## HOME GARDENS BRING PROFIT

County Agent Urges Variety of Vegetables Needed For "Balancing"

"Why not have a good home garden this year?" asks G. M. Worrlow, agricultural agent for New Castle County located at Newark. "The fresh vegetables produced not only represents an important saving on the family food budget, but form one of the most palatable and healthful parts of the diet."

"With a well-chosen variety of vegetables," Mr. Worrlow points out, "a large portion of the family's food needs will be supplied. Then the homemaker can easily prepare well-balanced meals at all times."

#### Spare Time Work

"A garden should be located as near the house as convenient, for gardening work is usually done during spare time. When the location has been decided upon, the next move is to make a drawing of the garden on paper, marking off where each kind of vegetable is to be grown. The distance between rows, the growing season and the approximate time that the seed or plants are to be planted, should be considered when mapping out this diagram," he adds.

Plants such as tomatoes, eggplant and peppers are long-growing crops. Short season crops are those such as early lettuce, spinach, and radishes. These should be planted in the same rows as tomatoes or between the rows, so that they may be harvested before the long-season crops require space to develop.

#### Planting At Intervals

Crops such as beans and sugar corn may be planted at 6 to 10 day intervals to provide a succession of plantings and continuous picking throughout the growing season. If all the beans were planted at one time, the busy home maker could not utilize the surplus produce, except by canning.

The fall garden is just as important as the spring garden, so plans must be made either to sow seed or to set out plant crops during the summer. The proper vegetables, planted at this time, will be ripe in the late fall and may be stored or canned for winter use. Late cabbage and celery plants should be set out from July 1 to July 10. Seed for late carrots and beets may also be planted then.

## LOCAL C. OF C. CONCENTRATES ON NEW PLANS

Campaign Designed To Bring Horse Followers Here During Summer

### VACANT ROOMS LISTED

Cash Prizes Offered Slogan Makers and Designers Of Window Emblem

Concentrating their initial efforts to place Newark among the leading cities and towns on the Delmarva Peninsula, directors of the recently reorganized Chamber of Commerce laid plans Monday night for an opening campaign designed to attract patrons and employees of Delaware Park.

The meeting, directed by President George F. Jackson, was held at Powell's Restaurant. Secretary Herman Handloff and Directors Meyer Pflnick, George Danby, W. S. Hamilton, Dr. G. W. Rhodes and R. J. Boyd were also present.

After discussing a general advertising-publicity campaign in an effort to bring new permanent residents here, the board took definite steps toward attracting racing patrons to Newark for the duration of the initial meeting at Delaware Park.

#### Seek Public Cooperation

With restaurants, hotels, rooming houses, filling stations, drug stores, barber shops, motion picture houses and sundry other businesses certain to reap immediate financial benefits from racing people, prompt action was essential in order to have a plan working by the time Delaware Park opens on June 26.

Advertisements have been inserted in Havre de Grace papers directed at followers of the thoroughbreds. They will be continued for the duration of the meeting at the Maryland center.

In order to meet any demand for rooms and living quarters, people are being requested to register vacancies and full information with the Chamber. As a means of cooperating, THE NEWARK POST is carrying a coupon-questionnaire in another section of the paper for the use of house owners wishing to file vacancies.

#### May Erect Billboards

If suitable arrangements can be made with property owners, billboards will be erected at all vehicular exits from Delaware Park directing motorists to Newark.

Actual work on the revisions necessary to bring the by-laws of the chamber up to date was limited to discussion due to the absence of four directors.

Among the important steps taken, however, was the adoption of the idea to issue a window emblem as a receipt for dues. Business houses and stores connected with the body will be requested to give the emblem prominent display on buildings, stationery and every advertising medium.

A contest sponsored jointly by the Chamber of Commerce and THE (Continued on Page 4)

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

By REV. HAROLD L. LUNDQUIST, Dean of the Moody Bible Institute of Chicago, Western Newspaper Union.

Lesson for April 18

THE EFFECTS OF ALCOHOLIC BEVERAGES

LESSON TEXT—Genesis 13:13; 19:23-25; Deuteronomy 32:31-33; Proverbs 23:29-32. GOLDEN TEXT—At the last it biteth like a serpent, and stingeth like an adder. Proverbs 23:32.

