial and manufacturing rates and establishing these rates.

Veterans Forum

Q—I am a World War II veteran and have named a beneficiary and contingent beneficiary on my NSLI policy. Are both the beneficiary and contingent beneficiary included in the term "beneficiary" as used in the policy?

A—Yes, they are.
Q—As administrator of a deceased World War II veteran's estate, may I file a claim for waiver of his NSLI premiums on the grounds that he was totally disabled for more than six months before his death?

A—Yes.
Q—My brother, a World War II veteran, has been totally disabled. If VA has adequate proof of total disability, will he have to file additional proof or are the requirements met by the filing of a claim for waiver of NSLI premiums?

A—If Veterans Administration has adequate proof of total disability in its possession, the requirements are met by the timely filing of a claim for waiver of NSLI premiums.

Q—My father, a World War II veteran, names me as an heir in his will. May I file a claim for waiver of his NSLI premiums because of his total disability?

A—Such a claim may be filed by the next of kin, or any person interested as an heir in the estate.
Q—I was honorably discharged from the Women's Army Corps and am assured I meet eligibility requirements for Federal benefits. In case of emergency, will the Government assume my hospital expense in a private hospital without prior VA authorization?

A—The Government will pay for such emergency treatment in a private hospital for service-connected ailment, or for a non-service-connected disorder, or for treatment to prevent the interruption of vocational training under Public Law 16, provided Government facilities were not feasibly available and delay would be hazardous.

Q—I am a World War II veteran and suffer from a non-service-connected disability. Am I entitled to an examination for my disability?

A—No. Such service is not authorized unless required by VA in connection with the adjudication of a claim for compensation or pension.

SCARBOROUGH-JACKSON WEDDING SOLEMNIZED

The wedding of Miss Miriam E. Scarborough, daughter of Mrs. J. Lee Scarborough, of Elkton, and Mr. M. Jackson, son of Mr. Scarborough, of Brookland Terrace, took place Saturday afternoon, at 2 o'clock in the Bible Presbyterian Church, which was attractively decorated with palms and mixed flowers.

Mr. H. Lloyd Yarnall, sister of the bride, played the wedding music and "The Beautiful Garden of Prayer." The bride, who was given in marriage by her brother, Mr. J. Gifford Scarborough, wore a gown of crepe with a fingertip veil and carried a white Bible and roses.

Miss Miriam Scarborough, sister of the bride, was matron of honor and wore a gown of yellow and lace.

Other bridesmaids were Miss Miriam Scarborough, niece of the bride, and Margaret Jackson, a niece of the bride. They wore gowns of aqua taffeta and carried old-fashioned bouquets of white roses.

Mr. and Mrs. William A. Gregson, of 69 West Delaware Avenue, are receiving congratulations on the birth of a daughter, born August 1, in the Memorial Hospital. The baby has been named Katharine Ann Gregson. Mrs. Gregson will be remembered as Miss Mary Evelyn Way, of Centreville, Delaware.

BIRTHS

Congratulations are being extended to Mr. and Mrs. John Marvel on the birth of a son, born July 20, in the Memorial Hospital.

Mr. and Mrs. George M. Butler are receiving congratulations on the birth of a son, born July 23, in the Memorial Hospital.

Mr. and Mrs. Arlie Rust are receiving congratulations on the birth of a son, born July 27, in the Memorial Hospital.

Mr. and Mrs. Paul Muppy are receiving congratulations on the birth of a son, born July 31, in the Wilmington General Hospital.

Mr. and Mrs. Robert R. Mitchell, of Newark, R. D. 3, are receiving congratulations on the birth of a son, born July 31, in the Memorial Hospital.

Mr. and Mrs. Jack Weer are receiving congratulations on the birth of a son, born July 31, in the Memorial Hospital. Mrs. Weer will be remembered as Miss Mildred Baylis, daughter of Mr. and Mrs. Clyde Baylis.

MISS CLAIRE HERBENER'S ENGAGEMENT ANNOUNCED

Mr. and Mrs. H. N. Herbener, of Newark, announce the engagement of their daughter, Miss Claire Herbener, to Mr. Anthony J. Rizzo, son of Mrs. Rose Rizzo and the late Mr. Pasquale J. Rizzo, of Wilmington.

Miss Herbener is a graduate of the Newark High School and is employed by the Continental-Diamond Fibre Company.

