

# DELAWARE COLLEGE REVIEW

VOLUME 36

NEWARK, DELAWARE, DECEMBER 10, 1919

NUMBER 10

## Fraternity House on Campus Assured

### Sigma Phi Epsilon Secures Initial Building Funds at Reunion

The most important Reunion in the annals of the Sigma Phi Epsilon Fraternity was held at the Hotel duPont last Saturday evening. The funds raised at this meeting give practical assurance that, unless some unforeseen emergency arises, ground will be broken in the spring of 1920 for a modern fraternity house on the campus site already chosen.

The Alumni and Active members of the Fraternity gathered in the lobby of the Hotel, and at six o'clock adjourned to the Clubroom where a satisfying dinner was served. The menu consisted of Oysters on the Half Shell, Radishes, Olives, Prime Ribs of Beef, French Peas, Baked Potatoes, Tomato Salad, Rolls, Ice Cream, Assorted Cakes, and Demi Tasse.

Following the dinner humorous speeches were given by various members of the chapter, after which the business of the evening was broached. William L. Francis and A. Egmont F. Horn sketched the early history of the chapter. F. Bayard, Carter responded for the active chapter. Dr. W. Owen Sypherd outlined the present building project which calls for the erection of a modern fraternity house on the campus site chosen.

The plans are drawn by the college architects, Day and Klauder, and provide a three story brick building of Colonial design. Lodgment for room, Library, Butler's Pantry, Dressing Room, Lavatories, Shower Room, and eight study rooms. Disinterested architects, who have examined the plans for the house, declare it to be the final word in fraternity house construction. The cost of the house completely furnished will be \$50,000.

After the plans had been approved, the question of financing the project was taken up. Within an hour enough money was pledged by those present to enable the Fraternity to go forward with the construction next Spring. Shortly before midnight, this, the most successful Reunion of the Fraternity was adjourned.

## Dean Hayward Addresses Club

Dean Hayward was the speaker of the evening at the regular meeting of the Agricultural Club held last Thursday evening. He gave a brief resumé of his work in France inserting in his usual pleasing way, anecdotes of special interest. Among the statistics which he gathered while at the University of Beaufort was a note on the scholarship "Only six per cent of the whole enrollment were below the passing grade at mid-years," said the Dean, "This is a record that our own students might well emulate."

The French excell in their truck gardening, he explained, and each phase of the work is done to a nicety, so that their gardens are a joy to behold.

Dean Hayward's address was greeted with the greatest interest and appreciation by the members of the Club.

## Professor C. A. Short Will Leave College

### Gives Up Teaching in February to go with Continental Fibre Co.

Professor Clarence A. Short has tendered his resignation from the Faculty, to become effective February 1, 1920, when he will join the forces of the Continental Fibre Co. at Newark. The announcement of Professor Short's resignation was made last week, much to the regret of the students. Like many other professors who are being lost by the colleges, however, Professor Short has decided to give up teaching for more lucrative commercial work.

Professor Short was graduated from Delaware College in 1896, valedictorian of his class, with the degree of M. S. After a considerable experience in teaching, he became Instructor in Mathematics and Engineering at Delaware College in September 1903. That same year he became Ass't Professor, and in 1908 he was made full professor. He received the M. S. degree from Delaware in 1905, having taken a special course in Mathematics and Civil Engineering at the University of the South the preceding summer.

Professor Short has always taken a keen interest in military matters. His first work in teaching was as Commandant at the Worthington Military School, Lincoln, Neb. For two and one-half years he was Captain of Company E, Organized Militia of Delaware. Later he was promoted to the rank of major, and served as Inspector General on the Adjutant General's Staff. August 20, 1918, he was commissioned a major in the U. S. Army and sent to Camp Meade as adjutant of the 22nd Infantry. He was later transferred to Camp Travis, Texas, as Camp Adjutant, in which post he remained until August 11, 1919, when he was transferred to Camp Dix and mustered out of the service.