PRIMARY TOPIC—A Man Who Had First Choice.

JUNIOR TOPIC—The Way of Woe.

INTERMEDIATE AND SENIOR TOPIC—What Science Says About Alcohol.

YOUNG PEOPLE AND ADULT TOPIC—The Scientific Basis of Temperance.

The American people are alert to the forces which threaten the bulwarks of national life, and are ready to take intelligent and effective action against them when fully aroused to the danger. The powers of evil know this to be true and are careful to avoid anything that directs our attention to what is constantly going on under cover. The liquor question is one of our nation's most serious problems. The devastating results of the widespread sale and use of intoxicants will only be known as Christian men and women unmask this wicked business which poses under the banner of congenial and pleasant living, and proudly points to its recognition by the government as a legal enterprise.

The facts are available through various temperance organizations and in such books as "Alcohol and Man," by Dr. Emerson of Columbia university. The Sunday School lessons for 1937 present four opportunities to bring the matter squarely before the adults and children who are in our Bible Schools. We have already (Jan. 31) considered the economic problem, and will later deal with temperance as a social and moral evil. The lesson for today affords a special opportunity to touch on the scientific side, presenting intoxicants in their true light as a poison. Look up the word "intoxicate" in a good dictionary and you at once have a picture of what beer, wine, and whiskey do to the human body.

The Christian approach to any consideration of the matter is by recognizing that man is a spiritual being, dwelling in a physical body.

I. We Live in a World of Moral Responsibility (Gen. 13:13; 19:23-25). Life is not a careless drifting from day to day, from pleasure to pleasure, into sin or not as one may choose, with no responsibility for one's actions. Man was created in the likeness and image of God. He possesses the power of choice. He knows right from wrong. If he chooses to do right he has all the resources of the omnipotent God to call upon as his strength and stay. But if he chooses to turn his back upon God and upon Christ, and to go into the ways of sin, let him be sure that there is a day of judgment to come from which he shall in no wise escape. The destruction of the wicked cities of the plain, terrible as it was in itself, is but a prophecy of judgment to come. See Luke 10:10-12.

II. Men Go Two Different Ways (Deut. 32:31-33). Moses contrasts the Rock in which his people trusted, and the corrupt standards of their heathen neighbors by which they were tempted. One greater than Moses spoke of the two ways (read Matt. 7:13, 14), and pointed out the sad fact that there are many that go down the broad way to destruction, and few who walk in the narrow way of life. Let us seek to win our young men and women away from the sinful ways of this world.

III. The Liquor Way Is the Wrong Way (Prov. 23:29-32). Skillful indeed are the advertising devices of the liquor interests! They associate their intoxicants (poisons) with holiday festivities, happy family gatherings, social preference, and so on. They do not picture the bleary eye, the babbling tongue, the "wounds without cause." They carefully overlook the broken-hearted mother, the ragged children, the empty cupboard, and the devastated home life. They say nothing of the men who have lost their characters and their jobs, and of the women who have lowered themselves beyond description because of their love for liquor. Let us in tenderness and heart-broken humility present to our Sunday School classes that picture, which is a disgrace to our nation. The wine may look red, and it may even go "smoothly down the throat" (a possible translation of the words "when it moveth aright," v. 31), but it still has the bite of a serpent and the sting of an adder (v. 32).

Aims and Duties. What are the aims which are at the same time duties?—they are the perfecting of ourselves, and the happiness of others.

Injustice. The injustice of men subverts the justice of God, and often His mercy.—Madame Swetchine.

Doing Good. "Doing good is the only certainly happy action of man's life."—Sir Philip Sidney.

## Delaware Truckers Told To Call Police For Aid

W. T. Derriekson, director of the Bureau of Markets, State Board of Agriculture, has told Delaware truckers to seek police aid if molested when making deliveries in New York City.

Advices have reached Dover to the effect that some trucks from nearby states hauling fruits, vegetables, live poultry and eggs to Manhattan, have

been stopped and required to take on a union truck driver in order to deliver their load.

The charge made by the union is \$9.42 for eight hours and if only a fraction of that period is required to complete the delivery, the same amount of money has to be paid. The additional amount is general paid by the shipper.

It appears that these trucks are being stopped by members of Local Union No. 807 which is thought to be a merchandising group. Local Union No. 202 is composed of truck drivers, chauffeurs, teamsters, etc., and members thereof are not participating in the practice.

