FOOTLIGHTERS ELECT VAN STREET; "IT PAYS TO ADVERTISE" CALLED OFF

Virgil Van Street, '28, was elected to succeed James W. Grant, '27, as president of the Footlights Club. The other officers elected at Monday's final meeting were: J. Steele, Vice-President; R. Long, Treasurer; C. Hesseberg, Secretary and Musical Director; F. Sweezy, Historian and Property Manager.

It was decided by the outgoing members to cancel the production of "It Pays to Advertise" due to the production of "The Merchant of Venice" being given the following evening at the Women's College. The Freshmen announced as having been elected to the Footlights Club are: Weitchlich, Hare, Donahue, Wilson, Williams and Kirk. During the year these yearlings participated in the productions given by the organization.

The outgoing members of the club include: Ellis, Dale, Stroud, Grant, Clark, Spicer, Tremaine, Rosenberg, and E. P. K. Meredith. During their four years in college these men have been active in producing three editions of "Smax and Crax," "The Dover Road," "A Successful Calamity," "The Valiant," "How He Lied to Her Husband," "Helena's Husband," and many other plays.

Faculty Members Attend Funeral of Dean Smith

Held at Montclair, N. J.

Many members of the faculty of the University of Delaware attended the funeral of Dean Smith, former head of the local Engineering Department. The funeral took place on Thursday afternoon at Montclair, New Jersey, classes being suspended for the afternoon.

Dean Smith, one of the oldest members of the faculty, died in Philadelphia on Sunday after a sudden heart attack.

Drexel Tennis Team Easy for Locals

Meet Maryland Next

After beating Drexel 5-1, the local tennis team will face the strong squad from the University of Maryland tomorrow.

The opening match of the season with the Philadelphia college was played on soggy courts and the cold weather dimmed any chances for brilliant playing. Capt. Meredith and Fred Creamer, ex-captain, performed brilliantly for Delaware. Vincent, playing against Burkholder, a man who had beat Creamer in past seasons, dropped the only Delaware match. Vincent, however, made up for his by his fine playing in the doubles with Captain Meredith. Pyle and Taylor gave exhibitions of good tennis form and should help improve the team in coming matches.

Burkholder defeated Vincent, Delaware, 7-5, 6-0.

Creamer, Delaware, defeated Brandt, 6-4, 6-3.

Taylor, Delaware, defeated Lafferty, 7-5, 4-6, 6-3.

Creamer and Pyle, Delaware, defeated Brandt and Burkholder, 2-6, 6-4, 6-4.

Meredith and Vincent, Delaware, defeated Lafferty and Gervasi, 6-2, 8-6.

Dr. Frederick J. Libbey, a noted Peace Expert of Washington, D. C., spoke to the members of the History, Sociology and Ethics classes on Monday morning on the subject of the Mexican and Nicaragua problems.

Hey! Hey! Hey!

WANTED—Fine young man to take place of Willie Lohman who is leaving us (that is we expect him to leave us) in June. New-comer must be left-handed, must know how to pick violets, must be able to do eleven feet in the pole vault, must eat crackers in bed, must have racoon coat, must not spend more than twenty-three hours a day in Rhodes, must not belong to the Y. M. C. A. or Y. M. H. A., must furnish food and ginger ale every night, must be able to distinguish between catnip and a Juniper berry.

Apply with letter of recommendation to:
Maximilian Glasser.

Sir Henrie Mencken, Esq., Subject of Boyd's Lecture

Dr. Benner Brings Well-Known Literary Satellite to Local Chapel

Ernest Boyd, author and lecturer, will address the student body and faculty at the College Hour next Wednesday morning on the subject, "H. L. Mencken from the European Point of View." Mr. Boyd was born in Ireland and came to America in 1920. However, before he made his residence in this country, he was vice-consul at Baltimore for some time.

After resigning from the consulate service, Mr. Boyd became a resident of New York and became a member of the editorial staff of the "Evening Post." He is well versed in foreign literature, especially in the Irish and French. Among the works which he translated from the French are a set of "Collected Novels and Stories of Guy de Maupassant."

Two years ago Mr. Boyd wrote a book which he entitled, "H. L. Mencken." Among his other literary works are the following: "Contemporary Drama of Ireland," "Ireland's Literary Renaissance," "Portraits—Real and Imaginary," "Literary Blaspheemies," and "Appreciations and Deceptions."

Prof. Olsen To Sail The Deep Blue Sea

Goes Back to Denmark to Complete Studies

Professor Olsen will sail for Denmark in order to complete a study which he has started there in 1923. He will leave the U. S. on May 19 and will stay there until the first week in August. He is interested in the study of the development of accounting for the unusual success of the co-operative organizations over there. He will study what development there has been to bring about the success of the movement. He will spend most of his time with the government bureau and different organizations; also at the U. of Copenhagen. He is also interested in finding out what there is over there to help us in our present situation. He was over there first in 1921 and he remained there till 1923. Professor Olsen will be travelling on a fellowship from the U. of Chicago to complete his doctor's degree. Most of the plans for the trip have been developed but personal contact must be established as he goes along. Professor Olsen will also study the post-war issues of the agricultural system. He will probably be in England where he will study for a short time.