Professor Short's resignation, coming so soon after his return from the service comes as a surprise and a shock to the students. He has always been one of the most popular professors in the College. In the field of athletics, Professor Short has always been an enthusiast. For two years, he coached the Blue and Gold eleven, and he has ever been an interested supporter of the college sports. As chairman of the Faculty Committee on entrance, too, Professor Short has done much to advance the interests of Delaware College.

## Greek Classics Given To College

Eight handsomely bound quarto volumes of the Greek classics have just been presented to the College by Mrs. William L. Boswell, of Washington, D. C. Professor William L. Boswell was at one time professor of Ancient Languages at Delaware College, and the books were presented to him in December 1855 by the members of the Delta Phi Literary Society as a mark of their appreciation for his work at the College. After leaving Delaware College, Professor Boswell taught at Dickenson College from 1857 until 1865. He died in 1912.

## Faculty Club To Entertain Seniors

On Monday evening, December 15, the Faculty Club, will entertain the members of the Senior Class at a smoker. Those who remember the delightful joint receptions given last year to the students of both colleges by the Faculty will envy the Seniors this smoker. The smoker will be given in the rooms of the Faculty Club in Old College.

## Dean Hayward Going into Commercial Work

### Head of Department of Agriculture Accepts Position with N. W. Ayer Co.

Much to the surprise of the students and friends of Delaware College, announcement was made last week of the resignation of Dean Harry Hayward from the College Faculty. Dean Hayward will enter the employ of the N. W. Ayer Co., of Philadelphia, one of the largest advertising firms of the country.

Dean Hayward has been with the College for thirteen years. Through his efforts, the course in Agriculture has been greatly strengthened and enlarged. The College Farm, too, has been brought up to a high point of efficiency and service.

The admiration and enthusiastic support which was given to Dean Hayward in his work by students and Faculty alike was well shown last week, when, upon hearing the rumor that he was going to resign, two petitions were prepared and sent to the Board of Trustees, urging that every effort be made to retain Dean Hayward. One of these petitions was prepared by the Agricultural Club and was signed by virtually every student in the College. The other originated in the Agricultural staff. The petitions, however, although prepared as soon as the rumors of Dean Hayward's resignation became current, reached the Agricultural Committee of the Faculty after his resignation had been accepted.

On Saturday, a further petition was prepared by the students, because of an article that had appeared in the Wilmington Morning News of that date. In this petition, which was published in the daily papers, attention was called to the former petition, and the request was made, based upon the feeling that Dean Hayward had not resigned voluntarily, that an investigation of the whole matter be made.

The leaving of Dean Hayward is a great loss to the College. Selected as one of the ten men from the United States who directed the work in rehabilitation in Agriculture in France, and then twice decorated for his service by the French Government, Dean Hayward was one of the strongest and best known men at the College. He returned from his service in France just before the opening of the college year in September, and he had started in upon his work with the greatest interest. His work in connection with the College Farm, too, won for him the admiration and support of the farmers of the State as well as the students of the College.

## FRESHMAN QUINTET LEADS IN INTERCLASS BASKETBALL

### SENIORS NOW ELIMINATED FROM CONTEST; FIRST YEAR MEN EXCEL IN OPENING GAMES OF SERIES

Contrary to general custom, the interclass series is being played off this year before the varsity season starts. Coach Shipley has arranged a schedule of eighteen games to be run off before the 17th when the big season starts at Navy. Whether or not this system will enable the coach to get a line on new men is a matter of conjecture, but it will at least get the series out of the way so that mid-season practice will not be interfered with.

Up to the present time six games have been played, resulting practically in the elimination of the Seniors from the race, and leaving the three lower classes to fight it out. The Freshmen are still on the long end with three victories to their credit; the Juniors are running a close second and the Sophomores are trailing a few points behind the older boys.

Several good men have been uncovered and Shipley is satisfied that he will have a good string of varsity men after the class scraps are over.

