Tri day
Feb. 23-51

Dear [Name],

Thanks for your telegram. Am distressed that your feet recovery is going slowly but the most important thing is that you are taking care of yourself and I'm confident you will be completely fit again soon. It's trying on one's patience - I know what it means. We have one more week here - sailing March 2 - next Friday. The vessel has proved pleasant + Constructive. I can't go into details. Progress I have been very busy every day. It has been no holiday in B.A. but we will have a good rest on the boat going north. The task is constructive and worth while. In any I can't write details now but they are being worked out. Progress is fine and knows his job. Marion + I are well. We look forward to seeing you all. I think the boat arrives the 19 or 20 March. After a few days in New York I'd love to go to Washington. Love to you all from us both -

Truly yours
George