Professor Olsen will endeavor to solve the following: What has there been in the national development of Denmark to bring about this unusual development in their co-operative organizations? What are the main features of the Folk high schools system of education? Professor Olsen will study the latter in order to try to improve on our system.

Baker Heads Local Annie Oakleys

In Other Words, the Rifle Club Elects

At a meeting of the Rifle Club held before vacation the following officers were elected: President, R. S. Baker; Vice-President, R. Jaquette; Secretary, Hynson; Treasurer, J. Short. The rifle team elected R. S. Baker, captain next year to succeed Manns. The team had a fair season this year and it expects to meet with greater success. The Freshmen team, which was a new thing this year, promises to be very instrumental in giving the college a wide reputation.

Student Council Interscholastic Dance In Armory

The social season of the Student Council will draw to a close on Saturday evening, May seventh, when the Council will act as hosts to the students and contestants participating in the annual Interscholastic Meet. The dance will be held in the Newark Armory, dancing beginning at eight and continuing until twelve.

Prof. Wilkinson Host of High School Teachers Next Week

Local Educationalist Plans Conference and Banquet

Next Friday and Saturday, May 6 and 7, the ninth annual meeting of the Delaware High School Conference will be held at the University of Delaware. A fine program has been arranged by Professor W. A. Wilkinson, who is in charge of the conference.

On Friday evening, a banquet will be held in the new dining hall at the Women's College at which Burton P. Fowler, headmaster of the Tower Hill School in Wilmington, will be the toastmaster. There will be a general discussion, at the banquet, on the subject of "What Next in Secondary Education in Delaware?" Following the banquet, a reception will be held in the Women's College faculty club-rooms.

On Saturday morning in the West Wing of Old College, President Hullah will address the conference on the "Relation of the University to the High Schools," and Professor W. A. Wilkinson will speak on "Studies of the Abilities of College Freshmen." Following this there will be a conference on the teaching of French in the High Schools, led by Dr. David O. Evans.

In the afternoon the annual interscholastic Track and Field meet on Frazer Field will complete the conference.

Geneva Lobach '28 Holds W. C. D. Student Board

First Campus Election Held

The first unit of elections has been held to determine the membership of the student board for the next school year. As a result, Geneva Lobach, '28, of Pittsburgh, Pa., has been elected president; Virginia Smith, '29, of Milford, Del., has been selected 3rd vice-president and head of Sussex Hall, and Anne Barclay, '30, of Narbarth, Pa., has been chosen treasurer.

Student government has been a feature of the Women's College ruling system since its establishment in 1918. It is the medium through which student laws are made and the court of justice through which are settled all college disputes and problems; and is consequently the most important organized body on the campus.

The remaining elections will be held during the next week when the first and second vice-presidents will be selected from the incoming Senior Class and the secretary from the incoming Junior Class. The representative from the Freshman Class will be appointed in the fall.

Sammy Miller Still Trying To Boost Baseball

"Jay Vee" Schedule Certain

Manager Samuel Miller has succeeded in booking a few games for the Junior Varsity. The tentative schedule arranged thus far is as follows:

May 2—Beacom Home
May 6—Beacom Away
May 19—Salesianum Away

A return game is pending with Salesianum and games with Newark High are also being arranged. The team will be made up of mostly Freshmen, with a few second string varsity men from the other classes. At present there are four Freshmen regulars on the varsity, Taylor, Reitzes, Snowberger, and Ryan. With these men as a nucleus the Fresh should present a strong combination.

(Editor's Note: Why not a Fresh track meet with Wilmington High, Tower Hill or W. C. I.? Or a Junior Varsity Tennis schedule with Wilmington High, Friends School and Salesianum?)

To The Ladies!

Dr. Ryden Returns From Yale to Join Summer School

Historian Among Those Listed For June-July Faculty

Professor W. A. Wilkinson, director of the Summer School, has announced the faculty and courses of instruction for this year's school. Several instructors who are quite well known have been secured and several new courses have been offered, making the school, for this year the best one which has ever been held.