O. E. S. PICNIC SATURDAY, AUGUST 13

On Saturday, August 13, members and their families of the Newark Chapter, No. 10, Order of the Eastern Star, will hold their picnic at Port Herman.

A covered dish supper will be served at 6 o'clock.

Mr. Charles Long is chairman of the committee and will be assisted by Messrs. J. Correll, E. Carr, and S. Diehl.

NOTICE

Attention of the users of Electricity is called to the Town Ordinance providing for the payment of Billings for Electricity. This provision reads as follows: "A discount of 5% shall be allowed if the bill is paid within fifteen (15) days from its due date and if remaining unpaid after thirty (30) days from its due date, notice shall be given the consumer that if not paid within five (5) days then service will be cut off."

At its meeting August 1st the Council voted to enforce this ordinance without exception, therefore it is asked that the users of electricity will cooperate and thereby avoid the unpleasantness that arises when service is cut off.

COUNCIL OF NEWARK

COLE-BAKER ENGAGEMENT ANNOUNCED

The engagement of Miss Louise S. Cole, daughter of Mr. and Mrs. Walter Cole, Hartley, Delaware, to Mr. Walter H. Baker, of Newark, was announced on Sunday at dinner by Miss Cole's parents at their home in Hartly.

Miss Cole is an employee at the local self-service market of the Atlantic and Pacific Tea Co.

"JIMMIE" EVERETT CELEBRATES BIRTHDAY

"Jimmie" Wayne Everett, Elliott Heights, celebrated his first birthday on Saturday last.

Those who enjoyed the picnic supper at his home included his paternal grandparents, Mr. and Mrs. James H. Everett, of Sunny Acres; his aunt, Miss Evangeline Everett; his great-grandmother, Mrs. Annabelle Wooleyhan; his maternal grandparents, Mr. and Mrs. Herman Wayne Stradley and his mother, Mrs. James Luther Everett. Jimmie's father, United States Coast Guard, was unable to be present for the birthday celebration.

THREE-IN-ONE CLUB TO MEET IN EBENEZER CH.

The August meeting of the Three-In-One Homemakers Club will be held on Thursday afternoon, August 11, in the Ebenezer Methodist Church at Pleasant Hill.

Mrs. L. A. Grettum, of Newark, will be a special guest at this meeting, giving to the group an interesting account of her trip to Mexico.

Members of the Talleyville Homemakers Club and of the Glasgow Homemakers Club have been invited to join this meeting.

The annual picnic was held on July 14, at the home of Mrs. John Lynch, Polly Drummonds Hill.

WILLING WORKERS SOCIETY TO MEET TUESDAY, AUG. 9

The August meeting of the Willing Workers Society of the Head of Christiana Church will be held on Tuesday evening, August 9, in the Sunday School room of the church with the Raleigh family as hosts of the evening.

Devotionals will be conducted by Mr. Roger Watkins and the business meeting will be in charge of the president.

The program of the evening will be arranged by Mr. Elwood Zebly and Mrs. John W. Milburn.

Co-hostesses will be Mrs. Elma Fox, Miss Lillie Scott, Miss Doris Pierson and Mrs. Willard Raleigh.

CLUB GROUP GUESTS OF BARCZEWSKIS AUGUST 9

The members of the Glasgow Home Demonstration Club and their families will hold their annual picnic at the home of Mr. and Mrs. Steven Barczewski on Tuesday evening, August 9, at 6:30 o'clock.

A covered dish supper will be served on the lawn.

Mrs. J. A. Correll is chairman of recreation.

This club group has accepted an invitation from the Three-In-One Club to be their guests on August 11.

LADIES' BIBLE CLASS REGULAR STUDY HOUR

"How men who have had a real experience with the forgiveness of the love of God find themselves compelled to sing praises of thanksgiving to Him" is the subject for class study this Sunday morning by the members of the Ladies' Bible Class of the Newark Methodist Church.

PERSONALS

Miss Helena Barben, store manager at Gregg Jewelers, returned on Monday after a brief stay in Atlantic City.

Miss Joyce Waldrige, of 136 East Main Street, is visiting with Mr. and Mrs. F. M. Stern, in Norfolk, Va. Joyce is the daughter of Mr. and Mrs. Linwood Waldrige.

Mr. and Mrs. Minor Newlin and daughter, Mary Lou, of Kells Apartments, have returned from a two week's vacation in Miami Beach.