The series opened last Wednesday with the Juniors and Freshmen on the floor. The game was fast, and although the Juniors had the edge, the superior shooting of the Fresh forwards decided the contest, the lower classmen winning 17 to 12. On the following day the Sophomores had little trouble taking the Seniors under their wing, 25 to 7. The Seniors fought hard, but the superior passing of the Sophs seemed to bewilder them. Since that date four games have been run off, the Juniors defeating the Seniors, 28 to 8; the Freshmen taking the Sophomores into camp, 16 to 15; the Freshmen walking on the

(Continued on Page 3)

## Mason Concert Next Tuesday

### J. Helffenstein Mason to Give Concert in Wolf Hall; Other Artists Present

A concert of unusual excellence will be given in Wolf Hall on Tuesday evening, under the auspices of the Faculty Club. The concert is featured by the presence of Mr. Helffenstein Mason, basso profundo, who, it will be recalled was at Newark last Spring. Mr. Mason will be accompanied by Emily Stokes Hazard, Soprano, Marie Stone Langston, Contralto, George Rothermal, Dramatic Tenor, and William Silvano Thunder, Pianist.

All these artists have been praised highly by the press of the various cities in which they have appeared. William Silvano Thunder was at Newark last year with Mr. Mason. Miss Langston gave a joint concert here several years ago with Mrs. Leonard Wales. This concert, given in Old College before it was remodelled, met with the greatest appreciation from both the students and townspeople.

A special admission price of fifty cents will be charged the students. This concert is a treat extraordinary for both the College and the town and no student who has the opportunity to attend should fail to do so.

## Two Men Join Staff As Assistant Managers

John A. Levandis and Thomas W. Mulrooney, both members of the Junior Class, have been appointed as the two Assistant Business managers on the staff of the Review. Both men are thoroughly familiar with the work which they will do, and it is expected that the personnel of the staff will be greatly strengthened by them. Levandis aided materially at the opening of the college year in the securing of the advertisements needed for the paper. Mulrooney also has secured advertisements this year. Both men are very much interested in the work and they are planning to improve the financial condition of the paper.

## PROFESSORS DEFEATED BY SENIORS 12 TO 10

### Classic Game In Mud and Snow Ends In Student Victory

Traditions and bones were broken on Saturday last when the Seniors met the Faculty in football for the first time in the history of Delaware College. The battle was fought in several inches of snow and slush, with a cold rain driving across Frazer Field, and the spectators were wet through before the first quarter was ended. Despite rain, snow, and hail, a fast and exciting game was played and the handful of rooters who were present warmed themselves by following the play up and down the sidelines and by passing advice out to both teams in the field.

The game started off with a rush. (Continued on Page 4)

## Sunday Meetings Will Be Held

As a result of the recent evidences of the need felt by the students for some form of religious exercises, particularly some Sunday exercises, the first meeting of a series will be held next Sunday at five-thirty in the Lounge. A committee of interested students met last Sunday afternoon and discussed plans for the meetings.

The meetings will be held on a non-sectarian basis. They will be altogether of an informal nature, and every effort will be made to make them interesting. Various topics of general interest will be discussed, and there will be open discussions. The older students will remember the Sunday afternoon meetings held at the College two years ago, and will recall with what success they were received by the students. It is hoped that these meetings will be of similar character, and they will be received with equal favor by the present student body.

The students, members of the Faculty, and any friends of the College are invited to attend these meetings.

### Awakening of Interest

Evidence of awakening interest among the student body was shown at the student meeting on December 3. The very general discussion at that meeting is the first evidence that the morale of the student body, so low since the war strain, is again returning to normal strength. It served to show, too, that the student meetings are being recognized as forms in which each man has the opportunity to discuss and suggest.

It was unfortunate that this initial discussion should have been about the religious side of the college life. As one member of the Faculty put it, "Religious discussion never gets anywhere; it only produces prejudice and bigotry," though it may not result in any improvement in the actual thing discussed, however, the discussion did show that the students are interested in the religious side of life. This interest should serve to encourage those who are seeking to establish some organization at Delaware which shall appeal to the religious element in the students.