The faculty is as follows: President, Walter Hullah; Director, Professor W. A. Wilkinson; Dean of Women, Miss E. G. Kelly; Calvin E. Afferbach, Rural School Supervisor of Sussex County; Rena Allen, University of Delaware; James M. Barkley, University of Delaware; Marguerite H. Burnett, State Director of Adult Education; Nellie M. Campbell; Emily B. Cleaver (Mrs.) formerly of the National Congress of Parents and Teachers; Grant H. Code, University of Delaware; Ezra B. Crooks, University of Delaware; Mary C. Dennison, Wilmington High School; Albert Early, Rural School Supervisor, Sussex county; Emma Ehlers, University of Delaware; Violet Findley, Wilmington High School; Mary E. Harding, University of Delaware; Beatrice P. Hartshorn, University of Delaware; Alice Munn, Maryland State Normal School; Gertrude Robin; George H. Wake, Miss Lindy, Waldo Warner Ryden, University of Delaware; Ernest C. Van Keuren, University of Delaware; Opal I. Wheeler, Tower Hill School; Business Administrator, A. G. Wilkinson; Assistant Business Administrator, Edwina Long; Dietician, (Continued on Page 2.)

Alumni Fellows Plan Happy Old Day At Delaware

Basketball Game, Banquet and Something Else Planned

Charles E. Grubb, president of the University of Delaware Alumni, has announced the tentative list of those on the committee for the Alumni Day and annual reunion in connection with the commencement exercises at the University of Delaware.

Alumni Day at the University of Delaware has been increasing with popularity. Every year the attendances have been greater and in June when it will take place this year, a record-breaking number of alumni is expected to be present.

The 1916 class instituted a new plan at last year's alumni reunion when it celebrated its 10th anniversary.

Those on the Alumni Day committee, announced by Mr. Grubb, are Harry L. Maier, chairman, '01; J. H. Mitchell, '03; Evans Crossan, '04; F. S. Price, '07; Sherman Corkran, '10; David H. Bell, '11; Howard Ennis, '12; Norman Groves and Warner McNeal, '14; Harris Samonisky, Harry Taylor and Alex Crothers, '16; James Hastings, '17; Garrett Cantwell, '19; J. F. Poole, '21; Milton Draper, '22; F. W. Barkley, '26, and the executive committee, ex-officio.

Glee Club Glistens Gayly This Evening Annual Concert In Wolf Hall

This evening the annual concert of the Women's College Glee Club is to be given in Wolf Hall, under the direction of Miss Mary Gillespie, head of the music department at W. C. D. The programme this year is more varied than on previous occasions and rumor has it that the entertainment will be one of the best musical affairs given in the colleges of this district.

The selections will be rendered in the following order:

- Creation's Hymn
- On Wings of Song
- In Old Madrid
- Glee Club
- Capriccia Brilliant
- Two pianos—Eleanor Edge and Iva Carl
- Spanish Dance
- Cherry Ripe
- Swing Song
- Violin—Anne Barclay
- Swing Low, Sweet Charlie
- Nobody Knows de Trouble I've Seen
- Go in Home
- Glee Club
- Andante Movement Sonata Beethoven
- Pathetique
- Etude Melodique
- Piano—Lillian Steele
- Little Mother of Mine
- Dreaming
- Wake, Miss Lindy
- Kentucky Babe
- Sarasate
- Cyril Scott
- Ethel Barnes
- Negro Spiritual
- H. T. Burleigh
- Anton Dvorak
- Rogers
- H. T. Burleigh
- H. R. Shelley
- Waldo Warner
- Adam Geibel

Druids and Derellets will be "tapped" next Saturday previous to the opening of the Interscholastic Track Meet. The usual performances will prevail on the steps of the Commons.

Annual Military Inspection Begins Next Friday

Next Friday and Saturday, May 6 and 7, the annual Federal military inspection will take place. The Inspectors, Major John T. McLane, cavalry, and Major E. B. Parker, field artillery, will arrive Friday morning to determine whether the University of Delaware will again be rated as a "Distinguished College." All classes on those two days will be omitted.

The battalion will line up Friday morning and, while waiting for the inspectors, see that everything is in order. When the officers arrive the inspection will commence with a parade. Following this one company will be inspected as to the condition of rifles, uniforms, and equipment. Then, one company will to close order drill and another extended order drill. Following this there will be a selection by a selected group, followed by practical work in all subjects on the field. This will conclude the morning's program.

In the afternoon the inspectors will call on President Hullah. There will also be inspection of classroom work with one section of each class for the drill. Following this there will be ties, including the rifle range, storerooms, etc., will be inspected. This will take the whole afternoon.

On Saturday morning there will be the problem of a company in a meeting engagement. It is hoped to have as much of the equipment, used in battle, as possible. This will take all morning and will conclude the inspection.

Last year we were cut because of our poor facilities. They are little better this year. We will, therefore, have to make up for this deficiency in other work. It is what the men do, that is one thing which is easy to do individually and as a whole, that is one thing which is easy to do as a company which will determine whether the school will be rated as a "Distinguished College."

CO-ED

By Virginia Nelson
(University of Oklahoma Magazine)

It was not so much a room, as a personality—a personality of youth, and romance, and a light heart. Across the bed was flung a futuristic looking "Indian blanket," in which no self-respecting Indian would have appeared, and at the head, in a gaudy little heap were pillows—dozens of them, orange and pink and orchid. On top of them sprawled an elongated French doll, with absurd lank legs and startling scarlet hair.