"Tommy" Rose, of St. Petersburg, Florida, is spending two weeks with his grandmother, Mrs. Annabelle Wooleyhan, at "Twin Hills Farm" near Newark, prior to joining his parents and sister, Joan, who will leave shortly for their new home at Long Beach, California. Mr. Ross will renew business relations with his brother Frank, who has been in the contracting business in California for more than a quarter of a century.

Mr. and Mrs. Harold Stanley, Sr., will spend several days this week at Bethany Beach, they will then go on to Chincoteague, Va., for the pony roundup.

Mr. and Mrs. Ogden Mutter have returned from a visit to Kentucky, West Virginia, and South Carolina.

Mr. and Mrs. Louis Windham and Mr. and Mrs. Rex Windham, of Alabama, are guests of Mr. and Mrs. John Hildreth, of West Main Street.

Mr. and Mrs. Samuel Handloff have returned from a vacation spent in Wildwood, N. J.

Miss Meda Pogue, 142 East Main Street, Misses Ruth Bohm, Dorothy Cashman and Helen Trotter, all of Altoona, Penn., have just returned from a trip to the Great Smoky Mountains. They also visited Natural Bridge of Virginia, historical places in Richmond, Va., Ashville and Raleigh, North Carolina. Upon return the three young ladies from Altoona spent several days with Miss Pogue.

Mr. and Mrs. Herbert Mackey, of Cooch's Bridge Road, are vacationing in Canada.

Mr. and Mrs. Clarence Poole, of Academy Apartments, are spending several weeks at their cottage on the Elk River.

Mr. and Mrs. Ralph Vannoy and family, Mary Linda Vannoy and Dickey Dayton; Mr. and Mrs. Ellsworth Carr and daughter, Diane, Mr. and Mrs. Roger Watkins and Miss Mary Johnston returned Sunday from several days spent in Seven Mountains, near Millroy, Pa.

Locally Owned and Operated

HOUSE COMPANY

FILLIN' IN

You'd never suspect that Frank Glenn, portly proprietor of the air-conditioned State Restaurant and the envy of sweltering Newarkians, has a secret sorrow, but he has. He is worried about what has happened to his street number. He thought he had one once, but now he's not so sure.

He first detected its disappearance when he noticed his business colleague next door, George Neighbors of Neighbors Pharmacy, using what he (Mr. Glenn) had always regarded as his own number (72 East Main Street). He mentioned the fact casually to Mr. Neighbors, but the latter insisted the number of his drug store was 72 when he first took it over, and he assumed it still was.

Getting a little worried, Mr. Glenn launched some research in the phone book, and thus laid bare a fantastic situation. Both the Wilmington and local directories, he found, list Mr. Neighbors and himself at exactly the same street number—72 East Main Street.

Now definitely alarmed, Mr. Glenn checked on his westerly neighbor, Mr. Fisher of the newsstand, and found to his relief that Mr. Fisher is listed at 70 East Main Street. The odd numbers being across the street, this meant that Mr. Glenn must be at 72. But Mr. Neighbors looked up his easterly neighbor, Mr. Barrow, of the barber shop, and found him listed at 74 East Main Street, which pointed indubitably to the fact that Mr. Neighbors' number must also be 72.

The two were now at loggersheads, both convinced that a number had been skipped, and the only thing that prevented a crisis was a generous gesture on the part of Mr. Glenn. He decided, in view of the fact that Mr. Neighbors already had drug labels, letterheads and other advertising matter printed with the 72 address, to relinquish all claims to the number.

For a time, things went smoothly. Mr. Glenn laughed off his loss, pretended it was nothing, even referred to himself with excusable pride as The Man Without A Street Number. But, gradually, it began to prey on him. He felt like a semi-vagrant. After all, wasn't he a taxpayer and an essential cog in the community's business life? Shouldn't he have a number the same as anyone else? Not the same number, naturally, but a number.

In an effort to ease his plight, the Post sounded out authorities at the Town Council offices this week. They checked the record, and the result threw the issue back into a deadlock. According to the town's official list, Mr. Glenn is at 72 East Main Street, and Mr. Neighbors is all wet. In fact, he's at 74 East Main Street. Furthermore, Mr. Barrow is at 76-78 East Main Street.