In the matter of the chapel program, the issue should be clearly understood by those concerned. The criticisms made were all of a wholesome nature; no personalities were indulged in at all. Certainly no fault was found with the purposes of those who are managing the chapel. They have worked, not for any "pet" aims of their own, but for the student body as a whole. The real trouble is that the men who first felt the lack of harmony in the program should have made their suggestions either to Mr. Carter or to Dr. Moore. Above all, it should not be supposed that there is a lack of appreciation of the orchestra. No student would want to see this organization taken away; it has become a recognized part of the college, and it is well appreciated by all.

The discussion, no matter what the actual result on the program may be, was worth while. The possibilities for making the student meetings into real forms, which it indicated, are invaluable. They should certainly be grasped at once by the student body, and all future meetings should be characterized by discussion on timely subjects.

### Education Work Is Successful

The Department of Agricultural Education at Delaware College, under the direction of Mr. Heim, is meeting with wonderful success in supervising the additional training of the Vocational Agricultural Instructors in twenty five different parts of the state. Several institutes have been held in different parts of the state, to discuss the methods used, and the

results obtained. These institutes have been found of great value in coordinating the work, and producing new ideas.

Next semester, Mr. Heim will offer several specialized courses in this work for Seniors who are attracted by the opportunities offered in the teaching field. At present, the salaries in Delaware range from \$1200 to \$1800 and there is reason to believe that these positions will be made more attractive in the near future. The demand for properly trained teachers far exceeds the supply, and it was only the other day that Delaware College was requested to furnish eight teachers for work in Pennsylvania at salaries of from \$1500 to \$2200.

### College Association Holds Convention

At the 33rd Annual Convention of the Association of Colleges and Preparatory Schools of the Middle Atlantic States and Maryland, held at the University of Pennsylvania on Friday and Saturday, November 28 and 29, many of the most interesting features of the present college problems were discussed. At the Friday meeting the question of psychological tests as a substitute for the content tests for college admission was discussed.

On Saturday morning meetings were held of the Classical Association of the Atlantic States, of the College Conference on English, of the Association of Modern Language Teachers, of the Association of History Teachers, and of the Association of Teachers of Mathematics. At each of these meetings matters of importance to the separate branches represented were discussed.

At these meetings, Delaware College was represented by Professor Elisha Conover, Dr. S. C. Mitchell, Dr. W. O. Sypherd, and Dr. K. R. Greenfield.

### Engineers Hear Of Construction Division

At the meeting of the Engineering Society on Thursday, December 4, 1919, Mr. Edgar M. Hoopes, Assoc. Mem. Am. Soc. Civil Eng., of Wilmington, gave an interesting illustrated lecture on the work of the Construction Division during the war. Mr. Hoopes served as a captain in this division. He told of the organization and of the problems of the division, giving a number of interesting stories from his own experiences in the division. A number of interesting lantern slides which Mr. Hoopes secured from the Government were used to illustrate his lecture.

The program which has been prepared for the next two meetings of the Society follows:

Thursday, December 18, Old College.

"A battery of field artillery in the Meuse Argonne"—G. C. Brower.

"Electrical Engineering Course of Philadelphia Electric Company"—H. J. Little.

Thursday, January 15, Wolf Hall.

"The Building of Good Roads," Lecture illustrated by motion pictures—Wm. M. Francis.

### Magee Winner Of Swimming Contest

At the swimming event of the weekly individual meet, held in the gym pool last Friday, "Ben" Magee, '22, slashed around the five laps in 2 minutes and 17 seconds, making him the winner. Brewer, '22, was a close second with 2:21.2. Howard, Harmer, Rowan, and Lilly were next in order named.

This event is the sixth of the individual series. It shows that the competition is becoming keen. The standing of the leaders now is: Harmer, 30, J. S. Wilson, 23, Loose, 21½, Christfield, 17, Hoey, 15, Twoes, 13½, Daly, 10½.

### CAFE FOR YOUR MONEY AND IT WILL CARE FOR YOU

ONE reason there is so much want, failure, distress and ruin is because so many people never deny themselves but live beyond their means. Make up your mind that you will work industriously to earn money and save a goodly portion to build up a fund for wise investment. Why not start this fund by opening an account in the Savings Department of this institution. You can deposit any amount from \$1.00 to \$100 monthly and obtain 4% interest, compounded semi-annually. Accounts may be opened also for your children.