The dressing table was a litter of City and Houbigant and Golliwog. Over in one corner a little slipper with a four inch heel and a one inch toe, lay on its side, keeping lonesome company with one silvery, transparent stocking.

One wall of the room was covered with pictures of boys tacked up recklessly—youths in sport shirts open at the collar, with fascinating long pipes held in one hand—youths in heavy overcoats with eyes remotely romantic under low-turned hat brims. The picture had been removed from the frame of one, and on the white background had been printed in heavy black ink—"Little Rollo, Gone But Not Forgotten. Sept. 19, 1926."

On the other wall hung a cascade of dance programs—gay little created affairs, with names and dates and an occasional note scrawled over them. A red balloon, a wilted corsage and an ornate crepe paper hat were suspended.

(Continued on Page 2.)

Election Dates Are Announced

The Student Council announces that nominations will be held in the West Wing on Wednesday, May 4th, at 12.30. The elections will be held the following week in Wolf Hall at 11 a. m.

The Review will elect on Wednesday, May 4th, in the Editorial Room in the Library at 4 p. m.

The Juniors under the direction of James Wilson, former Black Bottom artist, will hold their nominations in West Wing on Tuesday, May 3rd. Wilson declined to hold the nominations with the other classes on the following day, claiming he was "an exclusive class."

"There is Nothing Certain in Man's Life But This, That He Must Lose It"

In the death of Dean Smith, the University has lost one of its foremost professors. Dean Smith had spent the greater part of his life in serving Old Delaware. For over twenty years he was a member of the faculty, being exceeded in point of service by only Dr. Harter and Professor Conover. As a teacher Dean Smith had few equals. Although he taught subjects which were intrinsically difficult to comprehend and uninteresting, he managed to gain the unflinching interest of the students in his courses. He was wont to intersperse his lectures with anecdotes and reminiscences of the days when Delaware College boasted of a student body of seventy men. He took a lively interest in the Engineer's Club and other student activities. His kindly advice and sage counsel will be missed alike, by both students and faculty.

F. R., '28.

EXPERIMENT NUMBER WHAT?

The announcement of the new coach to come to Delaware in the Fall is somewhat of a surprise. Little did the students think that there would be any more experimenting with coaches at the local institution. Ever since Coach McAvoy departed for the World War these has been a yearly routine of experimenting with new coaches and their systems. There can be no doubt that the experiment carried on by Coaches Shipley and LeCato were the most profitable. Even during the past two years the "experiment" carried through by the Athletic Council in hiring Coach Forstburg, has been, despite many protests, successful. What is next year to be—another experiment? A tearing down of the system formulated during the past two years by the Head Coach? Experiment number what?

In the first place there has been some agitation, there is no use making any bones about it, of Rothrock's appointment. Infantile as it may appear and coming from the mouths of many who do not know the incoming coach, there is the soundings that "no Delaware man who has been connected with any fraternity on the campus should be brought back as a coach." This may be, in the main, mere flapdoodle but when one considers the trend of the minds of many of the students here these soundings bear warning.

The Review recommended the appointment of an "outsider" and a man who has coached college teams not high schools or preparatory schools. Many such men were available but, perhaps, there was a financial twist to the situation which made such an appointment impossible. On the other hand, how is it that St. John's College of Annapolis, Maryland, is securing John Crowley, one of the famous "Four Horsemen of Uotre Dame" by giving a salary similar to the one given at Delaware? Why not Joe Lightner who has experience at Dickinson and Penn State colleges, and has played professional basketball and baseball?

The new experiment may bear much fruit—but we must wait till the football season rolls around. And then one wonders why Gerald Doherty wasn't given a chance; he was a Delaware man with much the same, if not more experience than Rothrock. Experiment Number What?

A MOST POPULAR FELLOW WRITES ABOUT OUR NEW SWIMMING POOL

The recently added victory of the swimming team of the Wilmington High School of which we are so proud causes us once again to see the total inadequacy of our gymnasium and especially our swimming pool, if such it can be called.

More students enter the University of Delaware from the Wilmington High School than any other school in the State and we should certainly be prepared to receive as students those who have made such a splendid showing in swimming. We owe it to them to see that their own State University is so equipped that they can carry on the good work and not permit them to separate and enter universities outside the State.

Furthermore swimming in one of the healthiest sports and one in which so many can participate. With so many things needed for the educational advancement of the University it is not to be expected that the State can at this time give the financial support that would enable the Board of Trustees to enlarge the gymnasium and the swimming pool. I wonder if the Alumni of the University and of the Wilmington High School and the many friends of the victorious swimming team could not create enough interest to do much toward providing this very necessary addition to the University? Would it not be a very suitable acknowledgement to the splendid work of our High School? Wilmington welcomed the team back to the city last Monday with bands and parades and flag-waving. What about some tangible appreciation?