Whether or not this revelation will bring any cheer to Mr. Glenn, we cannot say. It still leaves him without a street number, and, if he wants one, he will have to snatch his own back from Mr. Neighbors.

The question is, though, is it worth it? This, Mr. Glenn must decide for himself. The next time you see him sitting at his favorite table in the west window of his establishment, you'll know there's a good reason for that brooding look of his. Shall he force the issue with Mr. Neighbors or go through life without a street number?

Behind the irresistible rallying cry, "You Can Keep Cool!" Mrs. Margaret Cronin, the dauntless proprietress of Peggy Cronin Fashions, last week launched a feverish anti-heat campaign, which was notable chiefly as the only local instance of open and outright defiance to the recent heat wave. The rest of us weaklings took it lying down (if we were smart).

Mrs. Cronin, who is known primarily to herself and possibly a few scattered readers of her ads as "P. C.", opened her crusade by placing a huge placard in her window, listing seven or eight ways to stay cool. It was dashed off in her own cursive handwriting, decipherable only by "P. C." fans, and was obviously the result of one of those overpowering inspirations in the white-heat of which Mrs. Cronin appears to pen most of the unmistakably quaint signs and posters that litter her unmistakably quaint establishment.

Mrs. Cronin never allows her lyrical outbursts to obscure her business sense, however, and this placard was no exception. Each suggestion for keeping cool hinged on the importance of wearing some article of "P. C." apparel, two of the more fascinating being "Nylon Nothings" and "Strip-Tease-Wardrobe-In-One."

The only drawback to the campaign that we could see was the danger one ran of suffering sunstroke by taking time to read this lengthy and smudgy placard. We crept up on it once in the cool of the evening, but it was a waste of time because we can't understand Mrs. Cronin's handwriting anyway.

We have no first-hand statistics, but we did hear that two "P. C." fans suffered frost bite when they followed one of Mrs. Cronin's suggestions—immersion in a bathtub full of ice cubes. Their husbands, we understand, had to undergo treatment for severe cases of parched throats induced by a sudden cutting off of their highball supply.

Mrs. Cronin herself, we are glad to report, came through the heat wave with scarcely a dampened brow. We saw her earlier this week, bundled up in slacks and sweater, looking, we thought, a little blue around the lips. There was no need to ask how she did.

SOFTBALL TITLE PLAY-OFFS TO START MONDAY BETWEEN LEAGUE'S TOP FOUR TEAMS

Two Games Tonight Will Wind Up Season's Regular Play; Jays Are In Top Spot After Win Over Aces; Indians Finishing Strong In 2nd

The play-offs for the title in the Community Softball League will get underway on Monday night between the top four teams in the standings.

Two games tonight will wind up the regular season of play. As things now stand, the Blue Jays, still at the top of the league with an enviable record of 10 victories against three defeats, are certain to get into the play-offs.

The Indians, who are finishing strong in second, also are a cinch for a title bid. Some doubt still exists in the third place spot, where the Newark AA and the Knights are tied, and Chrysler still has a good chance in fourth.

Tonight's games will pit the Newark AA against the Spiders, and the Knights will take on the VFW. A loss by either the Aces or the Knights would break the third place tie and automatically throw Chrysler into fifth and out of the running.

The Jays earned their tenth win of the season and tightened their hold on first place when they downed the Newark AA on Monday night, 9-6. The victors piled up six runs in the first two innings, while the Aces collected four. Both teams tallied again in the fourth, the Jays getting four to the Aces three. Both teams remained scoreless for the remainder of the contest. Daugherty hurled for the Jays, giving up only five hits while his teammates collected 10 from Ritter. Big factors in the Jays' triumph were circuit clouts by Pierce and Daugherty.

Scores for the final round of play the past two weeks follow: July 20—Newark AA, 15; Wawa Tribe, 10; Spiders, 5; VFW, 0; Chrysler, 10; Spiders, 7. July 21—Blue Jays, 11; Indians 9; K. of P., 8; Chrysler, 4. July 25—Newark AA, 2; Chrysler, 1. Wawa Tribe, 14; VFW 2. July 27—Indians, 8; Spiders, 7. Blue Jays, 15; K. of P., 12. July 28—Chrysler, 7; Wawa, 4; Indians, 12; VFW, 9. August 1—Spiders, 12; K. of P. 11; Blue Jays, 9; Newark AA, 6.