### Stage Show at State Theatre

This theatre will present "National Radio Jamboree" featuring Jack Pierce and his Oklahoma Cowboys and Ezra's Barn Dance Gange on Friday and Saturday. These stars have been heard many times over the radio from stations in the south, and only a few weeks ago heard over Philadelphia's WCAU. Recordings have been made by these artists of songs and music that carry you back to days of long ago. Two of the outstanding stars of the troupe are "Hezzie," Newman, world's champion harmonica, banjo and musical saw player, and "Slim" the famous "Piney Ridge" comedian. There will be two shows on Friday evening, the admission will be adults 40c, children 15c. Saturday the shows will start at 2:30 with admission prices reduced to adults 25c, children 10c, until 5:30 p. m. After 5:30 p. m., the same as Friday evening.

### State Theatre Briefs

Friday and Saturday "Ready, Willing and Able," a comedy with music made by Warner Bros., from the story of the same name that ran in a national weekly magazine last year will be presented these two days. Co-starred are the twinklingtoed Ruby Keeler and the famous young eccentric dancer Leo Dixon. The supporting cast of the film is Louise Fazenda, Allen Jenkins, Wini Shaw, the late Ross Alexander and the "piano-movers" from vaudeville, Shaw and Lee. The picture is said to have much more substantial and coherent story than most musical films have. It was adapted for the screen by Jerry Wald, Sig Herzig and Warren Duff.

Ruby Keeler

Monday and Tuesday Charles Boyer and Jean Arthur, the screen's newest team of film romancers comes to the screen in Walter Wanger's "History Is Made at Night." This smart, fast-paced romance casts Boyer in a totally new type of role as Paul Dumond, dashing man-about-town and the most popular head waiter on the Continent, while Miss Arthur is seen as a lovely New York mannequin. Leo Carrillo and Colin Clive are featured in the supporting cast, which also includes Ivan Lebedeff, George Meeker, Lucian Prival, Georges Renavent and many others.

### Wednesday and Thursday

A transcontinental martial fight provides a hilarious new vehicle for Robert Young, Ann Southern, Reginald Owen, Cora Witherspoon and others in "Dangerous Number," a satire on married life produced by M-G-M under the direction of Richard Thorpe. The picture tells of a young businessman who marries an actress, and of a moonmoon trip across the United States which proves one continual battle, the couple quarreling and becoming reconciled again on an average of every half hour.

In a series of meetings to be held at the Hockessin Fire House this month, Miss Anna Quay will speak on home hygiene at two o'clock, Tuesday, April 20, and will repeat the program a week later. **Junior Committees Now Going Into Full Swing**

"You bet we had our meeting Monday night," A. Neal Smythe, publicity head for the American Flag Council No. 26, Jr. O. U. A. M., said in an interview this week.

He continued: "All committees are on the jump. The quilt committee would like a challenge any night, and the church committee would appreciate an invitation to church service soon. Our open night will be Monday evening, May 3, in the council room. All men and boys over 16 years will be welcomed."

"Twenty-five of the brothers will go

to Harrington next Tuesday," Mr. Smythe continued, "for the state council session."

"Bear in mind our open house, May 3. There will be plenty of fun and plenty to eat," Mr. Smythe emphasized in closing.

The following girls served: Marcelle Skinner, Oleta Harrington, Ruby Mays, Berkie Edwards, Elizabeth Stewart, Eleanor Egner, Alice Campbell, Dorothy Carrell, Virginia Stickely, Elizabeth Reed, Florence Anderson, Margaret Lynam, Naudain Black, Mary Mercer, Gertrude Knighton and Grace Kelly.

**Engineers To Hold "Open House" in Evans Hall**

On Friday, April 16, the Engineering School of the University of Delaware will hold its first "Open House" in Evans Hall, from 1 to 5 p. m., and from 7 to 10 p. m.

Guides will be provided to conduct guests through the new Chemistry Building and electrical, civil and mechanical engineering exhibits will be shown. Through the courtesy of the Baltimore and Ohio Railroad, the civil engineers have secured the bridge models displayed at the Chicago World's Fair. These models, which are correct in detail and true to scale, are masterpieces of the model builder's art.