We are proud of the University and its work but we must also see that provision is made for healthy recreation and to do this we must have for Delaware College

A LARGER GYMNASIUM
and
A REAL SWIMMING POOL.

Co-Ed.

(Continued from Page 1.)

ended at intervals, and above them all, a title cut from a magazine read: "What College Did to Me." Looking at them, one sensed evenings of moon-light and laughter and jazz.

In one corner there was a desk. A rather barren, deserted looking desk, Cat which smirked in patent leather satisfaction, and one text book. Lying on the floor under the desk was a sheet of theme paper on which there

were four lines of writing, one enormous blot, and innumerable hieroglyphics, names and Greek letters. The paper was headed: "English theme No. 4, Sept. 30, 1926. Why I Came to College." The four lines read as follows: "The real reason I came to college was to gain an education, to increase my knowledge, and to rather barren, deserted looking desk, Cat which smirked in patent leather satisfaction, and one text book. Lying on the floor under the desk was a sheet of theme paper on which there

smirked over the lone textbook.

The Delaware Engineer's Column

Where Does the Graduate Engineer Fit In the Large Power Companies

By John W. Anderson, '20, of the Philadelphia Electric Co.

Not long ago a prominent engineer connected with a large power company made the remark that engineers comprise 80 per cent of the man-power of the electrical industry. If this figure holds for the entire electrical industry, it will not be far wrong when applied to large power companies, which form a most important part of the industry.

Taking this figure then, it will be of interest to see why such a large proportion of the personnel of a big power company consists of engineers; why, in fact, engineers are the backbone of a company of this type.

The engineering activities of a large power company may be divided broadly into three classes, namely, design, construction, and operation.

Design has to do with the selection of equipment for generating stations and substation; with the arrangement and connections of apparatus in these stations; with the arrangement and type of transmission systems for the transmission of energy from generating plants to substations; with the arrangement and type of distribution systems for distribution of energy to consumers; and lastly, with the arrangement and type of equipment to be installed on consumers' premises to receive and measure the energy.

It will be thought that a number of these design items are standardized by each company; that when extensions are to be made, they are made according to the standard and therefore do not involve new design. It is true that all companies in the interest of good service and economy, do standardize as far as practicable; however, because of the rapid advances that are made in the electrical art and because, particularly in generating plant and substation work, it frequently happens that conditions surrounding new installations are different from those applying to other installations, it is not practicable to carry standardization very far. Consequently, design work in general is far from routine in character, and makes a great appeal to the engineer who will keep pace with new developments and who can study and analyze properly the varied conditions which arise.

Once an installation is designed construction must be gone ahead with. Many of the large companies do their own construction work; others have organized subsidiary companies for this purpose; still others contract with construction companies to do all or part of their construction work. Regardless of how the construction work is to be done, it must be supervised by engineers, and here is a field which is particularly attractive to men who delight in watching a job grow from nothing to a complete installation with all equipment working smoothly and earning its own "keep."

After an installation is completed, it must be operated and its operation correlated with that of other parts of the power system to the end that best service to customers and greatest efficiency will be obtained. These are functions of the operating engineer, and needless to say, are of vital importance to the power company.

When it is considered that these various activities are carried out largely by engineering graduates, and directed and co-ordinated almost exclusively by engineering graduates, it is not surprising that engineers comprise such a big part of the personnel of a large power company. Neither is it surprising that the large power company is considered a place of opportunity for men who are finishing their engineering courses in college.

Dr. Ryden Returns

(Continued from Page 1.)

tion, M. Ruth King; and Nurse, Dorothy L. Diggs.

The courses offered include Biology, Education, English, Arts, History and Political Science, Music, Philosophy and Sociology, and Physical Education.

Further information about the Summer School may be secured from Professor W. A. Wilkinson, who will be glad to discuss it.

IBIS CLUB

The object of the Ibis Club is to promote greater interest in mathematics and to show the interest that this subject contains for college students of today.

The Ibis Club is well organized, with a written constitution and by-laws. During the past year, the activity of this club has been rather limited.

Delaware Drops One-Sided Track Meet to Main Liners

Better Temple's Score by Lone Point

Facing a soggy track and a fine all-around track team, the cinder artists of Delaware were forced to bow to Haverford by the overwhelming score of 102½ to 23½.

Justin Steele won the 220 yard dash for the locals, while Garrett easily copped the javelin throw. The surprise of the meet was the showing of Kerbin in the high jump. This Sophomore earned a few points in this event by an unusual improvement in form.

Haverford had previously beaten Temple University 103½ to 22½. Delaware meets the Philadelphia university on the local track in three weeks and if comparative scores mean anything this should be a humdinger of a meet. Temple's team is far superior to that of St. Joseph's College, a team beaten in an early season meet by the Blue and Gold squad.

Textile, another of Delaware's track opponents, was beaten by Schuykill last Saturday by a 57-51 score.