Ask Public Support For Foxcatcher Cup

General Public Invited To Program At Fair Hill On September 10

Renewal of the Foxcatcher National Cup Steeplechase will be staged under the auspices of the Cecil County Breeders' Fair, Inc., at Fair Hill, Md., on Saturday, September 10. Feature event of the four race program which begins at 3:45 p. m., daylight saving time, this year's running of America's stiffest brush competition already has received entries from outstanding steeplechase performers.

The general public is invited not only to attend the Foxcatcher program but also to become a subscriber to the National Cup which entitles the holder to a button, reserved seats, parking space, access to all grounds, admission to the Cattle and Horse Shows and an invitation to the National Cup Tea and dance.

Subscribers may obtain as many guest badges as desired at a nominal sum. Anyone interested in becoming a subscriber to this event is requested to contact Edward F. Matthews, George Neighbors or R. T. Ware for further information and subscription forms.

Aces Wrack Up 44 Points To Triumph In Track Meet Here

Knights Next With 27 Points; Individual Winners Are Listed In Full

The Aces, topping their nearest competitor, the Knights, by 17 points, easily won the track meet sponsored here last Thursday evening by the Newark Recreation Association. The Dukes were third with 14 points.

Individual event winners follow: 50-yard dash, John Edmondson, Knights; first, Louis Scarborough, Aces, second; Dick Gray, Aces, third; Bobby Conway, Dukes, third.

100-yard dash—John Mavromatis, Aces, first; Elmer Adams, Aces, second; John Smith, Knights, third; Dick Shultz, Dukes, third. Time—13.03.

440-yard run—John Mavromatis, Aces, first; John Edmondson, Knights, second; Paul Shaw, Dukes, third; Jimmy Jackson, Dukes, fourth. Time—1:20.5.

Baseball throw—Chuck Kelly, Aces, first; Jake Shue, Knights, second; Paul Smith, Aces, third; Bobby Conway, Dukes, third. Distance—220 feet, 10 inches.

High Jump—Tie between Edmondson, Dukes, and Douglas Davis, Knights; Paul Smith, third. Height—three feet, 11 inches.

Running Broad Jump—Elmer Adams, Aces, first; Jake Shue, Knights, second; Church Kelly, Aces, third; John Smith, Knights, Distance—13 feet.

440-yard Relay—Aces (Chuck Kelly, Elmer Adams, Paul Smith, John Mavromatis); Knights, second, Dukes, third. Time—1:02.3.

Wind tunnels captured from the Germans and modernized by the Navy have developed speeds up to 4,000 mph.

The Navy's transport plane, Constitution, is called Model 69, because the United States' constitution went into effect in 1789.

NEWARK RETAINS PEN-MAR LOOP LEAD DESPITE LOSS SUNDAY TO HICKORY HILL

Home Club Beaten Out, 4-3, In Upset Here But Holds Slim Half Game League Lead By Virtue Of Previous Win Over Landenburg

After trouncing Landenburg, 10-3, two weeks ago to retain the Pen-Mar League lead, the Newark AA faltered before Hickory Hill here on Sunday, going down, 4-3, on the Continental Field.

Landenburg also dropped another game, however, and the home club still retains a slim half-game margin in the standings with a season's record of 12 victories against four losses.

Newark, who defeated Hickory Hill twice previously, was beaten out in the final inning here Sunday. The locals assumed a one run lead in the first frame, and this loomed and more substantial as the visitors were held scoreless through the first six innings. They were through four top counters in the seventh, however, but Newark abruptly cancelled this out with two in the eighth, and appeared to have taken under control until Hickory Hill stepped across two quick ones in the stanza.

Newark outbit the visitors 11-5 with McCormick and Lynch turning creditable mound jobs but failing to get adequate support from the field.

In their triumph over Landenburg here two weeks ago, Newark displayed top form to turn in a decisive victory over one of the league's toughest teams. Newark had amassed a 4-1 lead by second inning, holding it through the contest. Their biggest outburst came in the sixth, when they pushed over six runs. McCormick did the best.

Regular play in the circuit race came to an end last week, with the Knights earning first place on a record of 12 wins against three losses for the season. The Aces had 10 wins and five defeats. Trailing them were the Dukes with seven triumphs and eight defeats, while bring up the rear were the Barons, with only a single victory against 14 setbacks.

