Dear George:

Thank you very much for your informative letter of November 6, 1954 and for the copy of your letter to the President. A summary of your letter to me is being made available to the President. As always, your observations contribute to an understanding of the situation in Mexico.

I am glad to have your opinion of the success of the work being done by Francis White and Henry Holland. It is gratifying to know they are well regarded and respected by responsible people in Mexico.

Thank you also for your kind statements about my own work.

Mrs. Dulles joins me in sending our cordial good wishes to you and Mrs. Messersmith.

Sincerely yours,

(signed)  
John Foster Dulles

The Honorable  
George S. Messersmith,