In the Penn Relays, Coach Forstburg's team has been placed in the relay class containing such teams as Yale, Columbia, Harvard, Pennsylvania, Juniata, Temple, Rutgers, Ohio State and others. Delaware, according to newspaper reports, will not be represented in the Middle Atlantic States relay race.

Plans are well under way for the Interscholastic Meet which will be held on Frazer Field next Saturday afternoon. Fully forty-five schools will participate in this meet and Coach Forstburg expects three thousand people to witness the races.

On May 20 the annual New Castle county track meet will be held on Frazer Field. All secondary high schools of New Castle county will enter teams in the meet.

Customer: Five pounds of coffee, please.

Grocer: Yes, anything else today?
Customer: Well, if it isn't too heavy a package, I'll take it with me.

Grocer: Oh, no, it'll only weigh three or four pounds.—Red Cat.

"Caroline is so proud she carries her nose in the air."

"Maybe that's because her neck is heaven."—M. I. T. Voo Doo.

Cream of the Jester

1st Shipwrecked Traveler: Give us a cigarette, will you?

2nd Shipwrecked Traveler: Sorry, old top; I'm all out.

1st Shipwrecked Traveler: That's all right; I'll smoke my glasses.—Yale Record.

"Are you the plumber?"

"Yes, mum."

"Well, be careful about your work; all my floors are highly polished and in excellent condition."

"Oh, don't worry about me, mum. I won't slip. I've got nails in me boots."—Centre Colonel.

Waiter (apologetically): Spoon, miss?

"May I kiss you?"

High School

"Sorry."

"How about an'kin', kiddo?"

"Gangway."

"Let's dance."

"Gimme a kiss?"

College

"Watch where you're goin'!"

"Gotta quart; let's get out."

"Get 'ell outta the way."

"Hey, you. C'mere."

"—"

(Censored)

—Carnegie Puppet.

My, How Naughty

"Movies are made of sex. That is all they think about, sex, sex, sex."

moaned the chief speaker at the movie censors' banquet. "They set each reel of celluloid afire with sex. They lay it on, spread it on, spray it on, smear it on. And it gets worse and still worse. Each new picture has

more sex than the last. Why just yesterday (I hardly expect you to believe this) I had to eliminate scenes—yes, I swear this is true—scenes showing a little girl, just a little girl, dressing her doll."—U. of S. Calif. Wampus.

A miss is as good as a mile. Any farther away than that she may not walk back.Catalink.

"Why do they call her the ad girl?" "She believes in display."—California Pelican.

Janet: How was your new slip-on? Janice: It went over big.—Brown Jug.

You've wanted while your girl went up to powder her nose? You have. Wouldn't you hate to have a nose that long?—M. I. T. Voo Doo.

Is It Coming to This?

"Did you hear about the raid at Van Cupp's house party last night?" "No. Was any whisky found?"

"Not a drop—the officers forgot to bring a stomach pump."—Princeton Tiger.

"Do you believe in marriage?" "Only as a last resort."—N. Y. Medley.

Never trust a girl who says she loves you more than anybody else in the world. . . it proves that she has been experimenting.—Chicago Phoenix.

Bill: You must be one of these channel swimmers.

Billie: Wadaya mean, channel swimmers?

Bill: You go so far—then stop.—Ames Green Gander.

One: I wish I were like the rivers.

Other One: What for, Bill?

One: To follow my course without leaving the bed.—Grinnell Malteser.

The brother to the meanest man in the world is the guy that fed his cat peanuts so the cat would be too thirsty to drink anything but water. —Golden Bull.

"Have you ever drunk all you wanted?"

"No, I can't hold a bottle long enough."—Virginia Reel.

Nurse: Professor, a boy has arrived.

Professor (absent-minded): Ash him what he wants.—Annapolis Log.
(Continued on Page 4.)

"Speaking of fine tobaccos —Have a Camel!"

MODERN smokers find in Camels a nicety of blending, a friendly cordiality of flavor, an inherent goodness that thrills from the first puff to the last. That is why Camels are the favorite of the present age. The warmth of golden sunlight or autumn fields gleams in their smoke. Camels are the modern expression of all that is the finest.

Camel quality and Camel excellence are recognized wherever

modern smokers gather. Particular smokers in this hard-to-please age find the best of Turkish and Domestic tobaccos blended in this famous cigarette. They find a consistent goodness that never fails, no matter how liberal the smoking.

And wherever modern smokers gather, wherever the conversation turns to tobacco, to the world's best, someone is sure to say:

"Speaking of fine tobaccos . . . —Have a Camel!"

Personality Portraits

She's so polite that she doesn't smoke in the presence of men.

From Co-Ed's Pens

Women's College news for this issue is devoted entirely to a consideration of the organizations which are established upon the campus. Their aims, their past activities, and their future plans. We feel that such an "organization issue" is particularly suitable at this time as nearly every student association is either now holding elections or plans to do so in the near future.