The Knights won three straight in the final round of play, which fixed the standings. One of their victories was a forfeit. The Aces were defeated once by the Knights, won one over the Dukes and earned another through a forfeit.

The scores were: July 19—Dukes, 17; Barons, 2; Knights 12; Aces, 10. July 22—Barons forfeited to Knights, Aces, 4; Dukes, 1. July 26—Barons forfeited to Aces, Knights, 15; Dukes, 4.

Reports That Pool Water Is Unsanitary Are Untrue

Reports that the water in the city women's pool, which is much frequented by local children taking in the summer recreation program, was contaminated and unfit for swimming were denied this week by the Rawstrom and local health authorities.

E. S. Biddle, member of the New Board of Health, tested the water twice, once when the pool was empty and again when swimmers were present. He said he found "no evidence of contamination" either time.

Mr. Rawstrom said that although the rumor that the water was unsanitary, he pointed out that all pool measures are taken to maintain it at the standards demanded by health authorities.

The Constitution, Navy's latest passenger plane, can fly from Francisco to Tokyo in 19 hours.

8 Newarkers To Vie In State Swim Meet

To Bid For Titles In Events At Canby Park Pool

Eight Newark swimmers will enter the state championship meet at the Canby Park pool tonight. In case of rain, the event will be held Friday night.

Joan Leahy, who recently won her first Middle Atlantic Swimming Championship, will return from Atlantic City where she is competing this summer to enter all events in the senior women's division. Mrs. Prue Leahy, formerly Prue Wyatt, will enter the same division, taking part in all events except the diving.

Other local swimmers planning to vie for state titles are: Andy Murphy, entered in 50-yard free style of the unlimited class; Hugh Miller, 50-yard free style and 100-yard breaststroke of college class; Frank Stewart, 50-yard free style and diving event of 125-pound class; Hugh Dougherty and Murray Campbell, all events of college class; Calvin Barnhardt, diving event in the unlimited class.

Reading Fair Will Be Bigger Than Ever

More Than \$50,000 In Harness Race Purses To Be Offered

Take it from Charley Swoyer, the 1949 Reading Fair will be "bigger and better" than any of its predecessors.

Secretary of the Pennsylvania State Association of county fairs, secretary of the Central Fair Circuit, director of the United States Trotting Association and a steward of the Grand Circuit, Swoyer is regarded as one of the best informed fair men in the East.

He'll tell you that the local fair, which already has become famous for its "firsts," this year will set a precedent for Pennsylvania county fairs by paying more than \$50,000 in harness race purses at its five-day Grand Circuit meeting, September 12 to 16.

Charley then points out that the fair at Reading is probably the only one in the East which sets aside special days for school children in a half dozen counties, and offers them reduced gate admissions on the day they are designated to attend.

Not forgetting the accent the Reading Fair places on beauty, Swoyer likes to remind his listeners that the local exposition is believed to be the only one in the country which offers a first prize of \$500, and nine other cash prizes totaling \$1,250, in its annual "Miss Reading Fair" beauty contest.

Bel Air Race Meet Scheduled For Aug. 17-27; New Paddock Ready

Winners Circle, Speed-Up In Mutual Pay-Offs Also Being Planned

A more complete view of thoroughbred racing will be offered at the Bel Air Racetrack during the forthcoming meet August 17 through August 27. This new paddock, provided by a new paddock, will give the racing public a better view of the racing action between the grandstand and clubhouse in what has been called "Haleakala Style."

The new paddock is a crescent-shaped structure with 12 spacious stalls. It is located directly in back of the grandstand clubhouse and is accessible to patrons. Clubhouse fans dining on the terrace will watch the saddle races without leaving their tables.

Telautograph Installed

A speed-up keynote, Bel Air Racetrack will be the first of Maryland tracks to offer the Telautograph method of payoffs in its mutual meet.

The Telautograph is a method of reproducing a writing at one point from a central pen. It makes the payoff slips, formerly delivered by hand, available to cashiers immediately after the official sign is flashed on the board.

Receiving sets are so placed at the cashier windows as to be readily available to the customers cashing their tickets.

Believed the Telautograph will speed up payoffs at the rate of four per race. That means 32 minutes saved during each 8-race meet by Bel Air Racetrack patrons.