**DELAWARE TO SEND CONVENTION DELEGATES**

**College To Be Represented At Student Volunteer Convention At Des Moines, Ia.**

Through the very generous help which some of the churches in Wilmington have given to Delaware College, the College will be represented at the Eighth International Student Volunteer Convention to be held in Des Moines, Iowa, from December 31 to January 4.

Delegates from all parts of the United States and Canada will attend the Convention, and capable speakers from all parts of the world will discuss matters of world interest with which they are familiar. The work of the Convention will acquaint the men present with the problems confronting the churches today, and will seek to give the men inspiration to solve those problems in more Christian ways.

At this Convention, Delaware College will be represented by Herman McKay, '20, John H. Alderson, '20, Charles Carswell, '20, and Alex Blair, '20. Carswell has been elected by the men to head the delegation. Most of the expenses of the men are being borne by three churches in Wilmington. Westminster Church, Grace Church, and Harrison Street Church have all aided liberally in furnishing the means whereby Delaware College might be represented in this great Convention of college men. The collection given by the student body toward the expenses of the delegation also aided, although its greatest help was in the registering of the interest which the students feel in the Convention.

The Women's College of Delaware is sending three delegates to the Convention.

It is hoped that when the men return from Des Moines, it may be possible to organize a Y. M. C. A. at the College.

**Chess Club Active**

The Elimination Chess Tournament which has been in progress since the opening of the college year has finally ended with W. T. Broughall the victor. R. H. McMullen was runner up, and closely at his heels was J. F. (Spitz) O'Neill, the president of the club. This tournament aroused great interest among the chess enthusiasts in the college, twenty-two men taking part in the first round. Arrangements are being made to play the Brandwine Chess Club of Wilmington, at the college next Friday evening. This organization is made up almost entirely of college and university graduates. Dr. H. H. Morris, a member of the club, is one of the strongest amateur players in the East. He succeeded in beating Marshall, the American Champion, at the latter's Divan in Atlantic City, this summer.

Besides Doctors Foster and Moore, the probable line up of the Delaware Team is Broughall, McMullen, O'Neill, Swezey, and W. D. Smith.

The Business Administration has assigned for the use of the club the room on the second floor of Old College next to the Blue Hen room. The room will be open at all times and anyone is welcome to go up and play chess.

Dr. Virgil Prettyman, Headmaster of the Horace Mann School for Boys, West 246 Street, New York City, was formerly a student in Delaware College. He attended the educational meeting at the University of Pennsylvania last week.

**Stiff Schedule For Basketball FRESHMEN QUINTET LEADS IN INTERCLASS BASKETBALL**

Soon the basketball season at Delaware will be in full swing and the five men who make the varsity will face the best teams in the east. On December 17 comes the first game, a game which is a milestone in athletic history of Delaware College, since it marks the beginning of athletic relations with the Naval Academy of Annapolis. Throughout the schedule are such teams as Lafayette, Penn State, Georgetown, Catholic U., and last but not least, the University of Pennsylvania. Taking everything into consideration this year's schedule is the hardest a Delaware team has ever faced.

- The schedule follows:  
 Dec. 17—Navy, at Annapolis.  
 Dec. 18—Catholic University, at Newark.  
 Dec. 22—Stevens, at Newark.  
 Jan. 8—Lafayette at Newark.  
 Jan. 10 and 16—Open.  
 Jan. 17—Ursinus, at Newark.  
 Jan. 19—Catholic University, at Washington  
 Jan. 20—Georgetown University, at Georgetown.  
 Jan. 30—Haverford, at Haverford.  
 Feb. 5—Penn State at Newark.  
 Feb. 6—Franklin and Marshall, at Newark.  
 Feb. 7—Muhlenburg, at Muhlenburg.  
 Feb. 12—Gettysburg at Gettysburg, (pending.)  
 Feb. 13—Dickinson at Carlisle (pending.)  
 Feb. 14—Franklin and Marshall, at Lancaster, (pending.)  
 Feb. 18—University of Pennsylvania, at Philadelphia.  
 Feb. 19—V. P. I., at Newark.  
 Feb. 20 and 23—Open.  
 Feb. 27—Swarthmore, at Newark.