It quite frequently happens that a girl is so wrapped up in the interests of one club that she does not bother to recognize the merits of another and thus numerous societies exist within college walls, supported by the few and ignored by the many.

It is right that individuals should be permitted to join the clubs in which they are most interested, but since at W. C. D. nearly all the big organization leaders are elected by the entire student body it is also right that these same individuals should know something about the other societies whose officers they help to select.

The following articles are extracts from talks given by members of the student board at a recent student meeting. We feel that these best express the qualifications necessary for student board executives.

It is rather difficult to state definitely all the requirements of a good Student Board Member, but the best way to describe her is to be able to say that she is an "all round college girl" who is interested in all phases of college life.

It isn't necessary to have a girl who is vitally interested in her work and who studies all the time, but it is necessary that she shall have a good scholastic standing because there are times and occasions when a Board Member will have to devote a great deal more of her time to Student Government affairs than to her scholastic work. Then there is the otehr extreme—the idea of social standing.

You don't want a social butterfly, but you do want a girl who is interested in social affairs to a certain extent. You must remember that there are times when your student executive will represent the Women's College.

The student representative must be a girl of broad understanding who is able to look at a question from all sides. She must not be too easily influenced, but it is necessary that she be willing to hear the opinions and advice of others because she must cooperate with every member of her board and of the association.

She must be level headed, always thinking a thing through carefully and thoughtfully before reaching a final decision.

The most important thing of all is

that she shall realize her responsibility and be conscientious about it. There are no more responsible positions on campus than those of the Student President and her officers, and the girls who accept this responsibility must bear that fact in mind. With the office there is a great deal of honor, but, as with all things, the honor carries with it a great deal of criticism. Just as they are the most responsible positions on campus, they are also the most highly criticized, and the girls will have to accept this.

It is up to each individual member of the Association to think carefully about these elections to be vitally interested, and to select the girls who are the most conscientious, the most capable, and who will accept responsibility along with criticism.

As the time for Student Government elections has arrived we must realize our individual responsibility. Each student has a certain amount of responsibility toward the running and success of Student Government. There are certain changes we would like in the rule book but until each student realizes her duty we will not gain them, nor until she does will this be absolutely student government, free from faculty interference.

The girls must also realize that the Student Board is not a group of puppets set up to carry out the rules, but that they too are likely to make mistakes. Unjust criticism is the bane of the campus—constructive criticism is useful. The Student Board is always ready for new suggestions and ideas. Therefore let me say in conclusion let us remember our own individual responsibility and elect proper girls to head our students and represent our college for the coming year.

Student Board is not a group of puppets set up to carry out the rules, but that they too are likely to make mistakes. Unjust criticism is the bane of the campus—constructive criticism is useful. The Student Board is always ready for new suggestions and ideas. Therefore let me say in conclusion let us remember our own individual responsibility and elect proper girls to head our students and represent our college for the coming year.

THE DRAMATIC CLUB

The Dramatic Club of the Women's College is the most highly organized club on campus. The membership is open to every student in college, and everyone is privileged to "try-out" for plays or assist in coaching, costuming, or staging. The official body of the Dramatic Club, the Dramatic Board, is made up of seven members, nominated by the preceding Board, and

(Continued from Page 3.)

ected by the members of the Association. The chief duty of this Board is to recommend and supervise the plays which are given during the college terms.

Every year, in the early part of Spring, the four one-act plays are given by the members of the Freshman, Sophomore, Junior, and Senior classes, respectively. Competent judges are chosen and the best play is selected for the honor of "first place." Last year witnessed the beginning of a plan which, it is hoped, may become a tradition. A Shakespearean play is given in May in which almost all Women's College takes part—whether it be a leading rôle or a sub-assistant of costuming. Last May, "As You Like It" was presented; this May, plans are going forward for "The Merchant of Venice." Then, too, short plays are given in the dining hall after dinner, in which any member of the Dramatic Club may participate. Last year, an honorary club was formed, called "The Puppets". This is open to those members of the Dramatic Club who have attained five hundred points in acting or assisting in any production, credit is also given for reading and writing up a certain number of plays.

Women's College was represented at the Intercollegiate Dramatic Association, which was held at Elmira, New York, last fall. Delegates from forty-four colleges were present. This Association has been invited to hold its conference next year at the University of Delaware.

A PLEA FOR THE RIFLE CLUB

Now that Rifle is over for this year it may be well for us to take a glance at our season's work which, we regret to say, has been somewhat unsuccessful. Of the many inter-collegiate matches in which Women's College engaged, we were fortunate enough to win only three. A disastrous record indeed!