New Winner's Circle

Patrons during the Bel Air race meet August 17 through August 27, will have the right to be unsaddled in the new enclosure on the grandstand. In the new winner's circle, owners will be able to greet champions and pose for pictures without being disturbed by lowly

Delaware Schools Spend \$482,000 For Lunch Foods

Delaware farmers and food dealers have a good customer in the State's school lunch program, according to preliminary figures for the 1948-49 school year compiled by the U. S. Department of Agriculture. Local expenditures by Delaware public schools participating in the National School Lunch Program are estimated at better than \$482,000 for food alone. In addition, nearly 1 1/2 million pounds of farm products were distributed in the State by USDA.

The lunch program, administered locally by the Delaware Board of Education and nationally by the Production and Marketing Administration, served 12,568 Delaware youngsters in the peak month of the school year just ended, with 73 schools participating compared to 11,509 children in 64 schools the previous year. Nationally, the program reaches nearly 7 million children.

Outstanding example of items bought from local producers is milk, of which about 1,900,000 half pints were consumed along with the lunches in Delaware the past year. Funds for buying these foods come mostly from local sources. Supplementing these funds were disbursements from the Federal school lunch appropriation. In the past year, Delaware received \$68,162 from this allocation.

The food distributed in the State by PMA came from two sources. Some of it was bought by the Federal Department with part of the 75-million dollar Congressional school lunch appropriation. The commodities were those that could be bought and handled economically in large quantities while providing important supplements to the youngsters' diets. Distribution of such food in Delaware included 23,850 pounds of American cheese, 13,200 pounds of dry milk, 8,000 pounds of peanut butter, 34,000 pounds of canned tomatoes and 8500 of tomato paste.

The remainder of Federal foods distributed in the State came from stocks acquired by the Department in connection with surplus removal and price-support operations. These foods are not restricted to participating schools but may go to any eligible non-profit institution. In this category, Delaware received some 690,000 pounds of potatoes, 106,800 pounds of sweet potatoes, 20,600 pounds of honey, 36,000 pounds of dried eggs, 105,000 pounds of canned applesauce, 178,000 pounds of dried fruit, and over 1,800 gallons of concentrated orange juice.

Governor Dewey (right), with John Foster Dulles, who was appointed Senator from New York to succeed Senator Wagner, resigned.

CRUSADERS

Arthur Tourtelot and Fred Feldkamp, March of Time's producer and editor of the televised version of Eisenhower's "Crusade in Europe," are shown re-reading the document for the "umpteenth" time. The popular 26-chapter series, now at its half-way mark on ABC-TV, is sponsored by Life and Time as a public service.

DIANALYNN

wears Amethyst jersey evening sweater-tie-on skirt of striped taffeta of Amethyst, white, and black-pearl, Amethyst and gold necklaces, in Paramount's "Bitter Victory."

HEAT TREAT!

A case of heat and more with Dial deodorant soap for a refreshing wash-up. Perspiring males took quick advantage of the offer and bought dozens of cakes of the soap for members of their families.

THE NEW YORK

heat wave was just what the doctor ordered for one enterprising druggist. He hired beautiful Gene Courtney to offer free towels and cakes of Armour and Company's new Dial deodorant soap for a refreshing wash-up. Perspiring males took quick advantage of the offer and bought dozens of cakes of the soap for members of their families.

The Ford overdrive pays for itself

*In the long run
its flashing performance
doesn't cost you a cent!*

Ford's new Overdrive is an optional extra that pays off in actual savings as well as in the surging smoothness it adds to your ride. In Overdrive your engine speed drops 30% while car speed remains unchanged. The resulting savings of up to 15% in gas plus the savings in oil, engine life, and repairs more than repay the original cost. But more important is the quieter, effort-free ride, the flexibility and power response you get. And it's controlled by the touch of your toe for passing in a flash... and a smoother, more relaxing ride on the road.

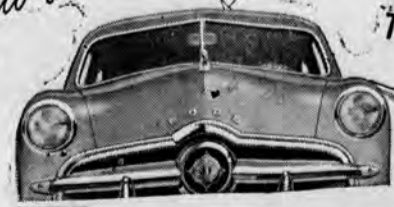

*But there's much more
to the new Ford "Feel"*

Feel new "Hydra-Coil" Springs float you over bumps. Feel that new "Mid Ship" Ride. Feel Ford "Magic Action Brakes. Try a Ford and you'll order a Ford now.

There's a NEW Ford in your future

Take the wheel...
try the "Feel"
at your