(Continued from Page 1)  
 Seniors, 25 to 0; and the Juniors leading the Sophomores out to the tune of 19 to 15. All the contests have been fast and cleanly played, the only accident being a chipped elbow which Harry Loose was unfortunate enough to get.

On the Freshman team, the two best bets seem to be Jackson and Armstrong. Jackson is an aggressive forward, a good shot and a hard worker. He will probably put in his bid for the varsity this year. Armstrong, by training a guard, is playing a good steady game at center and although his shooting is a trifle off, his fast, clean floor work makes him a valuable man. McGovern, Cole, and Ramsey are also showing up well for the first-year lads.

For the Sophomores, "Muns" Keith probably deserves honorable mention with "Frankie" Willis a close second. "Muns" a fast, clever floorman, is elusive and is a good shot. His size is the only thing against him. Willis is playing a good defensive game and is a steady man to have back. The series will probably be decided this week and the fans are ready for any verdict, so evenly matched do the teams seem. Whatever the outcome, fast, clean matches are expected.

As it now stands:

|            | Played | Won | Lost | Perc. |
|------------|--------|-----|------|-------|
| Freshmen   | 3      | 3   | 0    | 1.000 |
| Juniors    | 3      | 2   | 1    | .666  |
| Sophomores | 3      | 1   | 2    | .333  |
| Seniors    | 3      | 0   | 3    | .000  |

Neatly pressed and creased clothes constitute the college man's traditional ambition. You serve not only your own ambition, but do an act of generosity when you get your clothes pressed by the fellow who is working his way through.

**PROFESSORS DEFEATED BY SENIORS 12 TO 10**

(Continued from Page 1)  
On the kickoff, Prof. Bausman started to run the ball back. Bob Pool, doing a breast stroke through the water, finally hit him and Bausman did an Australian crawl for several feet before he was able to get his head above water. Incidentally the mud was not soft enough and Professor's collar-bone cracked under the blow. "One out!" said the Seniors while the Faculty swore vengeance. And vengeance they had, for Pool himself was retired in the third quarter with three cracked ribs. Bloody noses were frequent. "Hank" Alderson and "Spitz" O'Neill being two of the most prominent recipients. Outside of these minor injuries, the game was cleanly played.

of Shipley's headwork. Seniors punted out from their own goal line and Coach signalled for a catch. Kite, who didn't know a fair catch from a soccer ball, tackled him, involving a 15 yd. penalty and a free placement kick. Shipley kicked the goal making the score 3 to 0. Later, Lou Plam, who alternated for the Seniors and Faculty got away for a touchdown for the Seniors. Shipley came back, however, with straight line plunges, followed by an end run which resulted in a touchdown and the Faculty was ahead, 10 to 6. The last quarter told the tale for the Faculty. "Dick" Barnard, mainstay and captain of the student team intercepted a forward and led the rest of the players down the field towards a touchdown, beating the Faculty by the small margin of 2 points.

to pick. Shipley, due to his former experience, outshone the rest of the field but was closely pressed by "Slipstick" Hancock the diminutive halfback from Iowa State. For the Seniors, "Dick" Barnard was the shining light. The playing of Meade, Olcott and Plam might also be mentioned.

**College Represented In Grange Election**

In a recent election of officers of the Newark Grange, the representation of Delaware College Faculty and students is noteworthy. Officers held by members of the Faculty include: Master, C. A. McCue; Secretary, R. O. Bausman; those held by students are: Overseer, F. Robert Pool; Lecturer, J. Woodward Olcott; Steward, Clude Phillips Ass't Steward, George M. Longland; Chaplain, John Singey; Gatekeeper, George S. Cullen.