There is no doubt but that Rifle is a side issue at Women's College. But should we let it sink absolutely into the background? The club receives no recognition from the rest of the campus. Rifle is the one and only inter-collegiate sport engaged in at Women's College. The club is in need of help if it is to survive. We have been extremely fortunate during the last two years in having Captain Whitmore as coach. He has, of his own volition and with no recompense, spent two evenings every week in coaching us. But even this valuable aid will be lost to the club next year, and it will remain for the students alone to carry on the work of this organization.

The facilities for shooting are miserable. The lighting is poor, the mats are filled with dirt, and the room itself is too small. But far worse than any of these inconveniences is the fact that the club possesses only two rifles which may be used in the matches. Therefore a girl is compelled often to spend an entire evening in waiting for an opportunity to shoot.

If the members of the club received more interest and encouragement from their fellow students, the faculty, and from the athletic association in particular, there is no doubt but that there would be much improvement in the rifle scores.

Y. W. C. A. ON CAMPUS

The Y. W. C. A. is one of the strongest and most active organizations on the Women's College Campus. Its main purpose is to spread Christian faith and ways of living. One means by which this is accomplished is through the Sunday evening Vesper Service, our only truly religious service held on campus.

The Association accomplishes some work along social service lines. Each year it contributes to the fund for foreign Associations, the Student Friendship fund, the poor of Newark, and several missionaries centers. It fastens the Big Sister-little Sister movement through the cooperation of the vice-president and the Junior class. By means of this the Freshmen are welcomed and assisted in getting settled. At the first Freshman Week held last fall the members of the Cabinet and the members of the Student Board contrived to run things (the Faculty were also present—so no bad results).

Socially the "Y" is very prominent. It gives parties and picnics. Last fall we gave a Country Club Ball, a Get Acquainted party, and a stunt picnic out at White Clay Creek where the number of bottles of gingerale consumed was terrifying.

We also attempt to ease that well-known feeling—hunger—by selling sandwiches, cake, lemonade, and ice cream during the evenings and on Sundays. Occasionally, when hard pressed for money we sell stationery or prints. Then in December our Freshman member has her big job of putting on the Christmas Bazaar. These with membership dues and the

Butler sale constitute our sources for money.

What do we do with all our money? Well there are such things as Conferences and Delaware is always represented, at least by the Women's College. First of all there are three yearly conferences in our own district, held by the C. C. A., composed of colleges of Maryland, Delaware and District of Columbia. Then there is the annual conference held at Eagles Mere for ten days at which colleges of the Mid-Atlantic States are represented. This past Christmas-tide we were fortunate to have a National C. C. A. Conference held at Milwaukee. To this Women's College sent one delegate. Enough so that it could be said 48 states were represented. All of our money does not go for conferences, however, but we have many other ways to put it to use.

As I have told what we have done, let me tell you what we are planning to do. First of all we are striving to get enough money to build our own "Y" out here on campus. This is our one big dream. But as for our other plans, Women's College is to be hostess for the C. C. A. Fall Conference next year. We are quite proud of this and are hoping for a splendid time then. April 29, 30 and May 1 is the time for the annual Cabinet

Training Conference, held at Sherwood Forest, Md. The entire Cabinet is planning to go and along with them Miss Margaret Clerihew and Professor James Barkley.

So you see we are an active organization!

THE FORUM

When the Forum was first organized under Dr. Ryden, the purpose of it was that it supplement the course in American Government, and serve as outside work in this course.

In time, the Forum evolved into an organization for the purpose of discussing any educational topic of interest to college students.

The meetings of the Forum are informal, any student being privileged to question the speaker or discuss any particular point with him. The speakers are engaged by the president of the Forum. A number of interesting speakers, talking on a variety of subjects, have been had during the past year. Among the speakers have been Col. Tanner, speaking on the Ferris Industrial School, Warden Leach from the Workhouse, and the botanist, Royal Dixon, who spoke on the similarity of plants and animals. Several members of the University faculty have also spoken on very interesting subjects.

Turn on the sunshine

WHEN Greek or calculus gets you into a tight corner, tie a tin to trouble—a tidy red tin of Prince Albert! Tamp a load of this really friendly tobacco into the bowl of your jimmy-pipe and light up. Watch the sun crash through the clouds with every puff!

P. A. can't bite your tongue or parch your throat, no matter how fast you feed it, because the Prince Albert process gave Bite and Parch the air at the start. Cool as a Laplander's lap. Sweet as apple cider. Fragrant as spring blossoms. That's Prince Albert!

One pipe-load invites another. And . . . you can hit P. A. from morning till midnight and it won't hit back. Don't put off to tomorrow what you can smoke today. Get a tidy red tin of P. A. and turn on the sunshine . . . now!

PRINCE ALBERT
—no other tobacco is like it!

P. A. is sold everywhere in tidy red tins, pound and half-pound tin humidors, and pound crystal-glass humidors with sponge-moistener top. And always with every bit of bite and parch removed by the Prince Albert process.

© 1926, R. J. Reynolds Tobacco Company, Winston-Salem, N. C.
