

## Conclusion

The *Research Agenda for Physical Therapy From APTA* includes priorities identified as key in the evolution of our profession. Researchers can use the areas and associated priorities to help refine their individual research agendas and scientific queries and adapt what is important to the profession to their specific research area. The research agenda provides guidance across the continuum of research from bench science to translational projects, bringing the science into clinical practice and the community. As the profession moves forward, an assessment of the influence of this research agenda on the profession will be important to inform future research agendas.

## Author Contributions

Jennifer Stevens-Lapsley (Conceptualization-Equal, Data curation-Equal, Project administration-Equal, Writing – original draft-Equal, Writing – review & editing-Equal), Gregory Hicks (Conceptualization-Equal, Data curation-Equal, Project administration-Equal, Writing – original draft-Equal, Writing – review & editing-Equal), Kory Zimney (Conceptualization-Equal, Data curation-Equal, Project administration-Equal, Writing – original draft-Equal, Writing – review & editing-Equal), Emily Slaven (Conceptualization-Equal, Data curation-Equal, Project administration-Equal, Writing – original draft-Equal, Writing – review & editing-Equal), Tara Manal (Conceptualization-Equal, Data curation-Equal, Project administration-Equal, Writing – original draft-Equal, Writing – review & editing-Equal), Lynn Jeffries (Conceptualization-Equal, Data curation-Equal, Project administration-Equal, Writing – original draft-Equal, Writing – review & editing-Equal).

## Acknowledgments

The authors thank the following individuals: staff in the APTA scientific affairs research department and knowledge and technology data management department; APTA Scientific and Practice Affairs Committee members, especially Shih-Chiao Tseng, PT, PhD, for their support in project leadership, data and survey management, and editing synthesis; Ben Martin PT, DPT, 2022 APTA leadership scholar for support on the second environmental scan, and APTA Senior Director of Member Communications Lois Douthitt and Elizabeth Staton at the University of Colorado for editing synthesis.

## Funding

There are no funders to report for this submission.

## Data Availability

Data are available from the authors upon reasonable request.

## Disclosure and Presentations

The authors completed the ICMJE Form for Disclosure of Potential Conflicts of Interest and reported no conflicts of interest.

T.J. Manal is an employee of the American Physical Therapy Association.

The research agenda will be presented at the 2024 American Physical Therapy Association Combined Sections Meeting; February 15–17, 2024; Boston, Massachusetts.
