

1795

The following is a paraphrase of a telegram, No. 1082 dated August 15, 1946, 8:00 P.M., top secret, from Acting Secretary Acheson, personal for the Ambassador:

The telegram states that my top secret despatch No. 471 of July 31 and previous top secret despatches on the same subject are being considered and that the views of the Department will be forwarded me by air mail. The telegram further states that as I know President Truman has shown a personal and continuing interest in the Argentine problem and that the Department would therefore not wish to make any commitments regarding the measure of performance which would be regarded as satisfactory without consultation with the President, and the Department goes further and states that it is certain that I am in accord with this feeling.
